2. **THE CHIEF OF POLICE** will manage the Police Department within the guidelines established by the city manager and according to the principles set forth in this order

B. VISION STATEMENT

[12.2.1]

The members of the Chandler Police Department are dedicated to the advancement of community policing and the development of a partnership with our community to serve its needs in a professional, efficient, and effective manner. We will strive to develop a comprehensive strategy to resolve public safety issues and enhance the quality of life within our city.

C. MISSION STATEMENT

To provide a safe community where people can live, work and thrive

D. REVERENCE FOR THE LAW

[1.1.1][1.2.1][1.2.3]

1. **THE PRIMARY DUTY OF A POLICE OFFICER** is to uphold and enforce the law. The application and enforcement of the law must be accomplished in the spirit set forth by the framers of the Constitution. The rights of each individual are equal with those of the state that might accuse him. The Constitution provides for fundamental enforcement of the law with fairness and equity.
2. **THE LAWS OF THE STATE OF ARIZONA** allow for their application to be made fairly and with the spirit of the law, rather than with blind adherence to the strict construction of a statute. Officers shall direct their efforts to the impartial application of the spirit of the law for the purpose set forth in the statutes.
 - a. Prior to accepting the status of a peace officer, a person must take an oath of office as defined in ARS 38-231 to enforce the law and uphold the Constitution of the United States and the Constitution of the State of Arizona
 - b. Officers should not grudgingly grant the accused his rights when taking enforcement action; rather, they should conduct all enforcement action in the spirit of ensuring that police protects the rights of accused persons

- c. Officers should avoid any conduct that would violate the law in the enforcement of criminal statutes. The commission of any crime cannot be justified to affect the expedient enforcement of the law.
- d. Officers should display a reverence for the legal rights of all citizens and a reverence for the law itself. Officers **will not** stop an individual based only on race, religion, national origin, gender, sexual orientation, or economic status.

E. DISCRETION

[1.2.6] [1.2.7]

When applying the law, officers shall exercise mature judgment and discretion within the limits of statutory authority and departmental policy

1. **OFFICERS HAVE THE FOLLOWING OPTIONS** in handling violators:

- a. Physical arrest
- b. Citation
- c. Long form complaint or juvenile referral
- d. Referral to social agency
- e. Warning, at the officer's discretion
- f. No police action necessary, released

2. **EMPLOYEES WILL ADHERE TO** departmental orders, policies, and procedures and to strive to use proper judgment and discretion in situations not specifically covered in manuals

3. **EMPLOYEES MAY DEVIATE** from established departmental policies and procedures when it is in the obvious best interests of the department to do so

- a. Employees should rarely deviate from established policy
- b. Employees must be able to justify any deviation from policy
- c. Employees should obtain supervisory approval to deviate from established policy when time permits
- d. Employees will report deviations from policy to their supervisor as soon as possible

4. **SUPERVISORS MAY ISSUE ORDERS** that deviate from written orders during an emergency which will be temporary and remain in effect only during the emergency. Report such deviations to the next higher level supervisor as soon as practical.

F. AUTHORITY

[1.2.1]

Chandler police officers are sworn peace officers in the State of Arizona. Per ARS 13-3871, peace officers are vested with the authority to enforce and investigate violations of state law. The City Code of Chandler vests authority in Chandler police officers to enforce all applicable city ordinances.

G. PUBLIC APPROVAL OF POLICE

1. **THE ABILITY OF THE POLICE** to effectively perform their duties relies upon the approval of the public
 - a. The ability of the police to secure and maintain public respect is dependent on the actions and behavior of individual officers and the entire police organization
 - b. The police must secure the cooperation of the public to voluntarily observe the law in order to secure and maintain the respect and approval of the public
 - c. The degree of public cooperation that can be secured voluntarily diminishes proportionately with the improper use of force to achieve police objectives
2. **CHANDLER POLICE DEPARTMENT IS COMMITTED TO** maintaining a positive relationship with the community and to correcting any possible adverse actions, practices, and attitudes that may contribute to community tensions and grievances
 - a. The department will accept comments and concerns from various community-based groups to ensure that department policy reflects the needs of the community
 - b. Input may include, but is not limited to, feedback from neighborhood meetings, citizen complaints, citizen surveys, request for service reports, and information obtained through Community Resources and Neighborhood Resources
3. **OUR SUCCESS WILL BE MEASURED BY** improved working relationships between police and citizens and the realization that our community is safe, viable, and attractive for commerce and community life

**H. COOPERATION WITH OTHER
LAW ENFORCEMENT AGENCIES**

1. **SINCE CRIME DOES NOT HAVE JURISDICTIONAL BOUNDARIES**, Chandler Police Department will cooperate with all other law enforcement agencies whenever possible
 - a. The Chief of Police will maintain liaison with other agencies through organizations such as the Arizona Association of Chiefs of Police, The East Valley Chiefs of Police Association, and the Arizona FBI National Academy Association
 - b. When possible, the department will participate in cooperative programs, i.e., joint task force, criminal justice, etc.
2. **IN ORDER TO SERVE THE PUBLIC**, the criminal justice system relies on the cooperation of the police with prosecutors, courts, and correctional officers to ensure the development of a safer community

I. CODE OF ETHICS

[1.1.2]

1. All employees of the Chandler Police Department (whether paid or volunteer) will conduct themselves in a manner that is consistent with the policies and philosophies of the Chandler Police Department.
2. All employees will read and sign the following code of ethics. During the performance of their duties, they will strive to project a professional image and abide by the following code of ethics:

I will exercise self-restraint and be constantly mindful of the welfare of others. I will be exemplary in obeying the laws of the land and loyal to the State of Arizona, my agency, and its objectives and regulations. Whatever I see or hear that is of a confidential nature or that is confided to me in my official capacity will be kept secure unless revelation is necessary in the performance of my duty.

I will never take selfish advantage of my position and will not allow my personal feelings, animosities, or friendships to influence my actions or decisions. I will exercise the authority of my office to the best of my ability with courtesy and vigilance; without favor, malice, or ill will; and without compromise. I am a servant of the people, and I recognize my position as a symbol of public faith. I accept it as a public trust to be held so long as I am true to the law and serve the people of Arizona.

3. Ethics training will be conducted for all employees, at a minimum biennially. The purpose of training will be to continually foster the highest degree of ethics within the Chandler Police Department.

J. DEPARTMENT CORE VALUES

The Chandler Police Department is responsible for providing comprehensive, fair, and impartial law enforcement services to the communities of the City of Chandler. This simple statement has diverse and complicated implications to the men and women who comprise the police department.

Therefore, in order for the department to be most effective, the community must have confidence in the ability of the department's employees. In order for the community to have confidence in the department, the department's employees must constantly work to earn and maintain the abiding respect of the community.

The Chandler Police Department can only achieve these goals by ensuring that only people committed to ethical conduct and excellence in service become and remain members of the department. The department encourages and fosters the following core values in our employees:

COURAGE: The members of the Chandler Police Department have the courage to be held accountable for our actions - by ourselves, our fellow employees, and the community. **300 Physical Fitness
Program**

Effective

06/30/22

Summary:

This policy establishes a fitness evaluation program and encourages all employees to maintain a fit, healthy lifestyle.

A. PHILOSOPHY

1. **TO PROVIDE THE BEST POSSIBLE SERVICE** to the citizens of Chandler, it is important that every employee maintain a level of physical fitness that will enable that employee to carry out any required task while minimizing risk of injury and illness
2. **THE DAILY LEVEL OF PHYSICAL EXERTION** is not predictable in law enforcement. Consequently, it is incumbent on all employees to ensure that they are physically fit and able to endure physical and mental abuse because their very survival and the survival of fellow employees and citizens may someday depend upon it.
3. **FITNESS IS A PERSONAL BENEFIT** improving the capability of an employee's decision-making, adjusting to a change of shift, and mental and physical well-being at the end of the day

B. PHYSICAL EXAMINATIONS

1. **IT IS ADVISABLE** to have a physical examination before beginning a physical fitness program to determine any suggested restrictions
2. **EMPLOYEES ARE ELIGIBLE** for and encouraged to have physical examinations provided by their health insurance
 - a. Employees who participate in a physical examination conducted by a qualified medical physician and provide proof of the examination are entitled to one admin day off during each calendar year
 - b. Guidelines:
 - 1) Limited to one each calendar year
 - 2) Must be conducted by a licensed medical doctor
 - 3) Participants must submit a memo through their chain of command requesting the admin day off along with the completed and signed Preventative Physical Verification Form found on Chanweb to serve as proof of the physical examination. Unless employees are participating in in the city sponsored Chandler Wellness Program, this form only needs to be submitted to their chain of command along with the memo
 - 4) This incentive is in addition to any incentives offered for participating in one of the annual physical fitness tests
3. **ANY DEPARTMENT-ORDERED PHYSICAL EXAMINATION** will be provided at no cost to the employee

C. FITNESS EVALUATION AND STANDARDS

The Training Unit will provide physical fitness testing for all employees to evaluate their physical fitness level at least annually. Participation in this physical fitness program is voluntary. On-duty, comp, or flex time is approved for all employees who participate in this voluntary testing process. Employees should use good judgment in taking the tests, including warming up properly and avoiding over-exertion.

1. **FITNESS INVOLVES** measures and levels of muscular strength, cardiovascular endurance, muscle tone, heart action, and response to activity
2. **THE FITNESS EVALUATIONS ARE DESIGNED** to promote exercise, diet, and a healthy lifestyle
3. **EMPLOYEES MAY CHOOSE TO PARTICIPATE** in a physical fitness evaluation consisting of the Cooper Institute fitness tests as determined by the Training Unit

D. INCENTIVES

EMPLOYEES WHO VOLUNTARILY PARTICIPATE in a physical fitness assessment will receive a tee shirt

Effective

12/10/21

SUMMARY:

This order defines regulations governing outside employment privileges for departmental employees

A. POLICY

Rule 1, Section 12, of the City of Chandler Personnel Rules and Regulations states: "Outside employment of any employee shall not be permitted unless approved in writing by the Department Director prior to the commencement of the outside employment. Such approval shall not be given if it is determined that the outside employment is likely to be incompatible with City Service to include, but not limited to:

1. Physically or mentally hamper the employee in ability to do the job required by the City
2. Reflect discredit on the City service or the employee
3. Be in conflict with the employee's duties as a City employee."
(See [General Order B-10.100C](#) for definition of required hours off prior to returning to work.)

B. DEFINITION

OFF-DUTY EMPLOYMENT: Secondary employment wherein the use of law enforcement powers is not anticipated. (*Off-duty employment differs from extra-duty employment – See [B-10.200B](#)*)

1. **OFFICERS:** Employment wherein the officer receives compensation for services performed on behalf of a private entity to the benefit of both the officer and the private entity. Such services may rely on the officer's skills, judgment, and/or training as an officer; however, they are limited to off-duty employment wherein the actual or potential use of law enforcement powers is not anticipated. Off-duty employment occurs:
 - a. Outside of the officer's regularly scheduled police duties
 - b. Outside of Chandler Police Department supervision
 - c. During the officer's off-duty hours
2. **CIVILIANS:** Outside employment (with the approval of the Chief) if it is not unlawful or inconsistent or incompatible with duties, functions, and responsibilities of their position with the department

C. REGULATIONS

PUBLIC TRUST AND CONFIDENCE are essential elements in department operations. To maintain this trust, employees must refrain from engaging in any activity that would discredit the department's image. Any use of police authority or any incident occurring during off-duty employment, which may bring discredit to the department will be reported to the employee's supervisor. Employees will adhere to guidelines set forth in [B-12.100D15](#).

1. WORK PERMITS

- a. **Required:** Employees will complete the City of Chandler off-duty work permit and the Chandler Police Department off-duty work addendum form before working off duty for compensation. Special conditions:

- 1) Exception: Working overtime for a Police Department contracted company or school is not considered off-duty employment
 - 2) Both permits are also necessary even if the anticipated employment occurs while the employee is on vacation or off duty on compensatory time
 - b. **Approval:** The applicant's supervisor shall endorse the request, recommending approval or disapproval, and forward the request through channels to the Police Chief for final approval or denial.
Special conditions:
 - 1) Employees will not be approved for off-duty employment until they have successfully completed their training program
 - 2) Officers may, with the Police Chief's permission, work apartment courtesy patrol while on probationary status
 - c. **Denial:** The supervisor may deny a work permit for any employee for the following reasons:
 - 1) Sick record indicates a lack of strength or stamina necessary to sustain both departmental and outside employment
 - 2) Any applicant is less than a full performer in his job
 - d. **Revocation of permit:** A commander or manager may suspend or revoke an employee's off-duty / extra-duty work status. Supervisors may initiate a revocation or denial of an employee's off-duty / extra duty status based on the following:
 - 1) Excessive fatigue on duty
 - 2) Poor job performance
 - 3) Excessive use of sick time
 - 4) Adverse effects of the employment on the employee's on-duty performance
 - 5) Potential conflicts of interest that may arise from the extra-duty employment
 - e. **Possible restrictions:** An employee may be restricted to working only on their days off or after they have already worked their shift for the department depending on the nature of the off-duty employment. The department expects employees to report for work physically and mentally capable of performing their job responsibilities at an acceptable level.
 - f. **Permit conditions:** Upon approval of the work request, the employee will receive a copy of the work request that is their permit to work (*see Human Resources "Off Duty Work Release Policy"*)
 - 1) Valid for a period of twelve (12) months. After twelve months, the employee is required to submit another work permit for review and renewal.
 - 2) Only authorizes work specifically designated on the permit. Any other employment will subject the permit holder to discipline as well as revocation of permit. If the conditions of employment change, employee must submit a new application, i.e., change of employer, change of location of employment, or change of type of work
 - 3) Must work no more than 20 hours weekly in off-duty employment except if the employee is on vacation or compensatory time off
2. **UNIFORM:** Officers shall not wear any identifiable portion of their uniform while working any type of off-duty employment

3. **ARREST:** When an officer is engaged in off-duty employment, that officer has the right to make an arrest as a private citizen in situations amounting to the breach of the peace or a felony as described in ARS 13-3884. However, it is preferred when an officer is engaged in any off-duty employment and encounters a situation requiring enforcement action, on-duty personnel of the appropriate jurisdiction be called to take the enforcement action. Officers engaged in off-duty employment shall not identify themselves as officers or utilize their police authority unless exigent circumstances precipitate immediate police action in situations amounting to serious breaches of the peace or serious felonies.
4. **TYPES OF WORK EXCLUDED:** Officers will not work off duty or extra duty in the following circumstances:
 - a. **Liquor/bar-type establishments** where the sale of intoxicating beverages is more than incidental and/or there is a significant likelihood that off-duty officers will come into contact with intoxicated individuals
 - 1) This does not preclude an officer from working outside of such establishments when they are intermixed with other businesses in a mall-type area, if the off-duty officer is retained by the management company to provide security for the entire mall area
 - 2) The Police Chief may approve exceptions when a liquor/bar-type establishment is located within the City of Chandler and it is deemed that the presence of a uniformed or plain-clothed off-duty officer would be beneficial to the Chandler Police Department and the citizens of the community
 - a) In such instances, a minimum of two officers will be assigned to the location; and specific duties allowed will be specified and given in writing to both the employee and the liquor/bar-type establishment
 - b) Exceptions will be granted for periods of ninety days. Repeat requests and exceptions may be granted
 - b. **Civil process service**

 - 1) Within the jurisdiction of the city, polygraph examination or CVSA may be administered in cases where the employer has no intention of proceeding with a criminal prosecution regardless of the results of the examination
 - 2) Polygraph examinations or CVSA may be administered for other governmental agencies or private individuals on persons involved in criminal acts occurring outside the jurisdiction of the City of Chandler
 - 3) Polygraph examinations or CVSA may be administered for other governmental agencies for the purpose of pre-employment screening

K. ADMINISTRATIVE LEAVE

[4.2.3]

1. RATIONALE

This action is taken to ensure the immediate availability of an employee; to relieve an employee from the burden of daily work; and to avoid possible embarrassment, conflict, or civil liability that might arise from allowing an employee to continue in regular-duty status while under investigation in the best interest of the department, employee, and/or public. Any employee whose actions or use of force in an official capacity results in death or serious physical injury will be removed from operational assignments pending an administrative review.

2. DEPARTMENT ACCESS

- b. The Chief will prepare and submit a leave of absence request form to the City Manager upon concurrence with the request

**L. ACTIONS AND SANCTIONS:
CLASSIFICATION AND DISPOSITION**

The purpose of this order is to correct unacceptable behavior through training, counseling, or sanctions as determined appropriate by the department. The nature of this order requires consistency and a progressive process for addressing repetitive conduct that is inconsistent with the organizational Code of Conduct. The following will be used for behavioral remediation in conjunction with the LEVEL I (counseling) and LEVEL II (sanction) charts.

1. CLASSIFYING VIOLATIONS

- a. The investigating supervisor will classify the violation according to General Order B-12 Code of Conduct
- b. Once classified, the class designation and the corresponding action or sanction are as assigned and must be within the LEVEL I and LEVEL II chart located at the end of General Order B-12
- c. Use the “standard” sanction on the LEVEL II chart unless mitigating or aggravating circumstances exist
 - 1) Circumstances may decrease or increase the discipline either direction if justified and documented by the initiating supervisor or anyone in that supervisor’s chain of command
 - 2) This action must be approved by the division chief or, when appropriate, the Office of the Chief
 - 3) The Chief of Police retains the authority to impose any sanction deemed appropriate for any class of violation
- d. If the classification is not listed in general orders
 - 1) Professional standards will do a historical review of the violation and forward the results to the reviewing supervisor
 - 2) If there is no historical data on the particular violation and the violation has not been previously classified, the PSS commander and, when appropriate, the legal advisor will review the violation and forward a recommendation to the reviewing supervisor

2. LEVEL I - ACTIONS

- a. These behaviors will initially result in a Counseling Statement
- b. For the purpose of progressive action, these violations will be tracked on a rolling six-month time frame based on the date of administrative action
- c. A third occurrence during a rolling six-month period will result in a LEVEL II sanction. Subsequent occurrences during that same six-month period will follow the progressive discipline protocol for LEVEL II violations.

3. LEVEL II - SANCTIONS

- a. For the purpose of progressive discipline, sanctions of letter of reprimand (LOR) or higher will be tracked on a rolling two-year time frame based on the date of administrative action
- b. A fifth violation of a LEVEL II Class A violation will result in progressing on the chart to a LEVEL II Class B sanction

4. SUBSEQUENT VIOLATIONS

Subsequent violations, when used for the purpose of progressive action or discipline do not have to be the same type of violation

- a. Example: a sustained violation of “failure to provide own name and ID when requested” and another for “unexcused tardiness” would account for a first and a second Level I violation. Any third Level I violation within a six-month period that commenced when the first violation occurred would result in receipt of sanction from the Level II and progress as necessary.
- b. It is possible for an employee to be active on both the Level I and II charts, depending on the type of violations

5. DISPOSITION

Once an employee has been formally counseled or disciplined according to the counseling/discipline chart, no further investigation will be conducted for the same allegation for the same incident except when:

- b. The Office of the Chief requests further investigation for the integrity of the organization and to maintain public trust

M. INVESTIGATIVE JURISDICTION

Effective

04/27/18

Summary:

This order describes police early intervention options for employees.

A. PHILOSOPHY

[35.1.9]

THE CHANDLER POLICE DEPARTMENT HAS A RESPONSIBILITY to its employees and the community to identify and assist employees who require additional training or are showing symptoms of job-related stress or performance problems

1. **EMPLOYEES MAY EXHIBIT THESE SYMPTOMS** in on-the-job performance behavior that results in complaints by citizens or decreased job productivity. The Chandler Police Department has a number of intervention methods available to assist its employees, including supervisory coaching, training, critical incident stress management, and employee assistance programs.
2. **THE EARLY INTERVENTION PROGRAM** has been implemented to enhance customer service and to assist the welfare of our employees

B. GOALS

THE DEPARTMENT HAS DESIGNED THIS PROGRAM TO:

1. **BE A RESOURCE** to assist supervisory personnel in evaluating and guiding employees to perform at their best levels
2. **IDENTIFY JOB PERFORMANCE-RELATED TRENDS** and potential problem behaviors that can be addressed through intervention efforts of the first and second line supervisors

C. PROGRAM OVERVIEW

1. **ALTHOUGH NO SPECIFIC AND UNIVERSAL SET OF CRITERIA** can determine job-related stress and/or job performance problems, it is important that certain types of criteria be reviewed. These criteria should include, but not be limited to, Internal Affairs complaints against an employee, use of force incidents, pursuits, collisions, and employee performance.
2. **THE EIP PROVIDES A SYSTEMATIC REVIEW** of these indicators. It is designed to highlight tendencies in regard to complaints, use-of-force incidents, pursuits, collisions, and performance issues that may otherwise be insignificant when examined individually.

D. NOTIFICATION CRITERIA

NOTIFICATION CRITERIA: The Professional Standards Section will notify the employee's supervisor when the employee has met the following criteria within a 12 month period:

1. Received two or more sustained/not sustained internal investigations
2. Involved in two or more use-of-force incidents and the review process indicates training issues or the use of force was non-justifiable

02/10/20

HIGH FREQUENCY/HIGH SEVERITY

Summary:

[42.1.6]

This order provides guidelines for the developing criminal intelligence files.

**A. TYPES OF
INTELLIGENCE**

The Criminal Intelligence Unit (CIU) provides the following types of intelligence through the collection efforts of the department and information derived from criminal and intelligence task forces at the federal, state, and local levels. CIU ensures this information is disseminated to the appropriate section:

1. **INDICATIVE INTELLIGENCE:** That which suggests new developments or new operations by organized criminals and terrorism threats to our community.
2. **TACTICAL INTELLIGENCE:** Implies immediate action. Since the Intelligence Unit is required to turn this type of information over to other units to be acted upon. Tactical intelligence can:
 - a. Lead to an arrest
 - b. Lead to further information gathering and subsequent arrest
 - c. Be filed to be used in one of the other categories as noted below
3. **STRATEGIC INTELLIGENCE:** Collected over time and put together by an analyst to indicate a new, or newly discovered pattern of criminal activity and used by the command staff in planning the allocation of resources over a period of time
 - a. Some of the information on persons and functions may already have been used in an indications report or as tactical intelligence
 - b. The information may be confirmed or be in the form of still unsubstantiated
 - c. The pattern into which the information is fitted may be hypotheses based on fragmentary data
4. **EVIDENTIAL INTELLIGENCE:** Factual and precise information
 - a. May be presented in court depends on other elements entering into the case building, normally based on decisions in the enforcement units of the department or the prosecutor
 - b. May be used in developing a strategic report or it may have tactical value and be currently useful in a case that is actively being investigated and/or prosecuted

B. FILE GUIDELINES

These standards are designed to bring about an equitable balance between the civil rights and liberties of American citizens and residents and the needs of law enforcement to collect and disseminate criminal intelligence on the conduct of persons and groups who may be engaged in systematic criminal activity

C. DEFINITION:

CRIMINAL INTELLIGENCE FILE: Consists of stored information on the activities and associations of:

1. INDIVIDUALS WHEN:

2. **TEMPORARY RETENTION: Information may be retained for up to 90 days while it is being evaluated.** Do not retain information longer than **90 days** unless a compelling reason exists to extend this time period

Example: Several pieces of information indicate that a crime has been committed, but more than a year is needed to identify a suspect. During this period, efforts should be made to identify the subject/entity or validate the information so that its final status may be determined.

3. **PURGING:** If the information is still classified temporary retention at the end of a **90-day** period, and a compelling reason for its retention is not evident, the information shall be purged. A 90-day extension may be authorized for specific reason and in the interest of due diligence with the concurrence of the CIB lieutenant and commander.

F. INFORMATION EVALUATION CRITERIA

Investigators should review information for reliability and content validity prior to filing. Evaluating the information's sources and content indicates to future users the information's worth and usefulness. Circulating information, which may not have been evaluated, where the source reliability is poor or the content validity is doubtful, is detrimental to the agency's operations and contrary to the individual's right to privacy.

To ensure uniformity with the intelligence community, stored information may be evaluated according to the criteria set forth below:

1. **SOURCE RELIABILITY**

- a. **Reliable:** The reliability of the source is unquestioned or has been well tested in the past
- b. **Usually Reliable:** The reliability of the source can usually be relied upon as factual. The majority of information provided in the past has proven to be reliable.
- c. **Unreliable:** The reliability of the source has been sporadic in the past
- d. **Unknown:** The reliability of the source cannot be judged. Neither experience nor investigation has yet determined its authenticity or trustworthiness.

2. **CONTENT VALIDITY**

- a. **Confirmed:** The information has been corroborated by an investigator or another independent, reliable source
- b. **Probable:** The information is consistent with past accounts
- c. **Doubtful:** Information is inconsistent with past accounts
- d. **Cannot Be Judged:** The information cannot be judged. Neither experience nor investigation has yet determined its authenticity.

G. CLASSIFICATION

1. **VALUE**

- a. Protects sources, investigations, and the individual's right to privacy
- b. Indicates the internal approval that must be completed prior to the release of the information to persons outside the agency
- c. Is not in itself is a defense against a subpoena duces tecum

2. **SUBJECT TO CONTINUAL CHANGE:** The passage of time, the conclusion of investigations, and other factors may affect the security classification assigned to particular documents. Documents within the intelligence files should be reviewed on an ongoing basis to ascertain whether a higher or lesser degree of document security is required to ensure that information is released only when and if appropriate.

3. **CLASSIFICATION CATEGORIES**

- 2) Corruption (police or other government officials) or other sensitive information
- 3) Informant identification information

1. **WHETHER OR NOT** confidential source identification is warranted, reports shall reflect the name of the agency and the reporting individual.
 - a. **Code Number:** When identifying the source by name is not practical for internal security reasons, a code number may be used. The criminal intelligence unit lieutenant shall retain a confidential listing of coded sources of information.
 - b. **Source Description:** It may also be appropriate in a particular case to describe how the source obtained the information (for example, "S-60, a reliable police informant hears" or "a reliable law enforcement source of the Police Department saw" a particular event at a particular time)
 - c. **Correlation with Source:** 28 CFR 23 requires that all intelligence projects be able to correlate intelligence reports with the informational source

Under these circumstances, protecting anonymity of intelligence sources is of the highest priority to the Chandler Police Department and CIU.
 - 2) When appropriate, intelligence sources will be classified within the database in the following manner when given an intelligence control number:

- a. **Right-to-know:** Requestor has official capacity and statutory authority to the information being sought
 - b. **Need-to-know:** Requested information is pertinent and necessary to the requestor agency in initiating, furthering, or completing an investigation

M. GLOSSARY

PUBLIC RECORD

Public record includes any writing containing information relating to the conduct of the public's business prepared, owned, used, or retained by any state or local agency regardless of physical form or characteristics.

"Member of the public" means any person, except a member, agent, officer, or employee of a federal, state, or local agency acting within the scope of his or her membership in an agency, office, or employment.

For purposes of these guidelines, public record information includes only that information to which the general public normally has direct access, e.g., birth or death certificates, county recorder's information, incorporation information, etc.

CRIMINAL OFFENDER RECORD INFORMATION (CORI)

CORI is defined as summary information to arrests, pretrial proceedings, sentencing information, incarcerations, parole, and probation. D-14 CRIMINAL INTELLIGENCE UNIT

Subject

300 Facial Recognition

Effective

03/26/21

HIGH FREQUENCY/HIGH SEVERITY

Summary:

This policy governs the use of facial recognition technology in furtherance of criminal investigations being conducted by the Chandler Police Department.

A. PURPOSE

This order provides guidelines for the collection, access, use, dissemination, retention, and purging of images and related information applicable to the implementation of a Facial Recognition (FR) Program. This policy will ensure all FR uses are consistent with authorized purposes while not violating the privacy, civil rights, and civil liberties (P/CRCL) of individuals.

The Chandler Police Department considers any results of a facial recognition search to be advisory in nature as an investigative lead only. Facial recognition search results are not considered positive identification of a subject and do not on their own establish probable cause without further investigation. Any possible connection or involvement of the subject(s) to the investigation must be determined through further investigative methods.

B. POLICY

Facial recognition technology involves the ability to examine and compare distinguishing characteristics of a human face using biometric algorithms contained within a software application. This technology is a valuable investigative tool to detect and prevent criminal activity, reduce an imminent threat to health or safety, and help in the identification of persons unable to be identified by other means. The Chandler Police Department has established access and use of a facial recognition software system to support investigative efforts. The investigative leads developed using this technology will never be used as positive identification or for probable cause to arrest.

The department's Criminal Intelligence Unit (CIU) shall oversee the FR program and shall be responsible for training, policies, and appropriate usage of the FR program. The CIU will provide investigative assistance to the department by using FR software to compare the submitted images against known images to develop investigative leads. Facial Recognition requests shall be submitted to the Criminal Intelligence Unit utilizing the FR request form.

This policy delineates the manner requests for facial recognition are received, processed, catalogued, and responded to. The Fair Information Practice Principles (FIPPs) form the core of the privacy framework for this policy.

This facial recognition policy assists the department and its personnel in:

- Increasing public safety and improving security
- Minimizing the threat and risk of injury to the public
- Minimizing the threat and risk of physical injury or financial liability to law enforcement and others responsible for public protection, safety, or health
- Minimizing the potential risks to individual privacy, civil rights, civil liberties, and other legally protected interests
- Protecting the integrity of criminal investigations, criminal intelligence, and justice system processes
- Minimizing the threat and risk of damage to real or personal property
- Fostering trust by strengthening transparency, oversight, and accountability
- Making the most effective use of public resources

C. DEFINITIONS

1. **FACIAL RECOGNITION (FR)** software compares patterns within the field of computer vision. Such approaches do not rely upon intrinsic models of what a face is, how it should appear, or what it may represent. The matching is not based on biological or anatomical models of what a face or its features look like. The patterns used in FR algorithms do not correlate to obvious anatomical features such as the eyes, nose, or mouth in a one-to-one manner, although they are affected by these features
2. **CANDIDATE IMAGES**—The possible results of a facial recognition search. When facial recognition software compares a probe image against the images contained in a repository, the result is a list of most likely candidate images determined by the software to be sufficiently similar to or most likely resemble the probe image to warrant further analysis. A candidate image is an **investigative lead only** and does **not establish probable cause to obtain an arrest warrant without further investigation**
3. **FACIAL RECOGNITION SOFTWARE/TECHNOLOGY**—Third-party software that uses specific proprietary algorithms to compare facial features from one specific picture—a probe image—to many others (one-to-many) stored in an image repository to determine most likely candidates for further investigation
4. **INVESTIGATIVE LEAD**—Any information which could potentially aid in the successful resolution of an investigation but does not imply positive identification of a subject or that the subject is guilty of a criminal act
5. **ONE-TO-MANY FACE IMAGE COMPARISON**—The process whereby a probe image from one subject is compared with the features of reference images contained in an image repository, generally resulting in a list of most likely candidate images

6. **UNSOLVED IMAGE FILE**—A lawfully obtained probe image of an unknown suspect may be added by authorized law enforcement users to an unsolved image file pursuant to an authorized criminal investigation and if a search has produced no candidates and the subject remains unknown. Images in an unsolved image file are periodically compared with the known images in an image repository
7. **VALID LAW ENFORCEMENT PURPOSE**— FR is to be used for criminal investigative purposes only. FR will only be used in furtherance of active City of Chandler Police Department criminal investigations

D. AUTHORIZED USES

All deployments of the FR system are for official use only/law enforcement sensitive. The provisions of this policy are provided to support the following authorized uses of facial recognition information:

1. **ASSIST WITH THE IDENTIFICATION** of a person(s) when a reasonable suspicion said individual(s) has committed a criminal offense or is involved in or planning a criminal offense
2. **AN ACTIVE OR ONGOING** criminal investigation
3. **MITIGATE AN IMMINENT THREAT** to health or safety of the community
4. **ASSIST IN THE IDENTIFICATION** of a person who is unable to identify themselves (such as an incapacitated, deceased, or otherwise at-risk person)
5. **FOR A PERSON WHO AN OFFICER** reasonably believes is concealing his or her true identity and has a reasonable suspicion the individual has committed a misdemeanor or felony crime other than concealing his or her identity
6. **FOR PERSONS WHO LACK THE CAPACITY** or are otherwise unable to identify themselves and who are a danger to themselves or others
7. **ALL FR SEARCHES REQUIRE A GENERAL OFFENSE** number to be associated with the outlined criteria. A "quick search" option for FR is not allowed

E. FR ACCESS

Authorized access to a facial recognition system is granted only to personnel whose positions and job duties require such access and who have successfully completed the required training. Personnel will be provided individual usernames and passwords to the facial recognition system that are not transferrable, must not be shared, and must be kept confidential

F. PROHIBITED USE

The Chandler Police Department will prohibit access to and use of the face recognition system, including dissemination of face recognition search results, for the following purposes:

1. **NON-LAW ENFORCEMENT** (including but not limited to personal purposes)
2. **ANY PURPOSE THAT VIOLATES** the U.S. Constitution or laws of the United States, including the protections of the First, Fourth, and Fourteenth Amendments
3. **PROHIBITING OR DETERRING** lawful individual exercise of other rights, such as freedom of association, implied by and secured by the U.S. Constitution or any other constitutionally protected right or attribute
4. **ANY OTHER ACCESS**, use, disclosure, or retention that would violate applicable law, regulation, or policy
5. **WILL NOT CONNECT THE FACIAL RECOGNITION** system to any interface that performs live video surveillance, including surveillance cameras, drone footage, and body-worn cameras

G. FR ADMINISTRATOR

Primary responsibility for the technical operation and administration of the facial recognition program and system is assigned to the PDIT Manager or designee

1. **MANAGE THE FACIAL RECOGNITION PROGRAM** to ensure compliance with applicable laws, regulations, standards, and policy
2. **ACT AS THE AUTHORIZING OFFICIAL** for individual access to facial recognition information
3. **ENSURE USER ACCOUNTS AND AUTHORITIES** granted to personnel are maintained in a current and secure “need-to-know” status
4. **ENSURE RANDOM AUDITS** of user compliance with system requirements and the entity’s facial recognition policy and applicable law are conducted and documented
5. **ENSURE AND DOCUMENT** personnel meet all prerequisites stated in this policy prior to being authorized to use the facial recognition system
6. **REVIEW OF ALL REQUESTS** to share facial recognition data. The sharing of facial recognition data must comply with policy and any contractual obligations existing at the time of request

H. FR SERVICES

The Chandler Police Department will:

1. **UTILIZE ONLY THOSE FACIAL RECOGNITION** services provided by companies approved by the Office of the Chief
2. **CONTRACT WITH FACIAL RECOGNITION** software service companies to provide software and system development services for the department's facial recognition system
3. **PERFORM FACIAL RECOGNITION SEARCHES** utilizing mug-shot images, also known as booking photos. The booking photos are lawfully obtained from known offenders when they are arrested and booked by law enforcement

I. INVESTIGATIVE LEADS

1. **CIU CONSIDERS FACIAL** recognition search results:
 - a. To be advisory in nature as an investigative lead only
 - b. Not positive identification of a subject and do not on their own establish probable cause without further investigation
2. **ANY POSSIBLE CONNECTION** or involvement of the subject(s) to the investigation must be determined through further investigative methods
3. **INVESTIGATIVE LEADS** need to be vetted with supervisory oversight
 - a. Personnel need to establish their own probable cause before making an arrest
 - b. In any case where FR software was used as an investigative lead, the employee's supervisor will review the case in order to ensure the FR was used as an investigative lead and not solely to establish probable cause for an arrest

J. PROCESS

The process for facial recognition searches includes:

1. **ONLY AUTHORIZED AND TRAINED** personnel may utilize the face recognition application
2. **THE REQUESTOR** completes an FR Request Form and submits it to the CIU Sergeant
3. **THE CIU SERGEANT** assigns the AFR form to an Investigative Analyst within CIU
4. **DOCUMENT ALL FR REQUESTS** and/or submissions in the database log along with the report number associated with the request
5. **AN INVESTIGATIVE ANALYST (IA)** prepares and submits the request along with the image(s) to the currently contracted FR company for analysis

6. **WHEN AN INVESTIGATIVE LEAD** is developed, the IA provides the possible lead(s) to the requestor as well as their supervisor. This lead is NOT probable cause to arrest
7. **ALL RESULTING PHOTO LINE-UPS** shall be conducted using the procedures outlined in G.O. F-07.300

Law enforcement agencies should follow these practices bearing in mind circumstances and resources may call for deviations from these practices.

MCAO sex crimes bureaus have an on call prosecutor. The prosecutor may want to visit the scene or observe parts of the investigation, such as interviews. The on call prosecutor should be contacted under the following circumstances:

1. An arrest is imminent and charges will be submitted

3. Any other circumstance where the investigator deems it appropriate. The on call prosecutor may:
 - a. Review the search warrant
 - b. Answer some legal inquires
 - c. Attend the initial appearance
 - d. Attend case briefings/multidisciplinary team meetings

 - b. The Sex Crimes Unit sergeant will determine whether or not to make neighborhood/community notification, the extent of the notification, and the mode of the notification, e.g., media alert, auto dialer, or door-to-door notification

C. SCENE PROCESSING

The lead investigator must recognize there could be multiple crimes scenes such as the contact location, assault location, release location, victim and suspect (person, personal belongings, clothing, etc.). Some of the functions the investigator may complete at a scene include the following:

6. **INTERVIEW VICTIMS USING PRINCIPLES** taught in the advanced forensic interviewing courses as applied to victims of sex assault. (See Appendix B of the Maricopa County Protocol)

2. A nurse will return the call and make arrangements to respond to an advocacy center, within a reasonable time, to conduct an examination

Because of the nature of such an exam, conduct the exam at one of these centers. This will ensure patient privacy, comfort, safety, and immediate attention. Exceptions may be necessary based on the physical condition of the patient.

The investigating agency and /or the FNE may select any of the available advocacy centers for the exam. All of these facilities offer interview rooms with audio/ videotaping equipment, and the various police agencies are willing to co-ordinate use of the facilities.

 - 2) The victim does not agree to involve law enforcement (VAWA)
 - d. Collect FNE medical report (provided by FNE at time SCEK is picked up) and incorporate into the General Offense report
2. **DOCUMENT LAB RESULTS** in report and conduct appropriate follow-up investigation
3. **SCEKs will not be destroyed** regardless of lab results unless allegation is “unfounded”, meaning evidence proves crime was not committed

4. **Violence Against Women Act (VAWA)** – VAWA SCEKs are sometimes collected by Forensic Nurse Examiners and then transferred to CPD custody. This occurs even in cases where the alleged victim may not want the kit tested or to participate in the investigation. Complete the following when assigned to pick up a VAWA SCEK.
 - a. Collect and impound SCEK from FNE within 5-business days of notification
 - b. Create a new GO report using the Non-Criminal Offense – VAWA if no connecting report is found and place the VAWA SCEK into evidence

 - a. There are **four main concerns:**
 - 1) **Most important:** the welfare and safety of the victim and/or his family
 - 2) **The drop location** for the extortion money
 - a) It may be near the bank or business in a busy business area such as a shopping center. Search for the victim in such an area keeping in mind that the victim will most likely be followed by one or more suspects at the time
 - b) The obvious presence of officers may endanger the victim or his family member who may be held hostage
 - 3) **The victim's residence**
 - a) It is most important that surveillance of the residence be done discreetly if a member of the victim's family is being held hostage. The suspects in the residence will be watching activities from the residence. The use of aircraft may be beneficial.
 - b) If it can be quickly and safely established that none of the victim's family is being held as hostage, the payoff might be prevented and the investigation concentrated on the arrest of the suspects.
 - 4) **The bank or business** with which the victim is connected
 - a) Keep in mind that if the victim is still at that location, the suspects will most likely have the victim and/or the business or bank under surveillance
 - b) If the original caller breaks telephone contact, the first officers at the scene must obtain the needed information and relay it to the investigators
 - b. **Information to Obtain** from the Extortion Victim or Caller
 - 1) Description of victim or threatened person's vehicle, if applicable
 - 2) Description of the victim or threatened person
 - 3) An attempt to determine the location of the money drop area
 - a) Amount of money
 - b) Denominations
 - c) How carried (in what container)
 - 4) Victim or threatened person's home address and home telephone number
 - 5) Spouse's name and any information on children
 - a) Names and ages, if possible and applicable.
 - b) Schools they attend, if possible and applicable.
 - 6) Name of the bank or business, telephone number, and the name of the victim
 - 7) The telephone company will be contacted on status of residence telephone

8) MVD will be contacted for victim or threatened person's vehicle information

c. **Coordination After Receiving the Initial Call for Service**

- 1) Notify the on call CIB sergeant or Robbery CIB sergeant. If they are unavailable, notify the lieutenant.
- 2) Notify the FBI. If they have already been informed, all available information will be exchanged.
- 3) Shall call Communications for the following purposes:
 - a) Inform the Communications supervisor of circumstances
 - b) Request the Communications supervisor to inform all dispatchers and call-takers
 - c) Request any information obtained by the Communications Center be called in to the CIB as soon as possible
 - d) Request that **no radio broadcasts** be made concerning the extortion, if at all possible

Rev

d. **Assign detectives:** The CIB supervisor will give assignments by telephone to avoid use of radio. If radio is used, use an encrypted channel.

- 1) Send a detective to the bank or business if the victim or threatened person has already left the bank or business. The detective will complete the following:
 - a) Meet and coordinate with FBI
 - b) Call the office by telephone and attempt to keep an open line from the scene
- 2) Dispatch detectives to the victim's residence area. Detectives will:
 - a) Note residence activity, vehicles and plate numbers, if possible
 - b) Contact at least one neighbor for any available information on the victim's residence
 - Does spouse have a vehicle? Is it at home?
 - Does spouse work? Where?
 - Any children home? How many and what ages?
 - Any strangers seen at house? Any strange vehicles?
 - Is victim's vehicle at home at this time?
 - c) Contact CIB supervisor to report findings. An attempt will be made to keep an open line to the supervisor, if possible and applicable.
- 3) Send at least two (2) detectives to the area of the money drop. They will accomplish the following tasks:
 - a) Contact supervisor with information on the drop status and/or any activities of victim, if possible
 - b) Cover the area as covertly as possible
 - c) Avoid radio transmissions

e. **Alternatives, possibilities, and suggestions**

- 1) May need to call victim's residence. The investigator will:
 - a) Use a female to make the call
 - b) Make call from a quiet area
 - c) Make up a reason for call if a wrong person answers the telephone

- 2) May have the telephone company cut in on victim's residence telephone to determine if the telephone is in normal use, off hook, or out of order
 - 3) May contact the mail carrier for possible information
- f. **Extortion and/or kidnap telephone tracing procedure:** For a reported extortion or kidnap, the CIB supervisor will contact the telephone company customer service and relay the following information:
- a. Give name, rank, and department
 - b. Advise the telephone company that CIB is working a kidnap (or extortion) and request tracing equipment be placed on the numbers to be traced

**E. KIDNAPPING
FOR RANSOM**

THE COMPUTER CRIMES UNIT completes forensic analysis and preservation of data from digital storage devices (computers, hard drives, etc.) and mobile digital devices (cellular devices, tablets, etc.) in support of criminal cases and to investigate cybercrimes that occur in an online environment. This unit also assists other divisions within the organization through the recovery and preservation of digital video from Digital Video Recorders and video surveillance systems.

THE PURPOSE OF INTERNET CRIMES AGAINST CHILDREN (ICAC) investigations is to conduct proactive investigations and discover unreported criminal activity taking place in the online environment that involves peer to peer, cloud, and file-sharing activity involving sexual exploitation of a minor. ICAC investigation also includes reactive case management related to Cybertips generated by the National Center for Missing and Exploited Children (NCMEC) that involve sexual exploitation of minors. Nationally established ICAC standard and protocols, best practices and applicable laws shall be used as a guideline for ICAC investigations.

B. ORGANIZATION

ASSIGNMENTS: Two overlapping sections each with specific duties in addition to shared responsibilities:

1. **COMPUTER FORENSICS INVESTIGATORS**
 - a. Cybercrimes: Illegal action involving a network or computer used to commit or is the target of crime such as injecting malicious malware to destroy a system or hijack sessions when logging into personal accounts, hacking computer systems to gain unauthorized access, and keystroke logging committed against institutions and private citizens
 - b. Digital forensics: The process of uncovering and interpreting electronic data. The goal is to preserve any evidence in its most original form while performing a structured investigation by collecting, identifying and validating the digital information for the purpose of reconstructing past events.
2. **ICAC INVESTIGATORS:**
 - a. Proactive investigations related to peer to peer and online sharing of child exploitation material
 - b. Proactive and reactive investigations related to Cybertip cases referred by the National Center for Missing and Exploited Children (NCMEC) and the Internet Crimes Against Children (ICAC) task force

C RESPONSIBILITIES

1. COMPUTER FORENSICS INVESTIGATOR DUTIES

- a. Conduct extraction and preservation of data contained on mobile digital devices, such as cellular telephones and other mobile devices capable of storing information in a digital format
- b. Conduct forensic imaging data analysis/examination and preservation of data contained on digital storage devices (e.g., computer hard drives) and portable data storage devices (e.g., USB drives and any other devices capable of storing and retrieving data)
- c. Investigate cybercrimes, including, but not limited to:
 - 1) Computer tampering and unauthorized access to computer networks involving businesses or private citizens
 - 2) Internet-based harassment (non DV-related)
- d. Assist with the recovery and preservation of digital video from digital video recorders and video surveillance systems
- e. Maintain a current file and/or related books/manuals that outline current best practices regarding the seizure, forensic imaging and analysis of digital media

A blue arrow-shaped icon pointing to the right, containing the word "New" in white text.

2. ICAC INVESTIGATOR DUTIES

- a. Peer to Peer Investigations
 - 1) Operate software that searches for Child Sexual Abuse Material (CSAM) being offered or shared via peer-to-peer file sharing networks
 - 2) Conduct investigations into CSAM file sharing and luring taking place on chat applications social media applications, cloud storage, and other online methods while following ICAC protocols and training
 - 3) Operate Peer to Peer Software and view CSAM material only on covert devices not connected to the city network
 - 4) Coordinate with CCU detectives and other unit detectives to search and seize items of evidence and may request assistance from other ICAC investigators who are part of the Arizona ICAC Task Force
 - 5) Trained to conduct child forensic interviews
 - 6) In the event a child victim is located and identified, collaboration with Chandler Police Sex Crimes detectives is critical
 - a) Sex Crimes Unit investigates the hands-on offenses
 - b) ICAC investigator continues the exploitation investigation in conjunction with Sex Crimes Unit
 - c) Complete and send a Child Victim Identification Program (CVIP) submittal to NCMEC for any identified child victim
- b. Responsible for reporting monthly statistics to Arizona ICAC Command via the ICAC Data System

3. CYBERTIP INVESTIGATIONS

- a. NCMEC receives reports from Internet Service Providers (ISPs), social media outlets, corporations, tip lines, and the public reference alleged online exploitation of minor children. NCMEC creates a Cybertip report and a general geo-location is determined for the suspect. The Cybertip report is forwarded to State ICAC Taskforce Centers for distribution to affiliate agencies for follow up investigation.

- b. Once a Cybertip is assigned to an ICAC detective, the detective uses a covert computer to download and view the Cybertip Report including alleged CSAM material that must be viewed to determine if a crime has occurred
- c. The case moves forward if the Cybertip report contains evidence of a crime

D. COMPUTER SEIZURES

1. All seizure, extraction, and analysis of data stored on the device should be performed by persons who have precedent for seizure of such evidence. **Minimum requirements** should be a person trained in identifying and seizing electronic equipment and attended the “Basic Digital Forensic Analysis: Seizure” course.
(Devices capable of storing data are extremely sensitive to electrostatic discharge. Improper handling may cause damage to the device rendering it useless. Simply powering a data storage device on or off can overwrite significant amounts of data causing the integrity of the potential evidence to be lost. The computer could be pre-programmed to erase or destroy data if certain start-up or shutdown procedures are not followed.)
2. Members of the Computer Crimes Unit are trained in RAM data or volatile memory acquisition and are available to assist officers in their investigations for seizure of computers or other data storage devices when it has been determined the data in the RAM is key to the investigation. RAM data can only be collected when the system is on and operating.
(Computers require a certain amount of temporary memory called Random Access Memory (RAM). The data in the RAM is known as volatile data and will be irretrievably lost when the computer is shut down. RAM may contain evidence in some cases such as chat logs, bit-locker keys for encrypted systems, and network configurations.)
3. **The following is a checklist** provided by IACIS for seizing computers to prevent damage or lost data lost due to improper shutdown procedures.
 - a. **Remove everyone** from the area of computers and data storage
 - b. **Photograph**
 - 1) Any screen information (or document in writing)
 - 2) Connections of all equipment
 - 3) All labeled connections and diagram them
 - 4) The area after the computer is removed, if warranted
 - c. **Label or photograph all connections** for later reassembly (Optional for standard system configurations)
 - d. **Collect RAM** of volatile memory if system is running and operational, documenting each step taken
 - e. **Disable the power** to the computer system at its source, e.g., back of computer system, remove laptop batteries, if possible
 - f. **Search specifically for passwords** or other related information in the area ensuring all suspects have been interviewed for passwords and other crucial information
 - g. **Seize all books**, manuals, software, disks, and related data to the system
 - h. **Separate from all electromagnetic sources** when transporting
 - i. **Prevent rough handling** or dropping of any computer equipment

E. MOBILE DEVICE SEIZURE

1. **MOBILE DEVICES** – primarily designed to store data and be easily portable, unlike most computers. A primary difference between mobile devices and computers is the mobile device operating system is designed to take up less space.
2. **MOBILE DEVICES CAN INCLUDE**, but are not limited to:
 - Apple iPhones (smartphone)
 - Android-based phones (Samsung, LG, etc.)
 - Flip phones and older model / style phones
 - Pre-paid mobile phones
 - Tablets
 - Apple iPads
 - eReaders such as the Amazon Kindle
3. **THE PROCESS FOR SEIZING** a mobile device depends on type (mobile phone, tablet, etc.) and make of the mobile device (Apple, android, etc.). The following is a basic guide for seizing mobile devices:
 - a. If mobile device is OFF
 - 1) Leave it OFF
 - 2) Remove the battery (if possible)
 - 3) Interview the owner of the phone and attempt to obtain any passwords and/or PINs and other access information
 - *In many cases, if a mobile device is password or PIN protected the CCU may not be able to extract data from the mobile device without being able to unlock the mobile device
 - 4) Package the mobile device as evidence and submit a Device Examination Request to the Computer Crimes Unit to have the data extracted. If a search warrant will be required, do not have the search warrant signed prior to contacting to the Computer Crimes Unit.
 - b. If mobile device is ON
 - 1) Access the mobile device (if possible) and place it in AIRPLANE mode (found in the settings section or by swiping down from the top of the main screen). Do not use this action as an excuse to search through the mobile device
 - a) Airplane mode isolates the mobile device from cellular networks preventing the suspect/owner from remotely wiping the device
 - b) If a device cannot be placed into airplane mode, contact the on-call Property Crimes Supervisor and request a CCU detective to assist
 - 2) Interview the mobile device owner and attempt to obtain any passwords and/or PINs and other access information
 - 3) If the PIN is obtained, verify it works, power off the mobile device, and package as evidence
 - 4) If no PIN is obtained, do not allow the device to power off; contact the on-call Property Crimes Supervisor
 - 5) If a search warrant is required, do not have the search warrant signed prior to contacting to the Computer Crimes Unit

F. COMMUNITY OUTREACH

1. **PUBLIC AWARENESS ACTIVITIES** and community outreach are a critical component of the Computer Crimes Unit. Presentations by CCU investigators foster awareness and provide practical and relevant guidance to children, parents, educators, and others concerned with Internet child safety.
2. **PRESENTATIONS SHALL NOT DEPICT** identifiable victims nor contain pornographic or sexually explicit images. Presentations shall not discuss confidential Investigative techniques.
3. **INVESTIGATORS DO NOT ENDORSE** any product or service

G. REQUESTING EXAMINATIONS OF ELECTRONIC DEVICES

1. **THIS IS A LAB PROCEDURE.** When receiving exam requests for computers or other data devices, the Forensic Examiner does not assume the investigation. The examiner will complete the request and forward the results to the case officer to further the investigation.
2. If the investigation is to be forwarded to Criminal Investigations for completion, it should be submitted to the appropriate unit, and then the examination request should be submitted
3. For Desktop computers, laptop computers, palm pilot/PDA (or similar devices), or cellular telephones seized for forensic examinations, submit a request for examinations as follows:
 - a. Obtain a Computer Exam Request form from PDInfo-Help Articles-Computer Crimes-Service Request Form
 - b. Fill form out as completely as possible. In the "Evidence to be searched for" section, be as detailed as possible regarding the information to be obtained from the examination.
 - c. Submit completed form electronically

Order		D-32 CIB INVESTIGATIONS
Subject	200 Exculpatory Evidence	Effective 08/25/23

A. PURPOSE

Chandler Police Department employees must carefully comply with their obligation to disclose potential exculpatory and impeachment evidence in criminal cases (*Brady v Maryland 1963* and *Giglio v United States 1972*). All knowledge of potential exculpatory and impeachment evidence in the possession of an employee is attributed to the prosecuting authority. Failure to disclose potential exculpatory or impeachment evidence to the prosecutor in a criminal case taints the government’s case and subjects it to dismissal. This may also violate the defendant’s constitutional rights. Prompt disclosure of potential exculpatory and impeachment evidence preserves the integrity of the criminal justice system, while the failure to promptly disclose such evidence undermines it.

B. POLICY

To provide to the prosecution any potential exculpatory and impeachment evidence as soon as possible following the initiation of any criminal case in state or federal court and post-conviction investigations. The evidence required to provide to the prosecution under this policy is not limited to evidence admissible at trial, and the duty of disclosure under this policy continues for the duration of a case—from the filing of charges through trial and appeal, until the defendant has completed serving their sentence. It is the responsibility of the Chief of Police or designee to review all employees’ disciplinary history to determine if anything on file could affect the employee’s credibility as a witness. This information should be made available to the prosecutor for a determination of where said information is “Brady” material prior to the employee’s appearance in any criminal case.

C. DEFINITIONS

1. **DUTY TO DISCLOSE** – The affirmative constitutional duty of employees and law enforcement to notify the prosecutor of any exculpatory material - consult with the legal advisor to determine if any additional applicable notification requirements exist
2. **EXCULPATORY EVIDENCE/BRADY MATERIAL** – Information or evidence in the government’s possession that is favorable to the accused defendant and is material to the defendant’s guilt, innocence, or punishment; may impact the credibility of any government witness, including a law enforcement officer or other department employee.

D. GENERAL INFORMATION

1. **THE DEPARTMENT** is required to disclose Brady material and exercise due diligence in ensuring such material is made available to the prosecutor as soon as reasonably applicable
 - a. This responsibility exists regardless of whether the prosecutor makes a request for such evidence
 - b. Continues for the duration of a case—from the filing of charges through trial and appeal, until the defendant has completed serving their sentence. Provide new or updated information concerning any

previously provided potential exculpatory or impeachment evidence as it is generated or discovered

2. **EXAMPLES** of exculpatory evidence/Brady material:
 - a. Information that would directly negate the defendant's guilt concerning any count in an indictment
 - b. The failure of any eyewitness to make a positive identification of a defendant or another individual as the perpetrator
 - c. Any statement made by any person inconsistent with the testimony of a potential witness for the government regarding the alleged criminal conduct of the defendant written or recorded
 - d. Information that diminishes the degree of the defendant's culpability, the severity of the offense charged, or the severity of the defendant's sentence, e.g., information about a defendant's intellectual or behavioral health disability or minor role in the offense compared to the roles of co-defendants
 - e. Any criminal record or criminal case pending against any anticipated witness for the government
 - f. Any formal or informal offer of or request for leniency or favorable treatment made by the government to an anticipated witness in any existing or potential criminal case against that witness (e.g., an offer or request for immunity, non-prosecution, reduced charges, or a reduced sentence)
 - g. Any benefits, formal or informal, provided by the government to an anticipated witness
 - h. Information that casts doubt on the credibility or accuracy of an anticipated witness for the government
 - i. An inconsistent statement made by any anticipated witness for the government, whether or not the statement was written or recorded
 - j. Information regarding any mental or physical impairment of any anticipated witness for the government that casts doubt on the witness's ability to testify accurately and truthfully at trial
 - k. Any final department-adjudicated sustained findings of misconduct or pending internal investigations against an employee that deals with excessive use of force, dishonesty, integrity, bias whom the prosecution anticipates calling. This includes employees under suspension
 - l. Order		D-34 SEARCH WARRANTS
Subject	100 Planning and Writing	Effective 02/29/24

A. POLICY

1. **WARRANTLESS SEARCHES** are presumed to be unreasonable under the Fourth Amendment unless they fall under the few specifically established and well-delineated warrant exceptions. Therefore, when deciding whether to execute a search with or without a search warrant, generally, get a search warrant.
2. **FOLLOW PROCEDURES** outlined in this chapter, General Order E-09, and Arizona Revised Statutes (ARS), Title 13, Article 8, dealing with search warrants, particularly section ARS 13-3911 et seq

B. DEFINITIONS

1. **SEARCH WARRANT:** An order in writing, in the name of the state of Arizona, signed by a magistrate, directed to a peace officer, commanding him to search for personal property, persons, or items described in ARS Section 13-3912
2. **AFFIDAVIT:** A sworn statement setting forth facts supporting probable cause for issuance of warrant. It must:
 - a. Name the affiant
 - b. Name statutory grounds for issuance
 - c. Particularly describe persons, places, and/or vehicles to be searched
 - d. Particularly describe property and/or persons to be seized
3. **PROBABLE CAUSE:** Sufficient facts that would lead a reasonably prudent person, based upon the facts known by the officer, to believe that the items or evidence sought are connected with the criminal activity and that they would be found at the place to be searched

C. STATUTORY GROUNDS – A.R.S. 13-3912

A search warrant may be issued upon any of the following grounds:

1. Property to be seized was stolen or embezzled
2. Property or things to be seized were used as a means of committing a public offense
3. Property or things to be seized are in possession of a person having the intent to use them as a means of committing a public offense or in possession of another to whom he may have delivered it for the purpose of concealing it or preventing it being discovered
4. Property or things to be seized consist of any item or constitute any evidence which tends to show that a particular public offense has been committed or tends to show that a particular person has committed the public offense.
5. Property is to be searched and inspected by an appropriate official in the interest of the public health, safety or welfare as part of an inspection program authorized by law
6. Person sought is the subject of an outstanding arrest warrant

D. GENERAL INFORMATION

1. **DRAW ALL SEARCH WARRANTS**, affidavits, and related forms on approved standard CPD forms
2. **CONFIDENTIAL INFORMANT**
 - a. **When information leading** to the request for a search warrant is supplied by a confidential informant, state it in the affidavit including:
 - 1) The reasons the informant is credible or the information is reliable
 - 2) The circumstances which led the informant to conclude the evidence (fruits of a crime, instrumentalities of a crime, contraband, other items of evidence) would be where informant claimed it to be
 - b. When **the informant** used to supply the necessary probable cause must **remain confidential**, state the reason in the affidavit
 - 1) **Do not allow** the informant to be present when the search takes place because if he becomes a material witness to the crime charged, the court will order his identity revealed
 - 2) When possible, the officer using the informant should be the affiant for the search warrant
 - c. For more detailed information on case law, refer to the Department's legal advisor or the County Attorney's Office

Rev

E. WRITING A SEARCH WARRANT

1. **YOU MUST OBTAIN** a search warrant when you learn that incriminating evidence may be in a certain residence, building, vehicle, container, or other private place, and **a search warrant exception** does not apply. See GO E09-200 for list of constitutionally approved search warrant exceptions.
2. **THE FACTS IN THE AFFIDAVIT MUST** make it "**substantially probable**" that a specific person or property subject to lawful seizure is presently located in that particular place for which the warrant is sought
3. **AFFIDAVIT CONTENTS**
 - a. Should be in chronological and narrative form
 - b. Should include all information the affiant has, both first and second hand
 - c. Should include conclusions drawn from information based upon past training and experience
 - d. May have documents such as police reports attached and referenced in the affidavit
 - e. Should have a brief statement of affiant experience and training that would tend to support the conclusions
 - f. In order to avoid issues of staleness of information in the affidavit, include the most current information available to establish probable cause
 - 1) Make every effort to include information that is less than 72 hours old
 - 2) Serve narcotics warrants as soon as possible after issued
 - 3) Even if more than 72 hours old, information underlying a warrant is not stale if based on a continuing pattern or course of conduct, or other good reasons, the items to be seized are still on the premises

Rev

(e.g., continuing drug sales/activity over a lengthy period of time and no reason to believe the activity has ceased)

4. **DWELLINGS: Include complete address** and a brief description of outer appearance as a minimum, i.e.
 - a. Residence: "The residence at 918 W. Blaine Lane, a single-family home, yellow with white trim, the number "918" on the left side of the front door which faces north"
 - b. Apartment: specify apartment number, where located in the complex, and any other distinguishing particularities
5. **BUSINESS:** Include the business name, type of establishment (hardware store, restaurant, etc.) and all office spaces or safes to be searched
6. **VEHICLES:** Describe adequately
 - a. Generally, include the color, make, model, year, and license number. If the license number is unknown, give other details that distinguish it from other similar vehicles.
 - b. If known, give the probable location of the vehicle. If the item to be seized is hidden in an unusual place, such as inside a wall or in a car door, include that information.
 - c. Do not use information which, if revealed, would jeopardize the identity of a confidential informant
7. **PERSONS:** Describe persons to be searched by name, age, height, weight, race, hair color, eye color, and any other distinguishing marks
 - a. If incomplete or uncertain description: give the probable location
 - b. If true name and/or other physical characteristics are unknown, list bare minimum of sex, race, approximate age, what the subject was last seen wearing, and probable location
 - c. Do not state, "Any persons within the above described premises," or "Other unidentified persons"
8. **PHOTOGRAPHS OR DIAGRAMS:** Use if a written description is too lengthy or difficult to adequately describe the premises to be searched or the item to be seized
 - a. Attach to the affidavit and the search warrant
 - b. Accompany with a written synopsis
9. **"REASONABLE PARTICULARITY":** You **must** describe the property to be seized with "reasonable particularity," both in the affidavit and search warrant

Test of "reasonable particularity": Whether an officer with no knowledge of the facts supporting the warrant, looking only at the description of the property, could recognize and select the items while conducting the search. Search warrants are directed to "any peace officer." The description of the property sought must be clear and specific enough for any officer to serve the warrant and recognize and select the items described.

10. **UNANNOUNCED ENTRY: A.R.S. 13-3915(B) AND A.R.S. 13-3916** - If the officer believes that making an announced entry to execute the warrant would endanger the safety of any person or destruction of evidence sought by in the warrant, include in the affidavit supporting facts and request the court authorize an unannounced (i.e., “no knock” entry). Safety factors are determined by surveillance or other investigative methods that apply to the circumstances of the case and may include criminal activity; violence potential; weapons; security characteristics of the interior or exterior; hostages; number and identity of occupants; and any other relevant information. If the application requests an unannounced entry based on the potential destruction of evidence, the affidavit must explain the likelihood of destruction of that evidence weighted against the likelihood of risk to personal safety associated with the unannounced entry. If an unannounced entry is required, the warrant needs approval from the chain of command up to the Assistant Chief prior to the submittal to the court.
11. **EXCEPTION FOR NIGHTTIME SERVICE OF WARRANT: A.R.S. 13-3917** - Showing good cause, the magistrate may, in his discretion insert a direction in the warrant that it may be served at any time of the day or night (night is defined as the period from ten p.m. to six-thirty a.m.). Without this authorization, the warrant may be served only in the daytime.
12. **SHOULD BE TYPED:** In various circumstances, handwritten warrants may be used. Accuracy is vital. A wrong address or serial number may invalidate an otherwise acceptable warrant.
13. **ADMINISTRATIVE REVIEW:** If requested, the department legal advisor will review warrants
14. **JURISDICTION**
 - a. Affiant and the magistrate or judge swear to and sign warrant
 - b. Affiant must return warrant to court within three business days of the warrant’s execution
 - c. If there is any chance the prosecution may be in a **federal court**, a superior court judge must sign the warrant
15. **COPIES:** Make **two copies of the affidavit** and **three copies of the search warrant** to distribute as follows:

Figure 1. **Distribution of Affidavit Copies**

Warrant/Affidavit	Copy	Distribution
Search Warrant	Original	Returned to court after execution
Search Warrant	Copy	Given to person responsible for premises or person to be searched
Search Warrant	Copy	Retained for departmental records
Search Warrant	Copy	Retained with CIB file
Affidavit	Original	Retained by court
Affidavit	Copy	Retained for departmental records
Affidavit	Copy	Retained in CIB file

Note: In some cases of a sensitive nature and at the discretion of the CIB commander, retain all affidavit copies in CIB files.

**F. SEARCH WARRANTS:
TELEPHONE**

1. **AN AUTHORIZED, STATUTORY METHOD** to obtain a warrant which may be used to supplement or replace the written search warrant procedure, thus reducing the time required to obtain and execute a search (See ARS 13-3914 and 13-3915)
 - a. Present the facts justifying the search to the judge over the telephone instead of presenting a written affidavit in person
 - b. If the judge decides that probable cause exists to believe the incriminating evidence is in the place to be searched, he directs the officer to sign a "Duplicate Original Search Warrant" in the judge's name
2. **THREE TIME-CRITICAL SITUATIONS** for the seizure of incriminating evidence lending themselves to the telephonic search warrant procedure:
 - a. An officer has information that evidence is going to be at a particular place for a **short time** before being removed or destroyed
 - b. Upon an arrest on a person's premises, and where probable cause exists to search further than permitted by incidental-to-arrest rules, especially if **other persons are present** who could conceal or destroy the evidence while a written warrant is being obtained
 - c. When **on a person's premises** for a purpose other than to make arrests or searches (e.g., conduct an interview) and while there, develops probable cause to believe that there is incriminating evidence on the premises that would be destroyed or concealed if the time were taken to obtain a written warrant
3. **YOU MUST HAVE RECORDING EQUIPMENT** sufficient to record and preserve the conversation between the judge and affiant to obtain a warrant by this procedure
4. **BEFORE MAKING THE CALL** to the judge:
 - a. Prepare a short outline of facts to be presented to the judge over the telephone before calling to avoid leaving out important information
 - b. Prepare duplicate search warrant form
 - c. Test all recording equipment
 - d. Use a telephone with little or no background noise
 - e. Have one other officer witness the conversation if practical
5. **THE CALL**
 - a. The requesting officer will **identify himself to the judge** by name, rank, badge number, and agency, and state the purpose of the call
 - b. The judge must put the officer **under oath**. Failure to give the oath at this time will automatically invalidate the warrant. The procedure will be as follows:
 - 1) After stating the date and time, recite facts that make up probable cause referring to the short prepared outline
 - 2) If the judge finds probable cause exists, the officer reads verbatim the completed duplicated original search warrant to the judge

- 3) The judge directs the officer to sign the duplicate original search warrant with the judge's name, his court, and the officer's name, rank, badge number, and department
 - 4) The judge will direct that the recording be brought before him for transcription and filing after execution of the warrant. **If the judge omits this essential procedure, remind him to make such a statement for the recording.**
 - 5) State the time when the conversation with the judge is finished
6. **EXECUTE DUPLICATE ORIGINAL SEARCH WARRANTS** in the same manner as an original search warrant
- a. Officer executing warrant will enter the exact time of the execution on the face of the warrant
 - b. List all seized items on the inventory and return form
7. **TO PROTECT THE CHAIN OF EVIDENCE**, the officer originally obtaining the warrant will retain these items in his personal custody until returned to the judge
8. **WITHIN FIVE CALENDAR DAYS** of issuance of the warrant, the officer requesting the telephonic search warrant must execute the warrant. The warrant, recording, and the inventory form must be returned within three business days following the warrant's execution.

G. RETURN DEADLINE

1. Search warrants must be returned within **three business days of the warrant's execution**. The Rule of Criminal Procedure that automatically extends times under seven days does not apply.
2. Because the good faith failure to return the search warrant within three business days does not necessarily invalidate the search warrant, it should still be returned as soon as possible

H. SEALING AFFIDAVIT

The court issuing a search warrant may seal the contents of a search warrant affidavit if it determines that the release of confidential information in the affidavit would jeopardize an ongoing criminal investigation, and the need to keep it confidential outweighs the public's right to access public records.

An officer wishing to have a search warrant affidavit sealed should:

1. Make the request in the affidavit, include information justifying the request
2. Include language in the search warrant that orders the affidavit sealed
3. Contact a legal advisor who will determine if there are grounds to file a Motion to Seal Search Warrant Affidavit if the officer neglects to include a request to seal the affidavit or is unsure a request is justified

DEPARTMENT
GENERAL ORDERS**

Order	D-34 SEARCH WARRANTS	
Subject	200 Executing Search Warrants	Effective 02/29/24

A. PRIOR ACTIVITIES

1. **IF THE LOCATION IS UNSECURED** where the warrant will be executed, you may initiate surveillance
2. **ADVISE YOUR SUPERVISOR** prior to serving a warrant. A supervisor must be present at the service of a search warrant at a residence or business in Chandler. If the residence or business is in another jurisdiction, a sergeant and lieutenant must be present during the search warrant service.
3. **COMPLETE AND SCORE A THREAT ASSESSMENT** and a search warrant operations plan prior to serving a warrant
 - a. Use the score to determine which method of warrant service is appropriate
 - b. Make the assessment available to the participating personnel
 - c. SWAT serves all search warrants where the threat assessment shows a high risk
 - d. Have the SWAT commander assess entry for all warrants with moderately high to high-risk assessments
 - e. Any assessment marked as a “no knock” search warrant requires approval by the chain of command up to the Assistant Chief prior to the actual service

B. BRIEFING

COMPLETE A BRIEFING prior to every search warrant with all personnel involved in the execution of the search warrant, including:

1. **All personnel needed** based on entry difficulty and threat level
2. At least one officer will have done, or will do, **a drive-by** of the location where the search warrant is to be executed
3. **Display drawings of the exterior and interior, if known**, of the building to be entered for all officers executing the search warrant to see
4. **Assign each officer a specific job** at a particular location to avoid confusion at the time of the warrant execution. Ask each one to repeat the assignment to ensure understanding of role.
5. Advise officers during the briefing **which radio channel** will be used for the operation
6. Notify the Communications Center of the **location and purpose** shortly before execution of the warrant
7. Tell all participating officers **where to meet** before leaving for the location

8. **Advise all participating officers of any known hazards**, probable number of persons inside the location, if there are any known children inside the location, any known weapons, and any other information of consequence
9. Whenever possible, **retain all briefing notes and a photo** or printout of the blackboard in the case file

C. STAGING

[41.3.6]

ALL PARTICIPATING PERSONNEL

1. **MEET AT THE DESIGNATED LOCATION** and leave for the search warrant site together. The officer who has done the drive-by will drive the lead car, and all vehicles will stay together unless otherwise assigned by the supervisor in charge.
2. **SHOULD BE IDENTIFIED BY POLICE APPAREL** such as the raid jacket or blue tee shirt and displaying the word, "Police"
3. **WEAR BALLISTICS VESTS** (See General Order D-01.200L)

D. THE ENTRANCE

MEET ARS 13-3916 AND CHANDLER POLICE DEPARTMENT RULES AND PROCEDURES

1. **Should not use the surveillance officer** originally sent to the scene on the entrance team if he was not present at the briefing
2. **Personnel shall activate** their department issued body worn camera (BWC) during the search warrant service. Once the scene is secure and rendered safe, recording becomes discretionary. (See General Order E-07.100D1)
3. **Execute warrant** between 0630 and 2200 hours unless specifically authorized for nighttime service
Note: If good cause exists for a nighttime search warrant, include this information in the affidavit and request execution any time of the day or night

4. Unless the search warrant contains a provision authorizing unannounced entry (ARS 13-3915(B)), the officer serving the search warrant on a building **must knock on the door or otherwise alert occupants someone is at the door and announce** their authority and purpose (e.g., "Police Officer, Search Warrant"). Also use **Spanish** if Spanish-speaking people are believed to be in the building.

Note: If officers are at the scene preparing to execute the warrant and reasonably believe there are exigent circumstances justifying an unannounced entry (e.g., suspects or occupants inside are aware of officers' arrival or presence outside the door and actively begin to flee, destroy evidence, arm themselves with weapons, etc., before officers can knock and announce), then they are excused from complying with the announced entry procedures in A.R.S. 13-3915.

5. **If there is no response** after a reasonable time, you may force entrance through a door, window, or any part of the building to gain
 - a. If force is required to gain entry, document and photograph any damage caused by officers
 - b. Make every effort to avoid damaging property and minimize damage
 - c. Advise the on-scene supervisor of any damage when practical

E. SECURING THE SCENE

1. IMMEDIATE ACTIONS

- a. Make a protective sweep
- b. Frisk all persons in the location and take persons to a central location on the premises or in immediate vicinity (full search of person allowed only if named in warrant or arrested based on PC of committing a crime)
- c. Try to learn which people are the residents and/or person(s) named on the search warrant
- d. Detention of the following persons is allowed for the period of time needed to complete execution of the search warrant without regard to probable cause or reasonable suspicion:
 - 1) Any person present on the premises, or
 - 2) Any person in the immediate vicinity of the premises and associated with the premises to be searched, e.g., If police allow occupant to leave, they cannot detain him at a remote location unless they have reasonable suspicion or PC to arrest (Bailey v. U.S., US Supreme Court 2013)

2. ONCE EXECUTION OF THE SEARCH WARRANT IS COMPLETE, ALLOW ALL THE FOLLOWING PERSONS to leave:

- a. Those not arrested
- b. Those not named in the search warrant
- c. Those not residents of the location

F. EXECUTING A SEARCH WARRANT

1. **MAY SEIZE CONTRABAND OR STOLEN ITEMS WITH PROBABLE CAUSE** to believe items are stolen even though such property is not named in the search warrant, but only if they are found in the course of a proper search under the warrant
(e.g., a warrant for a stolen television set would not justify the search of a women's purse and the seizure of any drugs found in the purse; but a warrant for heroin would justify the search of the purse and seizure of the drugs)
2. **MAY SEIZE INSTRUMENTALITIES OF A CRIME** or items that are evidence, including drug paraphernalia, rent receipts, etc.
3. **PERSONAL ITEMS** such as purses, wallets or clothing of persons not named in the warrant may be searched if they:
 - a. Are not in the actual physical possession of the unnamed person at the time of search, and
 - b. May contain items listed in the search warrant

G. DOCUMENTING EVIDENCE

THE DESIGNATED "FINDER" AND "PAD PERSON" will record the following information on the Seized Property - Description form during service:

1. Date
2. Entrance time
3. Location of items seized
4. Offense report number
5. Description of items seized
6. Time the search was ended

H. ASSISTING ANOTHER AGENCY

1. **CHANDLER POLICE DEPARTMENT WILL ASSIST** other departments in the service of search warrants within Chandler's city limits whenever possible
2. **REFER REQUESTS** from other agencies to the supervisor of the related investigative unit
 - a. **Do not participate in the initial entry** of another agency's warrant unless a supervisor from the Chandler Police Department is present
 - b. **If no supervisor is available**, wait until entry has been made and the scene secured by officers of the other agency to enter and participate in the search or subsequent investigation
 - c. **The supervisor of the agency executing** the search warrant is responsible for all notifications, warrant information review, warrant conduct and security, appropriate memos, cassette tape recordings, and other tactical or administrative details regarding the operation
 - d. **Uniformed patrol supervisors and officers** will be used as situations dictate but will be returned to their regular duty assignments as soon as practical
 - e. **Detectives required to further the investigative process** may enter the scene without imprinted jacket, vest, or cap after the on-site supervisor has declared the scene secure and has authorized entry

3. PLAINCLOTHES OFFICERS IN INTERAGENCY OPERATION

Inter-agency briefing is required for a search warrant with tactical entry involving plainclothes officers from another agency prior to execution:

- a. Include onsite supervisors from all involved agencies to meet to discuss assignments, provide for appropriate notifications, and ensure that all plainclothes detectives involved will be wearing adequate apparel for immediate recognition as police officers
- b. If the other agency's tactical event plan does not meet the reasonable expectations or requirements of departmental policy, the departmental supervisor will inform the other agency and will not allow further involvement by Chandler Police Department personnel until the inadequacies are corrected. Consider:
 - 1) Adequate staffing
 - 2) Adequate current knowledge of the structure and occupants
 - 3) Other safety concerns
 - 4) Plainclothes officer recognition
 - 5) The presence of an agency supervisor on site
- c. Hold a group assembly of involved personnel to promote recognition between participants ◆ ◆ ◆

Rev

Your Affiant respectfully requests the Court's permission, as part of the Search Warrant, to destroy certain items deemed hazardous to human health. Your Affiant is aware that many of the chemicals used in clandestine drug laboratories are highly toxic, flammable and explosive. As a result of these properties, there is no adequate means of storing such evidence without creating significant risk to life and property. Your Affiant requests this be allowed. Your Affiant requests that the requirement for sampling be foregone if it would be unnecessary or unsafe or if the hazardous materials can be readily identified through labeling.

Attachment "B"

Destruction Order Required Clause

The Court has further found that hazardous materials may be encountered during the execution of this Search Warrant. In the event any such hazardous materials or items grossly contaminated by such are located and seized as evidence, they may be photographed, documented, sampled and thereafter destroyed under contract with the United States Drug Enforcement Administration. The requirement for sampling shall be foregone if it would be unnecessary or unsafe or if the hazardous materials can be readily identified through labeling.

**D-42 FIREARMS INVESTIGATION
PROGRAM**

Subject

100 Procedures

Effective

01/08/21

Summary:

This order explains the necessary procedures for the Chandler Police Department's (CPD) Firearms Investigation Program. This program utilizes the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) firearms tracing program, known as the National Integrated Ballistic Information Network (NIBIN), and the ATF's online eTrace system.

A. PURPOSE

ATF MINIMUM REQUIRED OPERATING STANDARDS (MROS) - The MROS, listed below, are rooted in ATF's "Four Critical Steps for a Successful NIBIN Program" comprehensive collection, timeliness, investigative follow-up, and feedback. They identify the practices that best allow NIBIN to provide comprehensive and timely gun intelligence. All NIBIN Sites will:

1. Enter all fired or tested fired cartridge cases from serviced law enforcement agencies and/or departments through a NIBIN acquisition machine within two business days of receipt
2. Enter accurately all required information during the acquisition process on the NIBIN acquisition machine
3. Correlate and conduct a secondary review of any potential NIBIN leads through an approved NIBIN correlation machine within two business days
4. Disseminate NIBIN leads within 24 hours
5. Designate and maintain a NIBIN Program Administrator
6. Have no policies that inhibit or restrict NIBIN submissions by serviced law enforcement agencies and/or departments
7. Operate with only Qualified NIBIN Users

B. POLICY

1. **EVERY FIREARM/CASINGS** coming into possession of Chandler Police Department either **seized** as the result of a criminal investigation or **found** under circumstances indicating the firearm was possibly involved in a crime will be entered into the ATF online eTrace system, the ATF NIBIN System, and entered as "recovered" into the FBI's National Crime Information Center (NCIC)
2. **FIREARMS ELIGIBILITY:** In accordance with the MOU with AFT, the NIBIN system housed at the Chandler Police Department (CPD) will be used for the imaging of firearms and/or related evidence and test-fires of firearms:
 - a. Illegally possessed
 - b. Used or suspected of being used in the commission of a crime
 - c. Taken into law enforcement custody through property damage crimes involving firearms
 - d. Found or abandoned under suspicious circumstances
 - e. Used during a domestic disturbance
3. **FIREARMS NORMALLY NOT** processed or test fired include:
 - a. Large caliber hunting rifles (i.e. .308, 30-60, 7mm mag., etc.)
 - b. Black powder rifle and handguns

- c. Pellet guns
- d. Antique or rare caliber firearms unless requested by case agent
- e. Shotguns (except 12 gauge)
- f. Safe keeping guns
- g. Any guns not suspected of having been used in a crime
- h. Department issued firearms

C. PHILOSOPHY

1. **GOAL:** The NIBIN program was created by the ATF to reduce the amount of illegal firearms trafficked in the United States and to:
 - a. Link suspect(s) to a firearm associated with a criminal investigation
 - b. Identify potential traffickers
 - c. Detect in-state, interstate, and international patterns in sources and kinds of crime guns
 - d. Assist in identifying firearms used in multiple crimes
 - e. Assist in quickly identifying firearms that may be reported stolen after being seized by our agency
2. **CPD ROLE:** Assist ATF by:
 - a. Identifying where guns are seized, from whom they are seized, and where the guns were originally obtained in order to assist ATF in identifying and prosecuting illegal sellers and traffickers of firearms
 - b. Entering test fired casings from evidence or found firearms and casings from crime scenes into the NIBIN database to help connect crimes involving the firearm

 - b. If DNA collection is needed, the case agent requests a crime scene tech respond to the scene. If latent print processing or both latent print and DNA collection is needed prior to NIBIN processing, the case agent submits a request and the evidence to the forensic lab
 - c. Lab personnel will first swab cartridge cases and firearms for DNA to preserve potential biological material when necessary
 - d. The case officer completes a separate NIBIN form for NIBIN processing
 - e. Forward firearms related evidence to the NIBIN Administrator for further NIBIN processing at the completion of the laboratory analysis
 - f. Expedited cartridge cases from scenes will be immediately processed for NIBIN and correlation results will be provided to the case officer
 - g. Test fires are evaluated, and the best representative sample is entered into NIBIN. Correlation results are provided to the Robbery/Homicide Sergeant who will then provide the results to the case

officer. This will be done through the RMS report writing system as a follow-up. The supervisor of the officer will also be notified through the RMS system.

2. **FIREARMS/CASINGS RELATED** to a suspicious death such as suicide, aggravated assaults, armed robberies, drive by shootings, misconduct involving weapons, or when a firearm is used in the commission of a crime and injury is non-life threatening or nonexistent, regardless of persons in custody (this section also applies to found firearms, regardless of the circumstances)

H. TEST-FIRE PROCEDURES

1. **ONLY TRAINED PERSONNEL** are authorized to conduct test-fires. Only a designated shooter handles the firearm, ensuring due diligence is taken to only handle the areas of the firearms necessary to fire the weapon
2. **CONDUCT FIREARMS** test-firing inside CPD shooting range. On occasion, staff may conduct test-firing procedures at off-site locations e.g., the Conex Box at CPD Property and Evidence Facility, Apache Junction Shooting Facility, or at C2 Tactical Shooting Facility
3. **ALL PERSONNEL WILL WEAR A BALLISTIC** vest during the test firing of firearm. THE FOLLOWING SAFETY RULES will apply, prior to all firearms being fired:
 - a. Treat all firearms as if they are always loaded
 - b. Never point the muzzle at anything you are not willing to destroy or purchase
 - c. Keep your finger straight along the frame until you are on target and have made a conscious decision to fire
 - d. Beware of your target, back stop, beyond, and what is to the left and right of it
4. **WEAR EYE AND HEARING PROTECTION** and stand behind the designated line-of-fire at all times
5. **WEAR NON-POROUS NITRILE GLOVES** and other PPE if necessary (e.g., biohazard suit, mask, safety glasses or visor) when test-firing a weapon contaminated with bodily fluids or other biohazard material
 - a. Evaluate firearms labeled as biohazard on a case by case basis. If necessary, wrap firearm in a new property bag or plastic bag prior to test fire in order to reduce any blowback
 - b. Change gloves between each item of evidence or any time contact is made with a contaminated surface
 - c. Change gloves every time a different firearm is test fired. If anything is processed for DNA after these test fires, wear a face mask when test firing the firearm
6. **PERFORM A SAFETY INSPECTION** of all firearms prior to test-firing. Includes a visual and manual inspection of the barrel to ensure it is free of obstructions, bulges, or defects that could prevent the safe firing of the firearm
7. **IF THERE IS ANY QUESTION** regarding the safety of the firearm, **DO NOT** test-fire the firearm. Contact Firearms personnel for further evaluation/analysis

8. **CONDUCT** all test-firing with **TWO** people present. Under no circumstances should personnel test-fire a firearm alone
9. **ENSURE TO COLLECT ANY** necessary prints/DNA evidence prior to handling a firearm that is to be test fired
10. **AMMUNITION:** Do not load live ammunition into any weapon until all safety inspections and precautions are taken to ensure the safety of the shooter and other additional personnel in the range
 - a. No firearms will be loaded and/or have the slide closed without the barrel of the firearm being placed securely within the receiver port of the shoot trap
 - b. Load firearms with the appropriate ammunition (correct caliber/ cartridge)
 - c. Do not use reloaded ammunition during test-firing
 - d. Do not use any magazines impounded as evidence for test fire purposes
 - e. Preserve evidence magazines for future latent print processing and/or DNA collection needs
 - f. Load a maximum of three (3) live rounds of ammunition into any magazine or weapon used to obtain test-fire cartridge casing exemplars
11. **VERIFY INCIDENT NUMBER** and barcode on envelope matches label on evidence bag prior to opening an evidence box/bag
12. **COMPLETE A NIBIN FORM** prior to test-fire for documentation
13. **ATTACH A "TEST-FIRE ENVELOPE"** to the evidence bag with the following:
 - a. Incident number
 - b. Crime type
 - c. Date of occurrence
 - d. Barcode number of item of evidence
14. **REMOVE FIREARM** and test-fired cartridge casings from the area after completing the test-firing process
15. **SECURE FIREARM** per departmental policy and return to its evidence container with NIBIN tag on firearm trigger guard
16. **ATTACH A NIBIN STICKER**, including the name of the employee and date the firearm was tested, to the firearm and/or evidence bag prior to impounding indicating the weapon has been processed
17. **PLACE EXPENDED CARTRIDGE** cases in the corresponding envelope for NIBIN entry
18. **DOCUMENT** the following information on the test-fire envelope:
 - a. Make, model, caliber, importer, serial number, and type of firearm
 - b. Serial number of person who test-fired the firearm
 - c. Date and location of the test-fire
19. **RETURN FIREARM** to Property and Evidence at the completion of this process

I. MALFUNCTION OCCURRENCE

1. **IF A MALFUNCTION** occurs with firearm or ammunition during test-firing, cease all further test-fires until the cause or extent of the malfunction is identified
2. **NOTIFY** a supervisor immediately if an unintentional discharge occurs during a test-fire process
3. **SEEK APPROPRIATE** emergency medical attention and notify a supervisor immediately if someone sustains an injury during the test-fire process, including but not limited to, an injury received from a projectile, ejected cartridge case, firearm malfunction, or any other injury
4. **IMPOUNDED FIREARMS** are unpredictable and “hang fires” do occur
 - a. A hang fire refers to the unexpected delay between pulling the trigger of a firearm and the discharge of the cartridge
 - b. If the trigger is pulled and the firearm does not fire as expected, wait a minimum of 15 seconds before ejecting the cartridge. This will help prevent any unintentional discharges as a result of a hang fire

New

J. NIBIN ENTRY PROCEDURES

1. **REQUIREMENTS**
 - a. NIBIN operators fully trained and certified by ATF can access NIBIN equipment (BrassTrax and MatchPoint +). Operators use NIBIN equipment and subsequent entries in accordance with all established policies and protocols set forth by ATF and/or Forensic Technology Inc.(FTI)
 - b. **ENTER ONLY ELIGIBLE TEST-FIRES** and evidence cartridge cases as established in sections D and G into NIBIN
 - c. **CERTIFIED PERSONNEL** complete/review correlations as well as personnel at the National NIBIN Correlation and Training Center (NNCTC) for quality control
2. **TEST-FIRE ENTRY, DOCUMENTATION, AND ETRACE**
 - a. Select at least one representative sample from each firearm and prepare for entry into NIBIN
 - b. After entry of test-fired cartridge casings into NIBIN, complete a supplement to the appropriate incident documenting the detail entry into NIBIN including who made the entry and the date of entry
 - c. Retain test-fire envelope after entry until the gun is destroyed, released, or no longer needed. Cartridge cases collected during test-fire are exemplars and not considered evidence (not to be impounded as evidence)
 - d. Enter all firearms processed by NIBIN operators into ATF's eTrace database. Email eTrace results to assigned case officers upon completion
 - e. Test-firing firearms is done for the purpose of collecting test-fired cartridge case exemplars for entry into NIBIN
 - 1) Not for the purpose of establishing functionality; however, basic functionality is established during the test-firing process
 - 2) Request a forensic function test by completing a DPS lab form requesting a scientific analysis if needed for court purposes
3. **EVIDENCE CARTRIDGE CASE ENTRY AND DOCUMENTATION**

- a. Process evidence cartridge cases while wearing nitrile gloves and a face mask/shield
- b. Screen cartridge cases under a microscope by trained staff prior to entry to determine all cartridge cases possess similar cycle-of-fire marks
- c. Select one representative sample from each represented firearm for entry into NIBIN
- d. Label individual cartridge cases identified for entry with a pink NIBIN sticker to identify them as having been selected for entry
- e. Reseal the evidence bag and return to Property and Evidence
- f. Wear non-porous nitrile gloves and other PPE appropriate biohazard safety equipment (e.g., mask, safety glasses, etc.) when handling a cartridge casing/evidence contaminated with body fluids or other biohazard material

It is the responsibility of NIBIN personnel to ensure crime scene cartridge casings are properly decontaminated prior to entry on the Integrated Ballistics Identification System (IBIS) machine if possible

If decontamination of the crime scene evidence is not possible, NIBIN personnel will ensure the IBIS machine is properly cleaned and decontaminated after the entry of each separate biohazard cartridge casing

- g. After entry of evidence cartridge casings into NIBIN, complete a supplement to the appropriate incident documenting the following:
 - 1) Chain of custody if the cartridge case was obtained directly from the Property and Evidence facility
 - 2) Details of the entry into NIBIN including number of casings entered, calibers of casings entered, who made the entry and the date of entry

New

K. LEADS AND DISBURSEMENT OF RESULTS

1. **CERTIFIED PERSONNEL** (and at NNCTC) correlate entries into NIBIN
2. **NIBIN LEAD** – the images from two cartridge cases possess sufficient similarities to indicate a possible common source
3. **NIBIN LEADS IDENTIFIED** by the NNCTC are sent to the assigned ATF Industry Operations Intelligence (IOI) Specialist who then forwards the information to the NIBIN Administrator. If the casing is identified as a NIBIN lead, they will notify the assigned ATF IOI for documentation
4. **NIBIN LEADS ARE INTENDED** to notify investigators of POSSIBLE links between incidents
5. **NIBIN ADMINISTRATOR OPENS CASE MANAGEMENT** related to the NIBIN lead, linking all associated incidents and documenting the NIBIN lead in RMS
6. **NIBIN LEADS** will be disseminated within 24 hours
7. **CASE OFFICERS** are notified when a NIBIN lead is identified involving one of their cases

- 8. **NIBIN LEADS DO NOT** establish probable cause and do not necessarily identify a particular suspect (additional information would need to be collected to establish probable cause for an arrest)
- 9. **NIBIN LEAD REPORT** at time of correlation will be added to the original report
- 10. **IT IS NOT NECESSARY TO CONFIRM** NIBIN Leads unless a direct comparison is necessary for trial or to further an investigation. If a direct comparison is needed to confirm a NIBIN lead, the lead investigator completes a Forensic Firearms Request

E-01 USE OF FORCE

Subject

100 Overview

Effective

09/22/23

Low Frequency/High Severity

A. DEFINITIONS

[4.1.1]

Figure 1: Use of Force Definitions

Term	Definition
1. Approved Weapons	Weapons meeting department specifications for which officers receive proficiency and safety training. Prior to the use of any approved weapon option, the officer, when practical, will communicate to other officers and the subject the use of the option is imminent, and clearly and audibly announce the same to all personnel in the immediate area unless it compromises officer safety.
2. Bilateral Vascular Restraint	A restraint where pressure is applied to the sides of the neck, resulting in diminished oxygenated blood flow to the brain without compressing or restricting the airway. Bilateral Vascular Restraint is not a choke.
3. Conducted Energy Weapon (CEW)	A neuro-muscular incapacitation device that, through the delivery of an electrical current, stimulates the motor neurons to contract disrupting communication from the brain to the muscles thereby causing temporary motor skill dysfunction. <ul style="list-style-type: none"> a. Spark Test – A non-contact demonstration of the CEW’s ability to discharge electricity b. Touch Stun – A secondary function of the CEW intended to administer localized pain to a subject by making direct contact with the body without firing the probes c. Probe Mode – The primary function of the CEW is intended to temporarily incapacitate a subject by firing the CEW and deploying the probes
4. Control Under Power	A tactic where an officer controls a subject while the conducted electrical weapon (CEW) is cycling and the subject is in neuro-muscular incapacitation (NMI)
5. Deadly Force	The level of force used to stop a threat that, in the manner of its use or intended use, is capable of creating a substantial risk of causing death or serious physical injury
6. Deadly Weapon	Anything designed for lethal use including a firearm. Deadly weapon includes, but is not limited to: <ul style="list-style-type: none"> a. A firearm loaded with lethal ammunition (ammunition by design and application intended to cause serious bodily injury or death) b. Any less than lethal weapon used with lethal intent
7. De-escalation	Officers’ efforts to stabilize a situation and reduce the immediacy of the threat so more time, options, and resources are available to resolve a situation with the overall goal of gaining voluntary compliance of subjects, when feasible, and reducing or eliminating the need to use physical force

Rev

Term	Definition
8. De-escalation Methods	Actions, decisions, conduct, verbal persuasion, and tactics used by officers, when safe and feasible without compromising law-enforcement priorities, that seek to minimize the need to use force during an incident and increase the likelihood of gaining voluntary compliance from a subject
9. Force Options	Broad categories of influence and/or force in identifiable stages of intensity
10. Force Transitions	The objectively reasonable escalation/de-escalation, of the application of one force type to another based on the standard set in <i>Graham v Connor</i> , 490 U.S. 386 (1989)
11. Graham Test	The type and amount of force used must be justified based on: 1) the severity of the crime involved, (2) whether the suspect posed an immediate threat to the safety of the officers or others (most important factor), (3) whether the suspect was actively resisting arrest or attempting to evade arrest by flight, and 4) the totality of all other relevant circumstances
12. Imminent Threat	An impending violent act or resistance an officer reasonably believes will occur based on the totality of the circumstances
13. Intermediate Force	Tactics, tools, and munitions authorized to gain compliance, overcome aggression, or capture, control and facilitate constraint when an officer is faced with aggression or aggravated aggression
14. Less Lethal Force	The degree or type of force employed by an officer and directed against another individual that is not intended to and is unlikely to cause death or great bodily harm
15. Low Level Force	Tactics and tools authorized to gain compliance, overcome resistance, or capture, control, and facilitate constraint when an officer is faced with resistance
16. Officer	For the purposes of use of force policies, references to officer refer to both sworn police officer and detention officer, unless otherwise noted
17. Reasonable Belief	The facts or circumstances one knows, or should know, are such as to cause the ordinary and prudent officer to act or think in a similar way under similar circumstances
18. Reasonable Force	Force which is justified using an objective standard based on the totality of the circumstances presented at the time of the incident and is viewed from the perspective of a reasonable officer on the scene rather than using 20/20 hindsight. See <i>General Order E-01.200 "Determining Objectively Reasonable Force"</i> .
19. Recovery Position	A safe lying or seated position that allows for lung expansion, a clear airway and minimizes the risk of aspiration
20. Reactionary Gap	Tactics that create a positional advantage for an officer. Intended to slow down a subject's actions and increase an officer's reaction time; includes distance, angles, barriers, cover, and concealment.
21. Serious Physical Injury	Physical impairment which creates a reasonable risk of death, or which causes serious and permanent disfigurement, or serious impairment of health, or loss or protracted impairment of the function of any bodily organ or limb

B. POLICY

[4.1.1] [4.1.2]

DO NOT USE MORE FORCE THAN IS OBJECTIVELY REASONABLE to accomplish your lawful purpose. It is the policy of this department **officers hold the highest regard for the dignity and liberty of all persons. The department respects the value and sanctity of every human life** and the application of deadly force is a measure to be employed in the most extreme circumstances. In any analysis of a use of force incident, consideration must be made for the fact that officers are often forced to make split-second judgments in circumstances that are tense, uncertain, and rapidly evolving about the amount of force that is necessary in a particular situation.

1. **USE OF ANY FORCE IS REACTIONARY** in response to a subject's actions;. officers may immediately use any authorized option if reasonable
2. **WHEN FEASIBLE, PRECEDE ANY USE OF FORCE BY A VERBAL WARNING** force will be used if the suspect will not comply. The warning is unnecessary if it will endanger an officer or take away a tactical advantage. The officer employing force need not be the officer giving the warning.
3. **USE DEADLY FORCE ONLY WHEN:**
 - a. You reasonably believe it is necessary to defend yourself or another person from what you reasonably believe to be the use of, or imminent use of, deadly physical force
 - b. To effect the arrest or prevent the escape from custody of a person who you reasonably believe has committed, attempted to commit, is committing or is attempting to commit a felony involving the use or threatened use of deadly force, and if the person is likely to endanger human life or inflict serious bodily injury to another unless apprehended without delay

C. ISSUING ORDERS

[4.3.4]

ALL EMPLOYEES AUTHORIZED TO USE FORCE will be issued copies of these orders and all other policies applicable to the weapon or technique and provided training in the use of force prior to being authorized to carry a firearm or use other methods of force

D. AUTHORIZED TECHNIQUES OR WEAPONS

[4.3.1] [4.3.3]

1. **ONLY DEPARTMENT-AUTHORIZED WEAPONS AND AMMUNITION** may be used in law enforcement responsibilities
2. **ONLY EMPLOYEES TRAINED AND CERTIFIED** (where applicable) by a department-approved instructor or course of instruction on specific weapons or weapons systems, including firearms, will carry, deploy, or use those techniques and/or weapons
3. **IT IS RECOGNIZED CIRCUMSTANCES MAY ARISE** in which officers must deviate from established tactics, tools, and training out of necessity. In such circumstances, the use of improvised methods must nonetheless be reasonable and necessary

E. FORCE TRANSITION

Transition to differing degrees or types of force, including attempts to de-escalate, in use of force incidents. Force situations are dynamic and require:

1. **CONTINUALLY ASSESSING** the suspect's actions to ensure a proportionate response
2. **MODIFYING FORCE OPTIONS** in relation to the amount and type of resistance or threat by the subject

F. DE-ESCALATION

Policing requires an officer to exercise control of a violent or resisting subject, whether to make an arrest, or to protect the officer, other officers, or members of the community from risk of imminent harm. The decisions and tactics used may impact the direction and outcome of many situations.

1. **GOOD COMMUNICATION SKILLS**, patience, and verbal direction resolve many situations. Voice control often indicates emotional control. A slow, soft, and deliberate voice conveys control and may diffuse the hostile, verbally aggressive subject and de-escalate the situation. Utilize active listening (e.g., summarize the person's verbal communication to build rapport)
2. **IF RESISTANCE CONTINUES** after using proper verbal and non-verbal skills or resistance escalates, be prepared to use reasonable force to gain compliance
3. **GATHER INFORMATION ABOUT THE INCIDENT**, assess the risks, assemble resources, attempt to slow momentum, and communicate and coordinate a response when reasonable under the totality of circumstances
 - a. When practical, use advisements, warnings, verbal persuasion, and other tactics as alternatives to higher levels of force in interactions with subjects
 - b. **EXAMPLE:** Withdraw to a position tactically more secure or allows a greater reactionary gap, distance, and cover to slow the situation down affording the opportunity to consider or deploy a greater variety of force options.
4. **SUPERVISORS ARE EXPECTED TO RESPOND** to incidents in a timely manner where police use of force is probable
 - a. Supervisors involved in the management of an overall response to potential violent encounters by coordinating resources and officers' tactical actions enhance a favorable outcome
 - b. Supervisors should possess a good knowledge of tactics and ensure officers perform to a standard

G. PHYSICAL RESTRAINT DEVICES

1. **RESTRAINING SUBJECTS:** Used to prevent a person from:
 - Leaving the scene of a detention or arrest
 - Initiating or escalating violence against the officer, another person and/or themselves
 - Destroying evidence or property
 - a. The fact that a person is physically or mentally impaired does not exempt them from wearing restraining devices when deemed necessary by the transporting officer. The type of device used will depend upon the type and severity of the impairment. Select a device to restrain the prisoner securely without intentionally causing injury.
 - b. Transporting officers – Use discretion determining the type of restraining device to be used. Consider the nature of the offense, the person arrested, level of resistance, and the nature and degree of the

- impairment or injury involved.
 - c. Escort handcuffed subjects using the approved technique. Refrain from allowing suspects to walk behind without any type of escort hold.
 - d. Place a restrained person in a recovery position as soon as practical. The only exception is for transportation by a medical unit
 - e. Restraint devices: Approved handcuffs, RIPP Restraint™ device, leg chains, and prisoner belly chain
2. **HANDCUFFS** – Issued to officers through the Quartermaster
 - a. Only handcuffs authorized by the department and Training Unit may be used to restrain a person
 - b. Restrain a person with their hands behind the back, palms facing out. Check handcuffs for fit and double-locked.
 3. **ALTERNATIVE RESTRAINT DEVICE (RIPP RESTRAINT™)** – To prevent injury, the RIPP Restraint™ may be used in conjunction with the handcuffs, to minimize the movements of belligerent or combative prisoners
 - a. Used in situations where conventional restraint methods are not suitable
 - b. Do not place suspect in a position where the feet are cinched tightly and the restraint is attached to or hooked around the handcuff chain. The reference to “hobble” and “hog-tying” are incorrect terms and should not be utilized to describe the technique.
 - c. Use the device in the manner prescribed in training. Only officers who have successfully completed training in their use are authorized to use these devices.
 - d. Only devices (RIPP Restraint™) issued by the department shall be used. Alternative restraint devices may be carried in a holder on the duty belt.
 4. **LEG CHAINS AND BELLY CHAINS** – Detention Officers will adhere to General Order E-12.100.D (outlines use)

H. IMPACT DEVICES

The Training Unit maintains a list of authorized impact devices. Any modifications to these devices shall be approved by the Training Unit Supervisor prior to use.

1. **STRAIGHT BATON** – A device made of a 20-to-26-inch solid polycarbonate or wood baton black or tan in color
2. **SIDE HANDLE BATON** – Specialized baton of similar configuration to the Monadnok PR-24 baton and may be individually purchased by the officer. Requires training by the Training Unit prior to deployment.
3. **EXPANDABLE BATON** – Baton is capable of being expanded from a more compact, retracted status. Specifications on approved expandable batons models are maintained by the Training Unit.
4. **FLASHLIGHT** – Primary use of the flashlight is for illumination purposes. The flashlight may be used as an impact device when the use of a baton is not practical or readily available. Transition to the approved baton when it can be done safely.

E-01 USE OF FORCE

Subject

200 Options

Effective

07/24/24

Low Frequency/High Severity

A. PHILOSOPHY

The Department's guiding value when using force is reverence for, and the sanctity of, all human life. Department personnel may objectively use reasonable force to carry out their duties when warranted. Officers who use unreasonable force degrade the confidence of the community we serve, expose the Department and fellow officers to legal and physical hazards, and violate the rights of individuals upon whom unreasonable force is used. Conversely, officers who fail to use force when warranted may endanger themselves, the community, and fellow officers. An officer's response is expected to be objectively reasonable based on the actual, or reasonably perceived, threat presented by the subject.

It is the policy of the Chandler Police Department to treat all members of the public with respect and in adherence with the rights afforded by the United States Constitution and the Constitution and laws of the State of Arizona.

Officers will be held accountable for their action, as well as inaction, when using physical force in the execution of their duties. Officers are expected to comply with all legal and Department standards. Officers are expected to ensure appropriate medical aid is rendered in all incidents involving the use of force.

**B. DETERMINING OBJECTIVELY
REASONABLE FORCE**

1. **NO UNNECESSARY OR UNREASONABLE FORCE** shall be used in making an arrest, and the person arrested shall not be subjected to any greater restraint than necessary for his detention. ARS § 13-3881(B)
2. **WHEN OFFICERS USE FORCE** they must consider:
 - a) Severity of the crime at issue
 - b) Whether the suspect poses an immediate threat to officers or others
 - c) Whether he is actively resisting arrest or attempting to evade arrest by flight *Graham v. Connor, US Sup. Ct.*
 - d) Influence of drugs/alcohol or the mental capacity of the subject
 - e) Recognize if the person is in crisis
 - f) Time available to an officer to make a decision
 - g) Availability of additional officers/resources to de-escalate the situation
 - h) Proximity of access of weapons to the subject
 - i) Environmental factors and/or other exigent circumstances
 - j) Availability and practicality of lesser means of force
 - k) Ability to give verbal warning prior to use of intermediate or deadly force (*Blanford v. Sacramento County, US Ninth Circuit Court of Appeals*)
 - l) A vulnerable position which compromises the officer's full self-defense abilities
3. **IT IS RECOGNIZED** circumstances may arise when officers must deviate from established tactics, tools, and training out of necessity. In such circumstances, the use of improvised methods must nonetheless be reasonable and necessary.

New

4. **EMPLOYEES DIRECTLY INVOLVED** in applying force on a subject will be relieved, as soon as practical, by another officer not directly involved in the response to resistance incident for care and custody of the subject
5. **WHEN FORCE IS NEEDED, ASSESS EACH INCIDENT** to determine based on policy, training and experience, which force option may de-escalate the situation and bring it under control in a safe and prudent manner. Reasonable and sound judgment will dictate the force option to be employed.
 - a. As each use of force situation is unique in its own respect, do not rely on one specified or defined distance or response as the sole factor in determining the safest and most effective solution to a critical incident. Instead, when feasible, utilize all information provided to assist in consideration and articulation of the entirety of the situation.
 - b. Circumstances such as time, environment, obstacles, distance, and human performance factors during the event can be examined on a totality of circumstances basis. Utilizing such factors can often help create a reactionary gap that may increase the probability of a desired outcome.

C. COMPLIANCE AND LEVELS OF RESISTANCE

1. **COMPLIANCE:** A person contacted by an officer who acknowledges direction or lawful orders given and offers no resistance or aggression
2. **RESISTANCE:** Actions taken by a subject to prevent a physical arrest or detention, without placing an officer, themselves, or another person in jeopardy or physical harm
 - Consider resistance may be due to a medical condition, mental, physical, or hearing impairment, language barrier, drug interaction, or emotional crisis
3. **AGGRESSION:** Actions taken by a subject to prevent a physical arrest or detention and may cause physical harm to the officer, themselves, or another person
4. **AGGRAVATED AGGRESSION:** Actions taken by a subject to prevent a physical arrest or detention and may result in the death or serious bodily harm to the officer, themselves, or another person

D. FORCE OPTIONS

Assess each incident to determine, based on policy, training, and experience, which use of force option is believed to be appropriate to bring the situation under control safely. Only use the amount of force that is objectively reasonable according to the totality of the circumstances

1. **LOW LEVEL FORCE** – Tactics and tools authorized to gain compliance, overcome resistance, or capture, control, and facilitate constraint when an officer is faced with resistance
 - a. **Officer Presence:** The officer is clearly identified as an officer and his/her authority is established by presence in uniform or by clearly displaying a badge or identification
 - b. **Verbal Direction:** Minimum means of halting an offense, gaining compliance or overcoming resistance. Professionally and clearly relay

the police objective. Use verbal commands when possible, including warnings, before resorting to physical force. Consider any language barriers, noise, other distractions, or disabilities which may impair or frustrate effective and clear communication with the person.

- c. **Empty Hand Control:** Control methods ranging from guiding a subject's movement to more dynamic techniques such as pressure point strikes
 - 1) **Control techniques** – May include standard handcuffing and suspect restraint devices, control holds, touch pressure points, and takedowns. Strikes specifically targeting pressure points are authorized on subjects displaying resistance
 - 2) Strikes to the head and throat **are prohibited** as a low-level force option
 - d. **Oleoresin Capsicum (OC) Spray and High-Pressure Air Systems (HPA)** – HPA are justified as a low level force option to saturate the immediate area around a resisting subject with food grade irritant, not as an impact munition
2. **INTERMEDIATE FORCE:** Tactics, tools, and munitions authorized to gain compliance, overcome aggression, or capture, control, and facilitate constraint when an officer is faced with aggression or aggravated aggression

Types of intermediate weapons/devices/techniques:

- a. **Oleoresin Capsicum (OC) Spray** –A means of defense and control using an organic food grade irritant
 - b. **Impact Devices**– A department approved baton or improvised device used to gain compliance, overcome aggression. or capture, control, and facilitate constraint
 - c. **Conducted Energy Weapon (CEW)(Taser®)** – A less lethal weapon that uses electricity to impair voluntary motor responses or cause discomfort to gain compliance, overcome aggression, or capture, control, and facilitate constraint
 - d. **Less Lethal Munitions/OC and CS Gas** –Department approved impact munitions, gas munitions and high-pressure air systems (HPA) used to gain compliance, overcome aggression, or capture, control, and facilitate constraint. The use of authorized less lethal munitions absent aggression can be justified when:
 - 1) Deadly force is not justified **and**
 - 2) Empty hand control techniques or strikes are either not sufficient or not a reasonable option due to risk to officers, public and/or subject
 - e. **Strikes** - Techniques that involve the use of an officer's personal weapons and include impact push, closed and open hands, elbows, knees, and kicks
 - f. **Police Service Dog (K9)** – See K-9 Manual
 - g. **Bilateral vascular restraint** – where pressure is applied to the sides of the neck without compressing or restricting the airway, resulting in diminished oxygenated blood flow to the brain
3. **DEADLY FORCE:** Force used to stop a threat capable of causing death or serious physical injury. Officers may employ all the techniques outlined in this General Order, and others that may be available, including deadly force, to protect themselves or others from the use of deadly force.

E. ELEMENTS FOR DEADLY FORCE

Four elements must be present **simultaneously** for the use of deadly physical force to be justified

1. **ABILITY** –A person has the means or capability to cause, serious physical injury or death to an officer or another. This may include, but is not limited to the suspect’s physical ability, size, age, strength, gender, combative skill, level of aggression, and any weapons in their immediate control
2. **OPPORTUNITY** –A person can effectively resist an officer’s control or use force or violence upon the officer or another. Examples include relative distance to the officer or others, physical barriers between the subject and the officer, and access to weapons
3. **IMMINENT JEOPARDY** – Based upon all the facts and circumstances the officer reasonably believes the subject poses an imminent threat to the life of the officer(s) or others, and the officers must act immediately to prevent death or serious bodily injury
4. **PRECLUSION** – All other lesser alternatives have been reasonably considered or rejected as ineffective prior to the use of deadly force. Deadly force in response to the subject’s actions must remain reasonable while based upon the totality of the circumstances known to the officer at the time force was applied.

F. DUTY TO INTERVENE

Any officer or employee (within their scope of authority and training) present and observing another employee or public safety associate using force clearly beyond what is objectively reasonable under the circumstances shall, when in a position to do so, safely intercede to prevent the use of such excessive force. Officers/employees shall promptly report these observations to a supervisor.

G. PROFICIENCY

[4.3.2] [4.3.3]

1. **POLICE, RESERVE, AND DETENTION OFFICERS RECEIVE ANNUAL TRAINING** in the following:
 - a. Use of force policy
 - b. Demonstrate proficiency with all firearms
 - c. Bilateral vascular restraint
 - d. CEW (Taser®)
 - e. Chemical agents (CS)
 - f. Organic food grade irritants (OC spray)
 - g. High Pressure Air Systems
 - h. Impact devices
 - i. Handcuffing techniques
2. **POLICE, RESERVE, AND DETENTION OFFICERS RECEIVE BIENNIAL IN-SERVICE TRAINING** in the following use of force options:
 - a. Empty-hand techniques
 - b. Other approved weapons and techniques
3. **EMPLOYEES FAILING TO QUALIFY** or demonstrate proficiency with an approved device, weapon, or technique are not authorized to use that device, weapon, or technique until proficiency is demonstrated

4. **AZ-POST CERTIFIED INSTRUCTORS** will monitor and document training in the area of proficiency being instructed. The Training Unit will schedule and maintain documentation of training.

H. REQUIRED AID FOR INJURED

[4.1.5]

PROVIDE AID FOR ANY PERSON INJURED or claiming to be injured through the use of force or any law enforcement action as quickly as reasonably possible:

1. Provide appropriate first aid
2. Call paramedics (when necessary, e.g., obvious severe injuries have occurred, medical distress is apparent, or unconscious)
3. Transport to a medical care facility (when necessary)
4. Document the incident in police report
5. Be aware of the following situations:
 - a. **Violent Subjects** or subjects who are under the effects of drugs or alcohol should be closely monitored for breathing difficulties or unconsciousness
 - b. **Excited Delirium:** The combined physiological and psychological state of excitement characterized by exceptional agitation, hyperactivity, overheating, excessive tearing of the eyes, hostility, superhuman strength, aggression, acute paranoia, and endurance without apparent fatigue brought about by psychosis, drug or alcohol intoxication, or a combination of these factors
 - c. **Paramedics should be called as it becomes apparent that the person is suffering from one or more of these factors or Excited Delirium**
 - d. **Restrained Subjects:** Once violent subjects and/or subjects exhibiting indicators of excited delirium have been restrained (with or without RIPP restraint), turn them to their side or assist them to a seated position to enhance breathing. Do not leave them in a face down position.

I. PERSONAL WEAPONS

1. **EMPTY-HAND TECHNIQUES** Include unarmed self-defense techniques such as strikes delivered with an officer's hands, arms, legs, feet, head, and/or knees
2. **STRIKES TO THE HEAD** are authorized only when the officer is confronted by a subject displaying **AGGRESSION/ AGGRAVATED AGGRESSION**. Strikes to the head of a restrained subject should be avoided unless other force options are not practical.

J. CHEMICAL AGENTS/FOOD GRADE IRRITANT

[4.1.4] [4.3.1]

1. **ISSUED CHEMICAL AGENTS/FOOD GRADE IRRITANT:** Oleoresin Capsicum (OC) and CS are issued to authorized employees as follows:
 - a. Authorized employees on successful completion of training
 - b. CS authorized for SWAT use only. Follow standard procedures for application and decontamination of this chemical agent
 - c. High Pressure Air Systems (FGI) carried by authorized personnel only
2. **USE OC SPRAY AS AN EFFECTIVE CONTROL METHOD** on vicious animals

Figure 2. Temporary Effects of OC Spray

Eyes may open	2-10 minutes
Respiratory effects lessen	10-25 minutes
Skin effects dissipate	45-60 minutes. Redness may remain up to 2 hrs

3. **INSTRUCTIONS**

- a. Chemical agents/FGI are designed to be sprayed from a distance. Spray the subject with a full burst until it is determined that the liquid has been delivered onto the target area (the facial area of eyes, nose, and mouth) for at least half a second
- b. Avoid dispersing agent within four feet directly into an open eye
- c. Give the subject a clear command that is easy to follow
- d. Evaluate the level of compliance and repeat the application if reasonable and necessary
- e. Control by using handcuffs and/or authorized controlled techniques
- f. Avoid touching your eyes, nose, mouth, and other sensitive skin areas until you are able to wash your hands

4. **UNLESS SUBJECT REFUSES TREATMENT** or is combative to the point that treatment could present a danger to the member administering it:

- a. Remove the subject from the area of exposure and place them in fresh air out of direct sunlight
- b. Have subject stay still and tell them to breathe normally and relax as much as possible
- c. Call paramedics
- d. Flush the affected areas with cool water and/or apply a wet towel to the face. If burning persists, use non-oil based soap or shampoo to remove remainder of resin (normally handled by paramedics)
- e. If the exposure is severe, the subject may be transported to a hospital emergency room for treatment

K. CONDUCTED ENERGY WEAPON (CEW) (TASER®)

[4.1.4] [4.1.5] [4.2.1] [4.3.1]

A conducted energy weapon is a less lethal weapon that uses electricity to impair voluntary motor responses or cause discomfort to gain compliance, overcome resistance, or capture, control, and facilitate constraint. Courts consider CEW devices such as TASER®, especially when used in dart mode, to constitute an intermediate, significant, although non-lethal level of force that must be justified by a strong government interest that compels the employment of such force. *Bryan v. MacPherson*, (Ninth Circuit Court of Appeals, 2010)

1. **GENERAL POLICY**

- a. **CEW is a force option** that may be used to detain, arrest, defend, and protect individuals when aggression or aggravated aggression exists and is reasonable to protect the officer, another person, or themselves from harm

- b. **The use of a CEW is a seizure**; therefore, an officer must be able to articulate that he had reasonable suspicion or probable cause for arrest or detention for evaluation (e.g., suicidal subject)
- c. Whenever possible, **verbal directions/warnings shall be given** prior to deploying a CEW
- d. **Training:** Only those officers/detention officers who have satisfactorily completed the department's **approved initial training course and required annual retraining** shall be authorized to carry a CEW
- e. The Training Unit has primary responsibility for and maintains the CEW program

NOTE: *The use of a CEW may be used in rapid deployment applications as a means of crowd control where a physical arrest may not be possible, however, any use in this manner shall be at the direction of a supervisor*

- 2. **MANDATORY CARRY:** All first responders (officers responsible for responding to calls for service and/or maintaining control of prisoners) and detention officers:
 - Sworn officers in a non-patrol capacity or detention officers are not required to carry a CEW when attending ceremonial details or with supervisory approval under special circumstances

3. **CEW READINESS**

- a. CEW carry:
 - 1) Approved holster on the support side of the body
 - 2) Outer body armor carrier as described in [GO B-05.200](#)
- b. Shall be carried fully armed with the safety on in preparation for immediate use when authorized

4. **SAFETY**

- a. CEW shall be holstered at all times with the safety switch in the safe (SAFE) position unless it is being tested or placed into operational deployment
- b. CEW shall be pointed in a safe direction during loading, unloading, daily spark testing, or when handled in other than operational deployment
- c. When not being carried, CEW shall be secured where it cannot be accessed by others
- d. All CEW repairs will be coordinated through the Training Unit

5. **DEPLOYMENT**

- a. When possible, have an arrest plan in place prior to deployment
- b. Have lethal back up if available
- c. Preferred target should be the subject's back or one probe above and below the belt line for maximum effectiveness whenever possible
- d. Avoid head, face, larynx, genital or female breast exposures whenever possible
- e. Should apply a full five-second cycle deployment without interruption unless circumstances dictate otherwise
- f. Avoid prolonged cycles
- g. If possible, take subject in custody during the CEW cycle
- h. Assess the situation after each cycle
- i. Apply additional cycles only when necessary to accomplish the legitimate operational objective

- j. If subject refuses to comply after multiple CEW applications, consider whether additional applications are making sufficient progress toward compliance/restraint or if transition to a different force option is warranted

NOTE: *The application of CEW is a physically stressful event. Length of cycles and frequency of cycles should be minimized when dealing with persons in a health crisis, such as excited delirium. Additionally, CEW applications directly across the chest may cause sufficient muscle contractions to impair normal breathing patterns; therefore, prolonged applications should be avoided where practicable*

6. **DRIVE STUN:** *(Primarily a pain compliance tool due to lack of probe spread - minimally effective when compared to conventional cartridge-type deployment)*

- a. Press the CEW against the body and activate
- b. Recommended targets
 - 1) Suprascapula (side of neck)
 - 2) Brachial plexus tie-in (upper chest)
 - 3) Radial (forearm)
 - 4) Pelvic triangle
 - 5) Common perineal (outside of thigh)
 - 6) Tibial (calf muscle)

NOTE: *Use care when applying drive stun to neck or groin areas. These areas are sensitive to mechanical injury.*

7. **DEPLOYMENT CONSIDERATIONS**

- a. Be reasonable regarding deployment based on the totality of the circumstances
- b. Be cognizant that the application of a CEW is a physically stressful event and may contribute to secondary injuries
- c. Consider conditions such as:
 - 1) Age, particularly the very young and the very old
 - 2) Known physical conditions, such as pacemaker and/or defibrillator implant, pregnancy, etc.
- d. Consider potential injuries to subjects who are:
 - 1) Running
 - 2) Traveling at high speeds, e.g., bikes, skateboards, mopeds
 - 3) Situated in elevated places, e.g., roofs, ladders, trees, walls, utility poles
 - 4) Located next to bodies of water
- e. Consider the ability to give verbal warning prior to deployment

8. **POINTING/DISPLAYING THE CEW**

- a. Officers should only display the CEW when they reasonably believe that discharge, if it proves to be necessary, will be justified under the circumstances
- b. Under these circumstances, an officer may spark the CEW and/or display the visible laser (away from the subject's eyes) in order to encourage voluntary compliance

9. **PROHIBITED DEPLOYMENT**

- a. At or from a moving vehicle

- b. In any environment that is obviously flammable, volatile, or where explosive material/vapors are present
- c. To escort/prod individuals absent an emergency situation, unless approved by a supervisor
- d. To awaken unconscious or intoxicated individuals
- e. In a punitive or coercive manner
- f. On a handcuffed/secured prisoner absent “active aggression”
- g. Against misdemeanor subjects solely for running from the officer unless the officer can articulate an immediate threat

10. POST-USE PROCEDURES (PROBE REMOVAL)

- a. Do not attempt probe removal if subject is combative or if the location of the barb is in the face, ear, breast, groin, or deeply imbedded
- b. May remove barbs superficially in the skin if you are trained to do so, and in the presence of another officer

Figure 3. **CEW Post Use Procedure**

- Use latex gloves
- Place the removed probes in spent cartridge barb side down.
- Clean wound with antiseptic wipe and bandage
- Securely tape the cartridge and probes and mark as biohazard evidence
- Assess subject for injury or condition that may need medical attention, and seek appropriate level of service
- Remove gloves and clean hands with waterless hand sanitizer
- Provide subject with written aftercare instructions
- Take full photos of suspects each time you deploy the CEW
- Take photo of injury site caused by the CEW probes
- Place cartridge with probes into Property as evidence

11. DOCUMENTATION

- a. **Within five days**, submit the required reports to Professional Standards for each drive stun or discharge, including accidental discharges:
- b. Professional Standards will forward the CEW Data Report to the departmental CEW coordinator
- c. CEW data reports are available through trained personnel
- d. **Required Reports**
 - 1) Departmental Offense Report
 - 2) Use of Force reporting in section of offense report in RMS
 - 3) CEW Data Report

L. IMPACT DEVICES

[4.1.4] [4.1.5] [4.3.1]

1. INCLUDES:

- a. **A department approved baton** or improvised device: Side handle baton or approved expandable baton, or issued crowd control straight baton
- b. **Less lethal munitions** used by designated, trained, and qualified department employees. The use of less lethal munitions would be considered reasonable in lieu of using other force options in other instances where an emergency exists.
- c. Must complete **annual retraining** to use

2. MEDICAL CARE: Take appropriate action if medical care is necessary

M. BILATERAL VASCULAR RESTRAINT

[4.1.4] [4.1.5] [4.2.1] [4.3.3]

1. **BILATERAL VASCULAR RESTRAINT:** Where pressure is applied to the sides of the neck, resulting in diminished oxygenated blood flow to the brain without compressing or restricting the airway. **Unless lethal force is justified, at no time will pressure be administered to the front of the neck or throat, resulting in a respiratory choke hold.**
 - a. This hold may be effective in establishing control of a subject who is combative, assaultive, or high risk (experiencing an agitated chaotic event by exhibiting behavioral cues associated with excited delirium)
 - b. The purpose is to gain quick and safe control of a subject who is aggressive, physically threatening, or violent
2. **USE THE BILATERAL VASCULAR RESTRAINT** in situations of **aggression or aggravated aggression** on the part of the subject (i.e., it is reasonable to believe it appears necessary to prevent injury or death to an officer or other person(s))
3. **AVOID KNOWINGLY APPLYING OR ATTEMPTING** to apply the hold on the same subject more than twice in any 24-hour period
4. **TRAINING:** Must successfully complete an eight-hour department approved training course on the use of the hold and the department use of force policy. After initial training, recertification training must be completed **annually**.
5. **IF APPLICATION OF THE HOLD APPEARS REASONABLE** based on the totality of the circumstances:
 - a. Attempt to apply the hold from a ground position to reduce the risk of secondary injuries to the officer and subject
 - b. If time and circumstances permit, provide verbal commands and direction during the application of the hold in an effort to obtain voluntary compliance prior to rendering any person unconscious
 - c. Continually monitor the correct positioning and placement of the hold on the subject's neck to prevent respiratory obstruction or serious injury. If improper positioning is identified, immediately obtain the correct position or discontinue the hold.
 - d. If the hold has not achieved the desired effect within approximately 30 seconds, release bilateral pressure and either disengage from the bilateral vascular restraint, reassess placement and tactically reposition, or transition to another reasonable force option
6. **THE OFFICER SHALL ENSURE THE FOLLOWING STEPS OCCUR after any application or attempted application** of the bilateral vascular restraint:

Figure 4. **Bilateral Vascular Restraint Aftercare**

- Immediately handcuff the subject
- Roll the subject onto his side, check vital signs (pulse, open airway) and once consciousness is regained, assess the subject for a reasonable level of cognitive function
- Subject will be promptly examined by paramedics at the scene prior to transport regardless if subject was rendered unconscious
- Notify a supervisor for the use or attempted use of the hold
- Transport the subject to a medical facility for examination, treatment, and observation by a physician within a reasonable period of time, not to exceed one hour
- Obtain a physician's release prior to booking or other disposition
- Maintain visual monitoring of the subject for signs of medical distress for a minimum of two hours after application of the hold
- Inform any person receiving custody, or any person placed in a position of providing care, that the individual has been subjected to the hold. Include the time of application and any pertinent medical information.
- Thoroughly document and justify in the incident report the use or attempted use of the bilateral vascular restraint
- **If in cardiac or respiratory arrest**, remove the handcuffs, summon paramedics, and immediately begin CPR

N. PREVENTING THE SWALLOWING OF SUBSTANCES

When a subject attempts to swallow suspected illegal drugs and/or evidence, officers will not use any force other than standard control holds, pressure points, and pain compliance techniques targeting nerve bundles and soft muscle tissue, to prevent the swallowing of evidence

1. **DO NOT USE HARD EMPTY HAND** strikes to the head and face or the bilateral vascular restraint in this situation unless other exigent circumstances exist
2. **KEEP EXTREMITIES AWAY FROM THE SUBJECT'S MOUTH:** Be aware of the danger of being bitten and exposed to bodily fluids
3. **SUMMON MEDICAL ASSISTANCE** immediately if the substance is swallowed. The subject will be transported to a medical facility for evaluation. Closely monitor the subject for any signs of a medical emergency or choking and take the appropriate action.

O. USE OF FIREARMS

[4.1.2] [4.1.3] [4.1.5]

1. **FIREARM:** Any loaded or unloaded handgun, pistol, revolver, rifle, shotgun, or other weapon which is designed to expel a lethal projectile by the action of expanding gases (except that it does not include a firearm in permanently inoperable condition)
2. **AUTHORITY:** Only discharge firearms in the performance of police duty and under the following circumstances:
 - a. **Range:** At an approved range during a training exercise
 - b. **Animals:** When destroying seriously wounded or dangerous animals where other disposition is impractical
 - c. **Less lethal systems:** When practical, by authorized personnel only

- d. **Defense of life:** When the officer reasonably believes it is necessary to defend himself or another person from what the officer reasonably believes to be the use of, or imminent use of, deadly physical force
 - e. **Felons:** To affect the arrest or prevent the escape from custody of a person who the officer reasonably believes has committed a felony involving the use or threatened use of deadly force **and** if there is an imminent and great risk that person will cause death or serious injury if apprehension is delayed. *Tennessee v. Garner, US Sup. Ct.*
3. **DO NOT:**
- a. Unnecessarily draw, display, or carelessly handle a firearm at any time. Exhibiting a firearm requires circumstances in which a reasonable belief exists that the use of the firearm may be imminent.
 - b. Fire warning shots at any time
 - c. Fire at or from a moving vehicle except when necessary for self-defense or in defense of another person's life and all other reasonable means have been exhausted against the suspect's use of deadly force
 - d. Use a firearm when it creates substantial risk to innocent persons, unless it can be justified under the circumstances
4. **MEDICAL AID CONSIDERATIONS**
- a. Call paramedics to the scene for any injury
 - b. Request paramedics to respond to a secure area near the location when there is a high potential for the use of lethal force

Order

E-01 USE OF FORCE

Subject

400 Reporting and Review

Effective

09/22/23

Low Frequency/High Severity

Summary:

This policy directs the reporting and review of use of force incidents, in-custody deaths, and uses of force resulting in serious injury or death by a department employee. Accidental and unintentional discharges of firearms not involving, related to, or stemming from a use of force incident will be reviewed by Professional Standards Section, not the Use of Force Board.

A. POLICY

1. **INVESTIGATE ALL USES OF FORCE** following guidelines in General Order E-01.300
2. **VIOLATIONS** of these policies only form the basis for departmental administrative sanctions. Violations of law form the basis for civil and criminal sanctions in a recognized judicial setting.
3. **IN ANY ANALYSIS OF A USE OF FORCE INCIDENT**, consideration must be made for the fact that officers are often forced to make split-second judgments in circumstances that are tense, uncertain, and rapidly evolving about the amount of force necessary in a particular situation. *Graham v Connor, U.S. Sup. Ct.*
4. **THE WATCH COMMANDER** will make all administrative notifications normally required for a shooting or deadly force incident

B. DEFINITIONS

1. **ACCIDENTAL DISCHARGE** – The weapon fires solely as a result of mechanical malfunction, such as a weapon firing when dropped, or outside forces cause the discharge, such as a holster strap entering the trigger guard while holstering
2. **INTENTIONAL DISCHARGE** – The officer desires to fire the weapon and consciously performs all the elements necessary to complete the act (loads the weapon, looks at the sights, presses the trigger, and fires the weapon)
3. **INVOLVED EMPLOYEE** – The officer or employee whose actions are under review
4. **REPORTABLE USE OF FORCE** – A use of force incident involving use or deployment of:
 - a. Chemical Agent, OC, Food Grade Irritant
 - b. CEW (Taser®) (drive stun mode, probes deployed)
 - c. Empty Hand Techniques (elbow, palm, impact push, knee strikes or punches)
 - d. Impact Device (straight, expandable, and side handle batons, flashlights)
 - e. Less Lethal Devices (Impact Munitions, Gas Munitions, High Pressure Air System)
 - f. Police K-9 Utilization
 - g. Bilateral Vascular Restraint
 - h. Lethal Force (discharge of firearms)
 - i. Any use of force resulting in injury or complaint of injury

5. UNINTENTIONAL DISCHARGE

- a. **Voluntary:** The shooter performs all the elements to fire the weapon without intending to do so. Unintentional voluntary discharges are not justified.
- b. **Involuntary:** A sympathetic response, also known as inter-limb interaction, which is outside the realm of conscious intention. A startle reaction such that when startled, the body tenses, or balance disruption, where the body tenses, resulting in the weapon firing. Unintentional involuntary discharges are not justified.

C. REQUIRED REPORTING / CHAIN OF COMMAND REVIEW

THE INVOLVED EMPLOYEE WILL COMPLETE the Use of Force section in the offense report in RMS within five days when an incident involves a reportable use of force. Professional Standards Section detective:

1. Is notified through RMS

3. Requests the employee's chain of command to review the incident

4. **BOARD INQUIRIES DURING DELIBERATIONS:**
 - a. **Standard UFRB:**
 - 1) If the Board Standard UFRB determines during review and deliberations and prior to making a finding that additional information is needed to make an informed decision, the Board may make verbal or written inquiries of department members of the involved officer(s). 7. **TRAINING NEEDS/OTHER RECOMMENDATIONS:** In addition to findings, the Board may make a recommendation that the incident warrants training, either for the officer(s) involved, or the department as a whole. The recommendation does not require a finding that the officer(s) actions were not justified or out of policy and do not constitute discipline. The recommendation will be forwarded to the training sergeant who will prepare a written report and send it to the PSS Commander or designee.
- The Board may also make other recommendations it deems appropriate. Such recommendations are advisory only, and do not bind the Chief of Police who has discretion to follow or decline Board recommendations.

A. POLICY

 - Members of the Firearms Training Unit
 - The Assistant Chief, the Commander, and the Lieutenant overseeing Training

 - e. **ATTEND A 16-HOUR FIREARM TRANSITION** class if the weapon has differences in manual operation compared to a Glock (e.g., safeties, decocking levers, etc.)
 - f. **UNDERSTAND IF THE WEAPON** is deemed unfit for service due to damage, breakage, failure to have the required inspection, or seized as evidence in an officer-involved shooting, the department will issue a department-owned Glock firearm for the officer to use until the officer's weapon is returned to the officer and is deemed fit for duty by the FTU supervisor.

E-03 VEHICLE OPERATIONS

Subject

**100 Emergency Driving
(CODE 3)**

Effective

07/10/15

Low Frequency/High Severity

A. POLICY

[41.2.1]

During emergency driving conditions, officers will comply with the provisions of ARS 28-624 and **must not create a greater hazard to public safety than might reasonably be created by the emergency to which the officer is responding**. Officers must drive with due regard for the safety of all persons. These provisions do not protect the driver from the consequences of disregard for the safety of others.

B. PHILOSOPHY

[41.2.1]

The Police Department's primary concern in emergency situations is the protection of lives and the safety of all citizens and officers. This policy is designed to assist the officer in reaching the scene of an emergency safely with the least possible delay.

C. DEFINITIONS

[41.2.1]

1. **AUTHORIZED EMERGENCY VEHICLE:** Defined in ARS 28-624 as a vehicle driven in response to an emergency call, in pursuit of an actual or suspected violator of law, or in response to (but not on return from) a fire alarm. The vehicle must have at least one lighted red or red and blue lamp and have an audible siren.
2. **EMERGENCY DRIVING (Code 3):** The operation of an authorized emergency police motor vehicle with identifying markings, operating flashing, rotating, or strobe lights, and a siren by a police officer. The following conditions must exist simultaneously:
 - a. The vehicle is responding to an emergency or priority call or in immediate pursuit of an actual or suspected violator following pursuit guidelines
 - b. The officer uses the siren and emergency lights
Exception: Lights only may be used in responding to certain criminal calls to avoid alerting suspects. However, the use of emergency lights only does not exempt the driver from the provisions of the Traffic Code.
3. **WRONG WAY DRIVING:** The act of driving a motor vehicle against the direction of traffic on either a one or two-way road

D. DECISION GUIDELINES

[1.2.71]

USE IS DISCRETIONARY with officer in accordance with department policy

1. **OFFICERS MAY RESPOND CODE 3** to calls when:
 - a. Communications or a responding officer has determined a situation to be an emergency or high priority call requiring immediate response or in immediate pursuit of a violator as defined in [GO E-03.200 Pursuits](#)
 - b. Traffic conditions require emergency driving to allow the officer to respond to a high priority call for service in a timely manner
 - c. The call information supports the probable need to provide first aid, CPR, or other lifesaving practices, including police intervention on arrival to the scene **when** a delay in arrival may result in serious injury or the loss of life
2. **CONSIDER** traffic volume, time of day, type of crime in progress, weather and road conditions, etc., and potential hazard or liability. You must arrive at the scene safely to be of assistance.
3. **OFFICERS SHALL NOT** respond code 3 to motor vehicle accidents unless the call information supports the probable need to provide lifesaving practices as outlined in section D1c above
4. **IF A CALL DOES NECESSITATE** a code 3 response:
 - a. **Drivers of police transport vans** or other police vehicles not equipped with identifying decals, emergency lights, and a siren **will not** engage in emergency or pursuit driving
 - b. **Motorcycle units** will respond Code 3 only to a "999" or pursuit situation because of the danger involved

E. EMERGENCY DRIVING REGULATIONS

1. **OFFICERS MAY, with due regard** for the safety of all persons considered and in accordance with General Order E-3.100.D.1.c:
 - a. **Proceed past a red or stop signal or stop sign**, but only after stopping to ensure safe operation through the intersection
 - b. **Exceed the prima facie speed limits** as long as life or property is not endangered
 - c. **Disregard regulations governing direction** of movement or turning in specified directions as long as life or property is not endangered
 - d. **Park or stand** without regard to the provisions of ARS Title 28
2. **ENSURE THAT THE DISPATCHERS CAN UNDERSTAND** your radio transmissions if driving Code 3, e.g., consider rolling windows up

F. ROUTINE TRAFFIC ENFORCEMENT

APPREHENDING routine traffic violators **IS NOT** "emergency driving"

1. Make reasonable efforts to apprehend routine traffic violators
2. May exceed the posted speed limit to clock a vehicle
3. May disregard other traffic laws, e.g., red light, when it can be done safely
4. May activate emergency lights and siren to signal the suspect driver to yield to the officer when attempting to stop motor vehicles to investigate possible traffic or criminal violations

New

G. WRONG WAY DRIVER

Wrong-way driver: The operator of a motor vehicle driving in the opposite direction of vehicles lawfully traveling on a roadway

1. **RESPOND IN ACCORDANCE WITH TRAFFIC LAWS** and department policy regarding vehicle operations and/or pursuits upon notification of a wrong way driver
2. **RESPONDING OFFICERS ARE PROHIBITED** from driving left of center, or in the opposing direction of any divided roadway. *This prohibition does not prevent an officer from driving left of center, at slow speeds and for a short duration, to box in a vehicle that is stopped in the roadway to prevent the driver from moving the vehicle.*
3. On either the highway or within city limits, **attempt to parallel** the wrong way vehicle with emergency equipment activated to warn oncoming traffic and gain the attention of the wrong way driver
4. **IF UNSUCCESSFUL, PASS THE WRONG WAY VEHICLE** to stop oncoming traffic at the next controlled intersection or the on-ramp to the freeway
5. **SUPERVISOR RESPONSIBILITY:** Monitor radio traffic, direct responding officers to block access to highway on-ramps or stop traffic at controlled intersections

	Subject	200 Pursuits	Effective 07/24/24

Low Frequency/High Severity

A. POLICY

[41.2.2]

A pursuit is justified only when the necessity of immediate apprehension outweighs the level of danger created by the pursuit. The purpose of this policy is to establish guidelines for making decisions with regard to vehicular pursuit.

B. DEFINITIONS

1. **HAZARDOUS CONDUCT OR DRIVING:** Hazardous conduct or driving exists when an officer makes a good faith determination that a driver poses an imminent danger of serious physical injury or death to others, and the suspect must be stopped to prevent such injury or death
2. **POLICE INTERVENTION:** For the purposes of this General Order only, police intervention occurs when an officer attempts to stop a vehicle to investigate a possible traffic or criminal violation by activating emergency lights to signal the suspect driver to yield to the officer. Police intervention is short term in nature and ends when the driver yields, fails to yield, flees, or actively attempts to elude to avoid apprehension.
3. **BLOCKING:** A technique used by police officers in either a marked or unmarked police vehicle, intended to control a vehicle that is stopped, to avoid a potential accident, or other reasonably foreseeable danger to the public. Blocking is not the same as the criminal apprehension tactic referenced in D-19.100.F. Vehicle Containment.
4. **VEHICULAR PURSUIT:** An active attempt by a law enforcement officer in an authorized emergency vehicle to apprehend a fleeing suspect in a vehicle who, based on the totality of the circumstances, a reasonable officer would believe is fleeing or actively attempting to elude police to avoid apprehension. Articulate observations may include the time taken for the suspect to respond to emergency lights and siren, an increase in speed, changes in direction, passing acceptable locations for a traffic stop, driving around emergency vehicles, or other behavior that constitutes reckless driving.
5. **AUTHORIZED EMERGENCY VEHICLE:** An agency vehicle equipped with operable emergency equipment as designated by state law

C. DECISION TO PURSUE

[41.2.2]T

To minimize the possibility of an officer's actions being the source or cause of the suspect's reckless or hazardous driving behavior, officers may consider initiating or engaging in a pursuit when the person being pursued is suspected of **committing a violent felony**. Pursuits for **traffic violations, stolen vehicles, and non-violent felonies are prohibited**.

D. CONSIDERATIONS

[41.2.1]

CONTINUALLY EVALUATE THE FOLLOWING DURING A PURSUIT:

1. Compliance with the provisions of ARS Title 28-624
2. Seriousness of offense
3. Volume of vehicular traffic
4. Location of pursuit, e.g., residential, school zones
5. Weather, road, and environmental conditions
6. Volume of pedestrian traffic
7. Control of vehicle: must be in complete control of vehicle at all times
8. Whether the identity of the driver is known (lessens the need for immediate apprehension)
9. Provisions of the State Criminal Code, Title 13 (**pursuit driving does not offer immunity**)
10. The safety of all persons involved (does the pursuit create a greater hazard than previously existed)
11. Whether immediate apprehension of the suspect outweighs the level of danger created by the pursuit
12. The effect of your presence on the suspect

E. SUPERVISORS

1. **CONTROL PURSUIT** by monitoring it and taking the necessary action to comply with this policy
2. **NOTIFY DISPATCH** via radio you are controlling the pursuit
3. **IF THE PRIMARY UNIT** has not declared a pursuit, but their actions are indicative of being in a pursuit, ask the officer his intention and clarify if a pursuit is happening
4. **DETERMINE APPROPRIATENESS** of response based on the circumstances
5. **PROMPT INVOLVED OFFICERS** for additional information as necessary
6. **IF PRIMARY UNIT INITIATING** a pursuit is a supervisor, another supervisor will announce as controlling supervisor. The supervisor initiating a pursuit will turn the pursuit over to a non-supervisor patrol unit as soon as possible.
7. **SUBMIT PURSUIT REVIEW** paperwork to Professional Standards Section (PSS)

F. UNINVOLVED SUPERVISORS

Uninvolved supervisors monitoring the pursuit, by the authority of rank, take on the burden of intervening should they determine based on the information they have at the time the pursuit is unreasonable or out of policy and are required to intervene and terminate the pursuit if the controlling supervisor fails to do so

G. COMMUNICATIONS

[41.2.1] [41.2.2]

DISPATCHER RESPONSIBILITIES

1. Clear the radio frequency for a pursuing unit
2. Re-dispatch initial information, broadcasting emergency traffic
3. Dispatch a backup unit and provide further information upon request
4. Immediately inform the appropriate field supervisor of the pursuit
5. Notify other agencies and specify whether assistance is or is not requested by the pursuing unit
6. Initiate an offense report for documentation on initiation of pursuit

H. TERMINATION

[41.2.1] [41.2.2]

CONSIDER THE EFFECT OF YOUR PRESENCE ON THE SUSPECT:

1. **AN OFFICER OR SUPERVISOR WILL NOT BE CRITICIZED** or disciplined for terminating a pursuit under the provisions of this section
2. **UPON THE DECISION OR ORDER** to terminate a pursuit, all involved units will:
 - a. Immediately slow down to normal driving speeds
 - b. Deactivate all emergency equipment, and
 - c. Cease following the suspect vehicle, either through stopping their vehicle or changing direction
3. **TERMINATE** a pursuit under the following conditions:
 - a. A sworn supervisor orders it
 - b. Air support becomes available. Follow the suspect vehicle according to air support instructions out of sight of the suspect vehicle.
 - c. Distance from the suspect vehicle is such that continued pursuit would require exceptional speeds causing the officer and the public serious danger
 - d. Loss of visual contact for a period of time (approximately 15 seconds). Continue search at a safe operating speed.
 - e. When there is a clear and unreasonable hazard to the officer, fleeing suspect, and/or other persons, e.g., speeds dangerously exceed the normal flow of traffic, or vehicular or pedestrian traffic necessitates erratic maneuvering which exceeds the performance capabilities of the vehicles or the drivers
 - f. Adverse traffic and weather conditions: a supervisor may order the pursuit to continue if the suspect(s) poses a more serious threat than the adverse conditions, e.g., homicide suspect, habitual sexual assault suspect
 - g. Vehicle has equipment failure involving the vehicle's emergency lights, siren, radio, brakes, steering, or other essential mechanical equipment
 - h. Suspect's identity is determined and immediate apprehension is not necessary to protect the public or officers and apprehension at a later date is feasible
4. **PURSUIT RE-INITIATION:** Do not re-initiate a pursuit unless there is a significant improvement or change in the factor(s) that caused the original decision to terminate

I. ALTERNATIVES TO PURSUIT

When circumstances of an incident do not justify a pursuit, officers may choose an alternative course of action that may include, but is not limited to:

1. **UTILIZE INVESTIGATIVE ATTEMPTS** to apprehend the suspect, such as stakeouts, investigation, air surveillance, unmarked units, contacting known associates, etc.
2. **UTILIZE POLICE VEHICLES** to block an offender's vehicle during an incident in which there is reasonable suspicion or probable cause to believe a crime has occurred or is about to occur. For example, an unconscious driver at a stop light
3. **USE THE RADIO TO NOTIFY OTHER OFFICERS** or agencies of the suspect vehicle description and direction of travel
4. **REQUEST ASSISTANCE FROM** unmarked, law enforcement vehicles to conduct a moving surveillance of the suspect vehicle
5. **USE OF THE GRAPPLER POLICE BUMPER** may be utilized as a tool to prevent pursuits from occurring or as an intervention tool to end a pursuit. An officer certified in the use of the Grappler Police Bumper may deploy the system when there is a tactical advantage to do so and having considered such aspects as severity of the

New

crime, present and potential risk to the public, officers or offenders, prior or reasonable likelihood of flight or need for apprehension or intervention.

J. UNIT RESPONSIBILITIES

[41.2.2]

Figure 1. Pursuit Vehicles Responsibilities

UNIT	ACTION
<p>1. Primary Marked (First) Unit</p>	<p>a. Will activate unit's emergency lights and siren and will notify Communications of the pursuit including the following details: 1) Declaration of and reason for pursuit 2) Suspect vehicle description 3) Direction of travel 4) Speed and suspect driving behavior 5) Traffic conditions 6) Number of occupants and descriptions if possible b. Should broadcast special information, such as hazards to officers, e.g., traffic conditions, hazards, etc.</p>
<p>2. Backup Marked (Second) Unit</p>	<p>a. Activate vehicle's emergency lights and siren b. Advise Communications of backup unit status c. Follow the primary vehicle at a safe distance, but remain close enough to assume communications responsibilities from the primary unit if possible</p>
<p>3. Unmarked Units</p>	<p>Vehicles not equipped with identifying markings, emergency lights, and a siren are prohibited from becoming involved in a pursuit in any capacity Exception: Unmarked vehicles equipped with emergency lights and sirens may pursue when directly related to a serious felony. The pursuit will be turned over to a fully marked police vehicle as soon as possible. An unmarked vehicle equipped with the Grappler Police Bumper may remain engaged in a pursuit to initiate intervention.</p>
<p>4. Unit With Non-police Passengers</p>	<p>Police Units containing non-police passengers such as Cadets, witnesses, citizen observers or prisoners are prohibited from initiating or becoming involved in pursuits unless an immediate and articulable threat to human life exists</p>
<p>5. Motorcycle Units</p>	<p>a. May only become involved in a pursuit as a primary unit when they initiate the pursuit b. Will turn the pursuit over to a marked unit as soon as possible</p>
<p>New 6. Grappler Equipped Vehicle</p>	<p>a. Only officers who have received department approved training in the use of the Grappler Police Bumper are authorized to deploy the device b. Use of the grappler police bumper device requires the approval of the supervisor controlling the incident c. The availability of the grappler police bumper does not supersede any considerations related to terminating a pursuit</p>

K. RESTRICTIONS

[41.2.2, 41.2.3]

Figure 2. Other Pursuit Restrictions

Category	Restrictions
1. Number of Pursuit Vehicles	a. Only two police units will become actively involved in a pursuit unless authorized by a supervisor based on other articulated circumstances supporting the inclusion of additional units in the pursuit b. Other officers should be alert to the progress and location of the pursuit, cover escape routes in beats, and attempt to stop endangered cross traffic at major intersections
2. Emergency Lights and Siren	USE EMERGENCY LIGHTS AND SIREN AT ALL TIMES DURING A PURSUIT , unless instructed by a patrol supervisor to use the siren intermittently to aid in radio communication
3. Overtaking Suspects	a. Do not attempt to overtake, pass, or "box in" a fleeing suspect vehicle, placing yourself in a highly vulnerable position unless the actions of the suspect driver present an immediate threat to human life b. Maintain a safe distance from suspect vehicle and other police vehicles while keeping the suspect vehicle in sight until the suspect voluntarily stops to avoid collisions
4. Firearms	DO NOT SHOOT FROM OR AT A MOVING VEHICLE except when necessary in self-defense or in defense of another person's life when all other reasonable means have failed, and then only when the use of the officer's firearm creates no substantial risk to innocent persons
5. Pursuit Considerations (41.2.3)	a. Any actions during a pursuit shall meet the criteria prescribed in this order regarding the Decision to Pursue and be done so in an attempt to mitigate any potential hazards to the public, the officers and the occupants of the pursued vehicle. Additionally, other resources, such as air support, known intelligence, undercover units, etc. will be considered. b. Any use of force that may apply in a pursuit situation is subject to the same review as any uses of force pursuant to review under E-01.100
6. Boxing in	May use unmarked units to box in an unaware suspect in order to avoid a pursuit
7. Paralleling	Officers will not normally follow the pursuit at high speeds on parallel streets unless authorized by a supervisor or when it is possible to conduct such an operation without unreasonable hazard to other vehicular and pedestrian traffic
8. Pursuing Left of Center	Officers are prohibited from continually driving left of center or in the opposing direction of travel on any divided highway. This prohibition does not prevent an officer from driving left of center, at slow speeds and for a short duration to: a. Box in a stopped vehicle in the roadway to prevent the driver from moving the vehicle b. Pass stopped traffic if conditions authorizing emergency driving are present

L. PORTABLE DISABLING DEVICES

[41.2.3]

Figure 3. **Portable Disabling Devices Guidelines**

Topic	Guidelines
1. Definition	A portable device designed to disable vehicles, including Stop Sticks
2. Authorized Use	a. In pursuit situations as outlined in this order b. When there is definite knowledge that the fleeing person is suspected of a felony c. When the violator constitutes an immediate and continuing hazard d. In any criminal manner where a car is stationary, but it is anticipated that the operator may attempt to flee e. To prevent the removal of a vehicle believed to be evidence f. DO NOT USE Stop Sticks for stopping motorcycles g. Police Intervention is required prior to deploying Stop Sticks
3. Authority to Use	a. All marked Field Operations vehicles may contain Stop Sticks b. Personnel issued Stop Sticks and trained in their use c. Stop Sticks may be deployed to stop vehicles refusing to yield. The deployment of Stop Sticks does not authorize a pursuit of the suspect vehicle.
4. Safety	a. Whenever possible, prevent on-coming vehicular traffic from entering the area b. When selecting a deployment location for the device, consider the safety of the public, officers, and suspect c. Place the department vehicle out of the path of the approaching suspect vehicle where it can be used to enhance protection from the suspect vehicle
5. Deployment	a. The deploying officer will notify communications of the deployment location so communications can notify other units of the location b. Deploy on hard surface c. Stop Sticks may be connected or disconnected when in use d. Ensure deployment location is clearly visible to all traffic affected by it e. Use caution when deploying Stop Sticks f. Officers will document use in an incident report and forward to PSS for administrative review

M. THE GRAPPLER POLICE BUMPER

1. **DEPLOYMENT:** The decision to deploy the grappler police bumper is decided by the certified operator based on considerations such as severity of the crime, present and potential risk to the public, officer or offender
2. **TACTICAL CONSIDERATIONS:** The use of the grappler is a high risk stop event so consider:
 - a. Speed and actions of the target vehicle. At any moment the suspect can abruptly swerve, stop or otherwise maneuver their vehicle in an unexpected manner while attempting to avoid the device.
 - b. Traffic conditions
 - c. Communication with assisting personnel
 - 1) An officer deploying the Grappler shall announce they are deploying the unit and whether or not it's successful
 - 2) Support personnel must be present and close enough to be an effective asset post interdiction

- 3) The officer deploying the Grappler will stay inside the vehicle to maintain positive control over the offender vehicle
- 4) Assisting officers will take flanking positions around the Grappler vehicle during a high risk stop

May assist with traffic control and associated high risk stops d. If a collision occurs in Chandler's jurisdiction as a result of another agency's pursuit, Chandler may conduct the collision investigation

TUBERCULOSIS EXPOSURE GUIDELINE PART I *

Person with Suspect * Active TB Disease

*2 or more symptoms (cough more than 3 weeks, loss of appetite, weight loss, fatigue, fever, night sweats, chills,) person reports a positive TB skin test, chest x-ray changes, or treatment for active disease.

The following situations increase risk of exposure to TB: incarceration, homeless shelter, IV drug user, foreign born, migrant farm worker, inmate, some nursing homes, and living with someone who has active TB disease.

If you suspect active TB disease:

Place a surgical mask or disposable respirator over the nose and mouth of TB suspect person until TB can be ruled out.

1. Notify the on-call legal advisor and the Banner Occupational Health, Post Exposure Prevention (PEP) line 602-747-8364 and CorVel 877-764-3574. .
2. Make a list of all employees, volunteers, and others who were in the same air space as the suspect person. Note those with face-to-face or confined area contact* (small room, automobile) with the person.

TB ruled out?

YES

STOP
No further action needed

NO

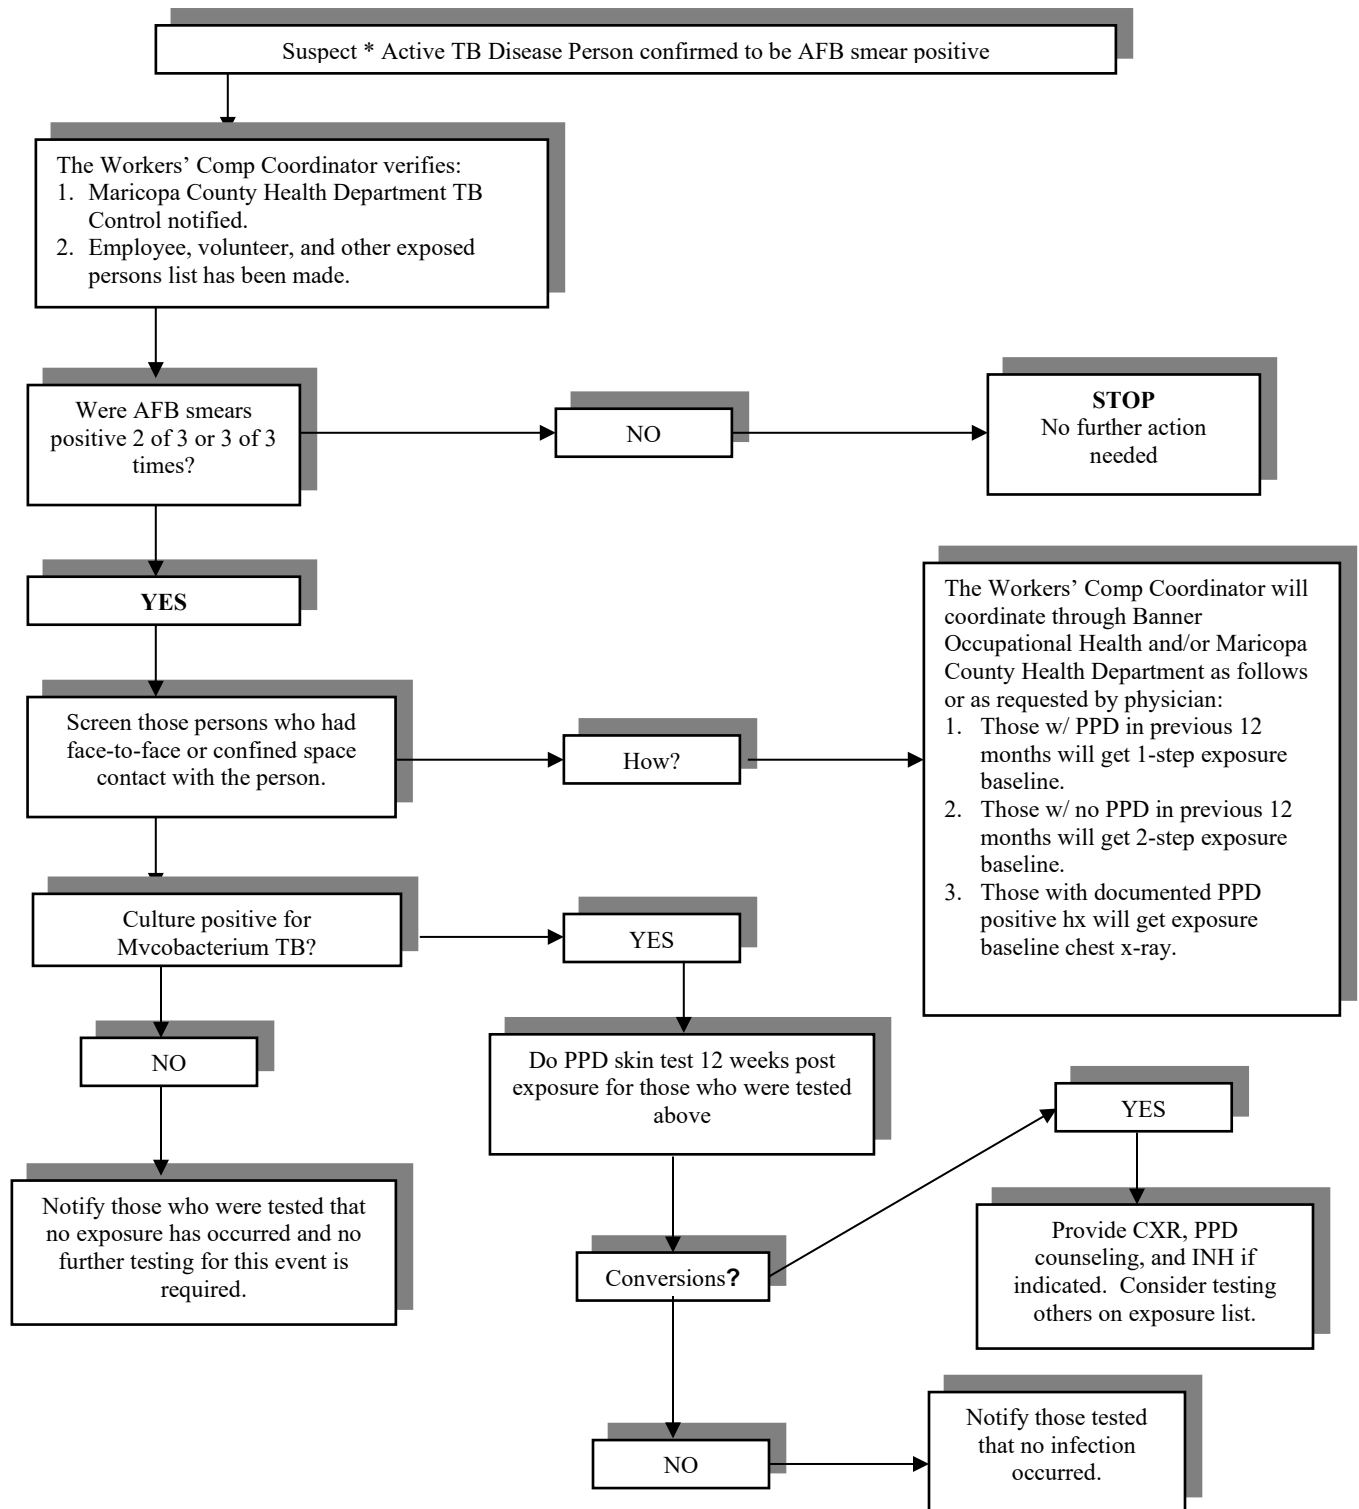

AFB Smear Positive?

YES

Refer to Post-Exposure Action Plan

* It is recommended that persons with face-to-face confined area contact with TB suspect person wear a N-95 disposable respirator

TUBERCULOSIS POST-EXPOSURE GUIDELINE PART II
TUBERCULOSIS FACTS
Exposure to TB/The TB Skin Test

WHAT IS TB?

“TB” is short for a disease called tuberculosis. TB is spread by tiny germs that can float in the air. The TB germs may spray into the air if a person with **TB disease** of the lungs or throat coughs, shouts, or sneezes. Anyone nearby can breathe TB germs into their lungs.

TB germs can live in your body without making you sick. This is called **TB Infection**. Your immune system traps TB germs with special germ fighters. Your germ fighters keep TB germs from making you sick.

But sometimes, the TB germs can break away and multiply. Then they cause **TB Disease**. The germs can attack the lungs or other parts of the body. They can go to the kidneys, brain, or spine. If people have **TB Disease**, they need medical help.

HOW WAS I EXPOSED TO TB?

You may have been exposed to TB if you spent time in close contact with someone with **TB disease** of the lungs or throat. You can only get infected by breathing in TB germs that person coughs into the air. You cannot get TB from someone’s clothes, drinking glass, handshake, or toilet.

HOW DO I KNOW IF I HAVE TB INFECTION?

If you have been exposed to TB germs, you will be given a TB skin test. If it is “positive,” you probably have **TB Infection**. If it is “negative”, you may be retested in a few weeks, just to be sure. If you do have **TB Infection**, you may need medication.

A skin test is the only way to tell if you have **TB Infection**. This test is usually done on the arm. A small needle is used to put some testing material, called tuberculin, under the skin. In two or three days, a health worker will check to see if there is a reaction to the test. The test is “positive” if a bump about the size of a pencil eraser or bigger appears on your arm. This bump means you probably have **TB Infection**. If you have **TB Infection**, there is only a 5-10 percent lifetime risk of developing **TB Disease**. If preventive medication is given, this decreases your lifetime risk of developing active **TB Disease** to less than 1 percent.

NOTE: IF YOU HAVE EVER HAD A “POSITIVE” REACTION TO A TB SKIN TEST OR IF YOU HAVE BEEN TREATED WITH TB DRUGS IN THE PAST, PLEASE TELL THE HEALTH WORKER BEFORE THE TB SKIN TEST IS DONE.

Order	E-06 COMMUNICATIONS	
Subject	500 System Failure Procedures	Effective 12/10/21

A. CONSOLE FAILURE IN COMMUNICATIONS

1. **PORTABLE AND VEHICLE RADIOS** will still have communications with one another.
2. **CONSOLE FAILURE IS INDICATED BY A RED “X” ON THE RESOURCES.** Dispatchers will immediately activate portable radios provided at each console position. All patches and multi selects are inactive while consoles are down e.g., monitor INFO channels on separate portables for each channel.
3. **LONG TERM OUTAGE.** Dispatchers will switch to “BACKUP” tab and use **control stations:**
 - a. Standard patrol channels are available on a minimum four and up to six (depending on the failure point) backup control stations
 - b. Utilize the dropdown on each control station console resource to select channel to be used
 - c. Dispatch supervisor has the discretion to assign channels to be used per control station and console
 - d. Note when using control stations there is delay between keying up and the dispatcher speaking, a tone in the headset will notify that the channel is ready to transmit after pressing the push to talk
4. **ONLY FOUR TO SIX CONSOLE CHANNELS ARE OPERATIONAL** when using control stations. Portables may be used for additional channels. When using portables there is a delay between keying up and the dispatcher speaking, a tone on the radio will notify that the channel is ready to transmit after pressing the push to talk

B. COMPLETE SYSTEM FAILURE

1. **IF A COMPLETE SYSTEM FAILURE OCCURS**, only three channels are available. Dispatchers at PATA, PATBC, and INFO will switch to BACKUP tab and select:
 - a. PATA – Select BACKUP A on the CPD BU01 dropdown
 - b. PATBC – Select BACKUP B on the CPD BU02 dropdown
 - c. INFO, HOT, or dispatch supervisor discretion – Select BACKUP C on the CPD BU03 dropdown
 - d. The BACKUP A, B, and C channels are NOT encrypted; all traffic will be in the clear
 - e. Note backup channels have limited coverage inside buildings and emergency buttons on radios will not be functional
2. **SEND CAD MESSAGE TO ALL UNITS** “We are switching to the backup radio system. All units switch radios to M Deck – Muni/Backup. Patrol A units operate on Channel M01 BACKUP A, Patrol B units operate on M03 BACKUP B, M05 BACKUP C will be used for INFO or HOT traffic as advised. Be aware these channels have limited inside building coverage and no emergency button capability.”

3. **IF STILL UNABLE** to establish communications, go to a police substation or the **temporary police field substations** located at City fire stations or Chandler Regional Hospital Emergency Room to establish contact and receive further instructions and assignments. Communications will be restricted to:
 - a. Dispatched calls for service
 - b. Code 20 checks, and
 - c. Emergency situations

Order		E-06 COMMUNICATIONS
Subject	600 Interagency Communication	Effective 03/26/21

Summary: This policy addresses use of interagency radio communications.

**A. INTERAGENCY G DECK,
H DECK, and AIRS**

[46.1.3] [46.1.4] [81.2.5] [81.2.10] [81.3.4]

1. USE INTERAGENCY CHANNELS:

- a. During an operation involving multiple agencies; not for an individual agency
- b. For planned multi-agency events, immediate emergency, or tactical situations requiring interagency communication

2. FIELD PERSONNEL MUST:

- a. Coordinate access to interagency channels through Communications
- b. Advise Communications when switching to a different interagency channel
- c. Identify themselves using their unit identification preceded by "Chandler" e.g., **Chandler 1P1 to Tempe Police Department**
- d. **Use plain language** during operations and the use of 10-codes or agency specific codes or acronyms are prohibited

3. REGIONAL WIRELESS COOPERATIVE (RWC) interoperability, non-RWC cooperative network interoperability and AIRS channels are available in all Chandler radios

- a. RWC interoperability channels **can patch directly** to Chandler channels via dispatch console
 - 1) Enable both PATCH and MULTI-SELECT
 - 2) If tactically acceptable, switch directly to the RWC interoperability channel without a patch (Dispatch can monitor channels if necessary)
- b. **Patching a non-encrypted channel to an encrypted** channel will make all communication non-encrypted. Be aware communication will be "in the clear."

4. OPERATIONAL CONSIDERATIONS

- a. **G Deck provides non-encrypted** wide area coverage on the RWC network. Use when security of communication is not a concern
- b. **H and P Decks provide encrypted wide area** coverage on the RWC network. Use when secured communication is necessary.
- c. **Additional non-RWC cooperative network** interoperability channels are available when responding into the respective network jurisdictions
- d. **AIRS is a non-encrypted** secondary interagency communication not part of the RWC or non-RWC cooperative networks
 - 1) Use only when other resources are not applicable
 - 2) AIRS is managed and monitored by Mesa PD's Communications Center

- 3) AIRS 1 is the primary calling channel for Maricopa County and available on Chandler dispatch consoles

5. RWC INTEROPERABILITY DECK USAGE

- a. **PLANNED EVENT**
 - 1) Contact Communications to reserve the channels
 - 2) Communications will:
 - a) Assign the channel(s) to be used and/or coordinate with non-RWC agency cooperative networks.
 - b) Coordinate the reservation and calendaring of channel(s)
- b. **UNPLANNED EVENT**

For immediate tactical communications situations, a Chandler dispatch supervisor will activate an available RWC interoperability deck channel
- c. All RWC interoperability decks and channels are available on Chandler consoles along with the ability to patch and enable the channel repeater if necessary

6. AIRS USAGE

- a. AIRS does not have the coverage footprint or quality of communications available via RWC or non-RWC agency networks
- b. Use when a participating agency only has access to AIRS
- c. Monitored by Mesa Police Department's Communication Center

B. PUBLIC SAFETY ANSWERING POINT (PSAP) INTERAGENCY CHANNEL

PSAP CHANNEL – USE THE PSAP CHANNEL to allow dispatchers to help coordinate the response to an **emergency** and/or interoperability between PSAPs

- 1. This coordination can include managing interoperability, broadcasting critical information; providing updates, from units on their progress to the scene of an incident; and other significant events.
- 2. The PSAP CHANNEL is only available in dispatch centers
- 3. Contact Mesa PD Communications for coordination of use of AIRS channels

C. RADIO CACHE

- 1. **FIVE AGENCIES** have been designated to own, maintain, and deploy a radio cache:
 - a. Glendale Police Department (Western Valley)
 - b. Mesa Police Department (Eastern Valley)
 - c. Maricopa County Sheriff's Office (Central Valley)
 - d. Phoenix Police Department
 - e. Tempe Police Department
- 2. **THE RADIO CACHES ARE AVAILABLE** for deployment and use by participating agencies for emergency and planned events. The radio caches provide interoperable communications between agencies for on-scene incident command staff. These radios are programmed with channels/talk groups from multiple area radio systems.

E-07 DIGITAL RECORDING DEVICES

Subject

100 Procedures

Effective

11/22/23

Summary

This order addresses the use of digital devices designed to record audio and video information. Images and audio captured by digital devices are used to enhance investigations, capture evidence and provide transparency of law enforcement activities and encounters with the public. The electronic evidence aids in prosecution of criminal cases and in resolving professional standards matters, and civil lawsuits against the City of Chandler, the Department, or any of its employees. The recordings can be useful for preparing offense reports, testifying in court, protecting officers from false allegations of misconduct, and providing a source of training materials for incident debriefing or performance evaluations. Please note that all digital recordings have limitations and may not be an exact replica of the activities and nuances present in every circumstance. There are many factors to consider when reviewing and using any recording.

A. POLICY

[41.3.8]

The purpose of this order is to establish guidelines for the appropriate use of digital recorders as well as the submission, storage, retrieval, review, and deletion of digital recordings

B. DEFINITIONS

1. **APPROVED DIGITAL RECORDER:** A digital audio and/or video recording device owned and assigned by the department for use by officers to document police related incidents
2. **BODY WORN CAMERA (BWC):** An approved digital audio-video recorder worn by the officer as instructed
3. **DIGITAL RECORDER:** Unless otherwise limited by its context, digital recorder includes any digital audio and/or video recording device used by officers to document police related incidents (includes BWC)
4. **DIGITAL EVIDENCE:** Includes any and all video, audio, still images, and recordings made during the course of or in furtherance of official duties
5. **CASUAL OR INFORMAL CONTACT** – Incidental contact with a citizen outside of law enforcement activity or busy codes (Code 7, business checks, etc.)
6. **OFFICER(S)** – Includes all sworn members of the department, e.g., detectives, school resource officers (SRO), supervisory and command staff members, or any other officer assigned to a specialty position issued a BWC

C. GUIDELINES

APPLIES TO ALL DIGITAL RECORDERS used in the course of official duties, whether the device is owned by the department or privately owned

1. **APPROVED DIGITAL RECORDERS ARE ASSIGNED** by the department and maintained by the officer. Prior to each shift, officers will inspect the digital recorder for any physical damage and ensure it is in proper

working order. Report and document (GO B-18.100) any damage or malfunction. The immediate supervisor contacts the precinct admin supervisor or designee to secure a replacement or repair.

2. **USE ONLY APPROVED DIGITAL RECORDERS** assigned by the department. However, if an approved digital recorder fails or is unavailable, and the officer reasonably determines audio and/or video recording is crucial to preserving evidence, the officer may use an unapproved recording device. Such recordings are subject to the same preservation, retention and disclosure requirements as those recordings made with approved digital recorders.
3. **PROFESSIONAL STANDARDS SECTION (PSS) SUPERVISOR OR DESIGNEE** reviews quarterly a random sampling (at least 45) of the BWC recordings of various shifts during the quarter reviewed to ensure policy and procedure is being followed and documents the findings. Additional recordings may be reviewed if random sampling indicates either a department wide problem or problem with one of the officers.
4. **DURING ANY AUTHORIZED AUDIO OR VIDEO** recording, officers shall have the discretion to inform subjects when they are being recorded. The decision is based on officer safety considerations, privacy concerns, ability to investigate or obtain statements/evidence, and whether it is impractical to inform the subject.
5. **CONTINUE TO PREPARE REPORTS** in the same manner as prior to the implementation of the body worn camera system and not substitute "refer to video" for a detailed and thorough report
6. **NOTATE THE REASON** in the General Offense report any time the recording is stopped before completing the interaction or a recording was not started when one is required by policy. Make a notation in CAD when a report is not required.
7. **ALL PERSONNEL ASSIGNED A BWC** shall wear it in conjunction with working in their primary duty role or in a uniform extra duty capacity

D. BODY WORN CAMERAS (BWC)

Officers assigned and equipped with body worn cameras shall activate them as follows:

1. **MANDATORY ACTIVATION:** Unless an exception applies, officers **shall** activate their BWC:
 - a. As soon as practical upon being dispatched to any call for service
 - b. All self-initiated calls for service
 - c. Traffic stops
 - d. Subject stops
 - e. Any Code 3 or other emergency driving, e.g. vehicle pursuits, failure to yield incidents, etc.
 - f. Detention, arrest, and searching of prisoners
 - g. Use of force incidents
 - h. Vehicle containment or takedowns (See D-19.100.F)
 - i. Search warrant service (once scene is secure and rendered safe, recording becomes discretionary)
 - j. While involved in any law enforcement activity

2. **UNLESS AN EXCEPTION** or restriction applies, officers shall continue recording while actively investigating or taking enforcement action. If a break in recording occurs, document the specific reason for each of the interruptions in their General Offense Report
3. **BE COGNIZANT OF THE CAMERA'S LOCATION AND ORIENTATION**, attach the BWC to your person using an approved issued attachment mechanism
 - a. Position BWC on the body facing forward with proper orientation in manner best capturing the activity happening directly in front.
 - b. The BWC can be moved to an alternate location on the body during a specific task (e.g., while conducting a DUI investigation)
 - c. Give special consideration to placement based on type of clothing and equipment utilized so as not to hinder video and audio capture, e.g. traffic vest, jackets, masks, etc.
4. **EXCEPTIONS TO ACTIVATION** – Officers may decide not to activate a BWC in the following circumstances:
 - a. Recording is impossible, impractical, or unsafe. Officers should engage their BWC once the situation allows.
 - b. Victim/witness is concerned about retaliation for cooperating with police or refuses to make a video recorded statement
 - c. Overriding privacy concerns, such as citizen requests not to be video recorded during consensual encounters either in public or inside private residences, persons in a state of undress, etc.
 - d. With approval of a supervisor
 - e. Special consideration is given to detectives in situations when wearing a BWC is not practical
 - f. Use of BWCs by detectives assigned to federal task forces is governed by the MOU in effect at the time. If the use of BWCs are not specifically addressed in the MOU, their use will be governed by this policy or an agreement between the Office of the Chief of Police and the federal agency in question
5. **ADVISEMENTS ABOUT RECORDING**
 - a. Members of the public do not have a reasonable expectation of privacy when talking with police officers during the scope of an officer's official duties, even when the contact is in a private residence
 - b. Except for undercover investigations, if asked, officers shall advise subjects they are being recorded. Officers are not required to initiate or cease recording an event, situation, or circumstance solely at the demand of a subject.
6. **DOCK CAMERA** at the end of each shift to upload videos, charge the battery, and download firmware updates
 - a. Non-patrol positions: Upload all recordings by authorized means within 48 hours of the recording or by the end of the work week, whichever is sooner
 - b. Dock all cameras weekly (at a minimum) to receive necessary firmware updates
7. **ONLY USE YOUR ASSIGNED BWC**. Do not use reserve cameras unless authorized

E. RESTRICTIONS

The following restrictions apply to all digital recordings, audio and video

OFFICERS SHALL NOT KNOWINGLY:

1. Create video recordings in areas where a reasonable expectation of privacy exists such as locker rooms, restrooms, when sensitive medical exams are being conducted, etc., absent a compelling law enforcement interest
2. Record undercover officers or confidential informants absent a valid investigative purpose. The CI may be photographed or recorded for business/criminal justice related investigations.
3. Use an approved digital recorder to record any activities not related to official law enforcement duties
4. Upload, access, copy, or convert digital recordings for any personal use, including onto any type of personal/social media, or for anything other than legitimate law enforcement purposes
5. Make digital recordings in hospital patient care areas except when necessary for official law enforcement purposes
6. Record a minor child, unless the video or voice recording is made during or as part of a law enforcement investigation, or during or as part of a forensic interview in a criminal or child protective services investigation, or as otherwise consented to by the minor child's parent or allowed by A.R.S. Section 1-602
7. Allow citizens to review the recordings in the field unless reasonably necessary for an ongoing investigation. Citizens who want to view recordings may make a public records request. A copy may be provided in accordance with state public records laws.
8. Record city employees except when necessary in a criminal investigation, during official administrative interviews, or as approved by the Chief of Police
9. Record discussions with other officers about case tactics or strategy, either before enforcement action is taken or after the scene is stabilized
10. Record administrative functions including counseling sessions with supervisors or managers
11. Record a critical incident debriefing
12. Record daily or operational briefings
13. Record while attending or testifying during civil or criminal court proceedings or depositions
14. Record while on breaks or during personal activities

F. DATA REVIEW

1. **INVESTIGATING OFFICERS** may review all digital media captured during an incident or event:
 - a. To assist with the investigation and completion of reports
 - b. For training purposes
 - c. Before testifying

2. **OFFICERS** may only review their own recorded digital media:
 - a. Before making a statement in an Internal Affairs investigation
 - b. Before making a statement in an officer involved shooting investigation or use of force incident that resulted in serious injury or death, but only after reviewing and signing the appropriate acknowledgment form
3. **SUPERVISORS, PSS, OR COMMAND STAFF** may review digital media to review officer conduct for the purpose of an internal administrative review or investigation, or to investigate an external citizen complaint

**G. STORAGE, RETENTION, AND
RELEASE OF DIGITAL RECORDINGS**

1. **ALL DIGITAL EVIDENCE** captured during the scope of an officer's duties, whether on approved or privately owned digital recorders, is property of Chandler Police Department and subject to policies regarding review, reproduction, release, production, retention, deletion, and disposal

3. **DISSEMINATION/RELEASE OF DIGITAL RECORDINGS**
 - a. Allowed only under the following circumstances:
 - 1) For criminal justice purposes
 - 2) For training purposes only when approved by a division commander after input from the involved employee
 - 3) Pursuant to a public records request
 - 4) Pursuant to subpoena or court order
 - 5) For actual or potential civil litigation
 - 6) Others as approved by the Chief of Police
 - b. **PUBLIC RECORDS REQUESTS:** Digital evidence is subject to release pursuant to public records laws. Exemptions from disclosure are the same as for any other departmental records. The Chief of Police shall designate the person or unit responsible for reviewing the digital evidence and determining whether any portion needs to be redacted prior to release. There are a number of factors to consider when reviewing any recording, which may include limitations and/or information that impacts the content of the recording. The review of any material has variables that may not be evident in the recording. Consider the following factors:
 - 1) A camera does not follow the officer's eyes or see as they see
 - 2) There may be subtle and peripheral danger clues not recorded by a camera
 - 3) Camera speed differs from the speed of life
 - 4) Variations in lighting may impact the human eye and camera differently
 - 5) The camera may likely be blocked at times by an officer's body or other obstacle present at a scene
 - 6) A camera only records two dimensionally

- 7) There are factors relating to time stamping and delays that may impact precise timing
- 8) Cameras may only be part of the picture and may not be conclusive, and will not replace a thorough investigation
- c. **CASE SUBMITTALS WITH BWC DIGITAL EVIDENCE:** Body worn camera evidence does NOT have to be attached. Check the "Available on Request" box on the County checklist form for county submittals.
- d. **CASE SUBMITTALS WITH NON-BWC DIGITAL EVIDENCE:** The case agent and supervisor will ensure a copy of all non-BWC digital evidence is included when the case is submitted to the prosecutorial agency for review and charging

4. DIGITAL EVIDENCE STORAGE AND RETENTION

- a. All recordings will be kept in accordance with adopted retention guidelines
- b. Digital evidence will be retained and stored on the appropriate storage medium as authorized by the department
- c. If a use of force and/or vehicle pursuit is captured on a digital recording device, PSS copies the recording to portable media and makes it available for the applicable administrative review process
- d. When an incident has been recorded and an offense report is generated, the officer shall:
 - 1) Note in the first sentence of the narrative that a portion of the incident was captured by a digital recording system
 - 2) Note the recording in any police document pertaining to the incident, such as use of force or pursuit forms
 - 3) Transfer recorded data onto the appropriate storage medium
- e. Recordings captured during the scope of an officer's duties, whether on department approved or privately owned digital recorders, may be subject to release under applicable federal and state laws or pursuant to court rules
- f. **STORAGE OF BWC DIGITAL RECORDINGS:** Digital recordings automatically upload to the server when the camera is placed in the docking station. All recordings should be tagged with the following information in Evidence.com **within 48 hours of the recording** or by the end of the officer's work week, whichever is sooner
 - 1) ID NUMBER – GO number or other identifying incident number
 - 2) CATEGORY – The appropriate category type to ensure the digital recording follows established retention guidelines. Multiple categories may be added to a recording.
 - 3) TITLE – description of the incident and/or person interviewed
- g. **STORAGE OF DIGITAL AUDIO RECORDINGS:** Upload audio recordings to V:\Officer\- 1) Criminal Cases – ID Number – GO number or other identifying incident number (e.g., 18-12345 smith)
- 2) Traffic Stops – TSTOP (e.g., tstop jones)
- 3) Subject Stops – SSTOP (e.g., sstop bell 1019 N AZ)

H. DELETION/REDACTION OF BWC DIGITAL RECORDINGS

1. **DELETION OF DIGITAL RECORDINGS:** When a recording is made and has no evidentiary or administrative value, serves no legitimate governmental purpose, and does not constitute a public record (e.g., device inadvertently left on during restroom break or overnight after end of shift) it may be deleted as follows:
 - a. Members requesting a file to be deleted submit a memo of explanation to their commander
 - b. The affected commander makes a determination and forwards the memo to the Technology Manager to complete the request
 - c. The memos are retained by the affected commander
 - d. Categorize video as “non-criminal” if there is not an immediate need for deletion; will automatically purge after six months
2. **RETENTION:** Evidence.com automatically purges files based on a categories predetermined retention schedule found under “Help Articles” on PDInfo. Officers will receive notice seven days prior to any files being purged
3. **REDACTION:** If digital recordings are required to be redacted prior to release
 - a. The designated person or unit reviews the evidence and removes any portions not subject to release
 - b. If there are questions or concerns about redaction, contact the Police Legal Advisor
 - c. After review, upload the redacted copy onto the appropriate storage medium under the applicable GO or street check number and retain for future reference
 - d. The redacted version is available to the involved employee(s)

I. DELETION OF DIGITAL AUDIO RECORDINGS

Digital AUDIO recordings of incidental contacts not deemed to be evidentiary may be deleted upon completion of an officer’s report. Recordings of victim, witness, or suspect statements, or of civil traffic stops or other enforcement contact should not be deleted and should be uploaded per policy to department systems.

J. TRAINING

2. **SUSPECTED RABID ANIMAL (other than livestock):** A dispatcher will notify MCACC for pick up and/or possible quarantine of the animal. Officers should not attempt to capture the animal. If the rabid animal presents an immediate danger to any person, the animal may be destroyed.
3. **RABIES AND LIVESTOCK:** If it is suspected that livestock have been bitten by a rabid animal or if livestock displays symptoms of rabies, ask a dispatcher to notify the Arizona Department of Agriculture

5. **AHS WILL NOT RESPOND** to reports of vicious / rabid animals

F. BARKING DOG COMPLAINTS

Barking Dog Website: www.chandlerpd.com/community/barkingdog Barking Dog Hotline: 782-BARK or 782-2275

Reference: City Code 11-10.1B5 "Keeping, harboring, or having custody within the City any dog which barks, howls, or makes noises by day or night which disturbs the peace and quiet of any person or family in the neighborhood."

1. **WHERE COMPLAINANT WISHES TO BE LISTED AS A VICTIM**
 - a. The dispatcher enters the call as a call for service. Barking dog complaints are assigned as a **Priority 4 unless other circumstances exist which require a higher priority.**
 - b. Upon receiving a barking dog complaint, patrol officers::
 - 1) Check premise history to see if there have been previous contacts at the address where the barking dog lives

Summary: This policy contains policy and definitions relevant to searches.

A. POLICY

Base searches, seizures, and arrests, with or without a warrant, on probable cause based on Constitutional requirements, federal and state **statutes**, and case law

B. DEFINITIONS

Figure 1. **Definition of Terms Used in Policy**

Term	Definition
1. Area of Control	That area from which a person could secure a weapon or evidence by exerting a limited amount of effort
2. Case Agent	The detective or officer who is most involved with the case or investigation, usually from the involved unit
3. Exigent Circumstances	A set of facts allowing the officer to act without getting a warrant in order to protect a person from injury, arrest a fleeing felon, or prevent the destruction of evidence (see General Order E-09.200D for details)
4. Frisk	A search based on reasonable suspicion the person is armed and presently dangerous and that is strictly limited to the detection and/or recovery of weapons or instruments of injury and is limited in scope to feeling, seeing, touching, or making a pat down of outer clothing, containers, or areas within a person's immediate control
5. Hazardous Service	Circumstances that involve known information about the location or individuals involved that make the service of the warrant significantly more dangerous for the personnel involved
6. Open View Doctrine	A legal concept that allows an officer to develop probable cause by "seeing" an object that he is not entitled to seize even though he may lawfully be in the place that he observes the object, such as when an officer lawfully standing on a sidewalk observes a marijuana plant growing inside a house or the seeing of evidence inside of a vehicle from the outside
7. Pat Down	See frisk
8. Plain View Doctrine	The rule of law that allows an officer to seize items without a warrant when the officer knows them to be contraband or evidence as long as the items were in "plain view," the officer was lawfully in the place from which the items were viewed, and the officer can make the seizure from the area in which he is located
9. Probable Cause	Facts and/or circumstances that would lead a reasonable police officer to conclude that a crime has been or is about to be committed and that the suspect probably committed the crime or that evidence of the crime is at a specific location

Rev

New

Term	Definition
10. Protective Sweep	A quick and limited precautionary search of a premise or vehicle incident to a recent occupant's arrest when articulable facts and inferences would lead a reasonably prudent officer to believe there may be others present who could pose a danger to arresting officers
11. Search Incident to Arrest	A lawful search of arrestee's person or areas within the arrestee's reach with the goal of reducing the inherent dangers of making an arrest (e.g., threats to officer safety or loss of potential evidence). This exception to the search warrant requirement has three elements: 1) A lawful arrest was made – probable cause to make the arrest 2) The arrest was custodial – suspect arrested by handcuffing and transporting to jail or temporary detention area 3) The search was contemporaneous to arrest - done close in time, scope, and proximity to where officer arrested suspect
12. Search Warrant	An order in writing issued in the name of the State of Arizona, signed by a magistrate, directed to a peace officer, commanding him to search for personal property, persons, or items described in ARS 13-3912 (as amended)
13. Secured Location	A place of intended service that is under the control of law enforcement officers. This may be as a result of a prior call for service, assisting another agency, or due to an exigent circumstance.
14. Telephonic Search Warrant	A search warrant issued by the magistrate over the telephone as a timesaving measure
15. Unsecured Location	A place of intended service that is not under the control of law enforcement officers. Wanted suspects or other individuals may still occupy the scene.

**CHANDLER POLICE
DEPARTMENT
GENERAL ORDERS**
Serving with Courage, Pride, and Dedication

Order		E-09 SEARCHES
Subject	200 Warrantless Searches	Effective 02/29/24

High Frequency/High Severity

Summary: This policy outlines warrantless search procedures.

**A. CONSENT TO SEARCH
(WITHOUT A WARRANT)**

[1.2.4]

DEFINITION: If the person against whom the search is directed consents to the search of his person, or of property under his lawful control, a search may be made and any fruits of a crime, instrumentalities of a crime, or contraband articles may be seized

1. CAUTIONS

- a. **Courts are sometimes reluctant** to find that consent was in fact voluntary when given by a person in custody who might not be fully aware of his constitutional right to refuse permission for a search. Courts will review the totality of the circumstances to determine voluntary consent. Circumstances include whether:
 - 1) Arrest was valid before obtaining consent to search
 - 2) Officer provided Miranda warnings before asking the arrestee for consent to search
 - 3) Arrestee’s consent was truly voluntary and arrestee had the authority and mental capacity to consent
 - 4) Officer obtained consent in public view and not in a police-dominated environment, e.g., police station
- b. **Reliance on the supposed consent** is risky because it cannot be anticipated how the facts surrounding this alleged consent, as testified to by the officer and the defendant, will appear to the court
- c. **Any consent to search must be voluntary**, without coercion, threats, or promises, and without undue pressure. Threatening to obtain a search warrant should the person refuse consent will invalidate consent obtained after the threat.
- d. A search may be directed against a suspect's property if consented to by a person who **jointly occupies** the premises with the suspect if that person has an **equal right** to the use and possession of the premises.
 - If the suspect or anyone with standing is physically present at the place to be searched and objects to the search, the search will immediately stop and a warrant will be obtained

NOTE: This applies to searches for **evidence**. Does not apply in DV cases where an officer enters the residence against objections of DV suspect/co-resident in order to give DV victim opportunity to collect belongings and get out safely; to investigate the matter inside the residence with victim’s permission; or check on other possibly injured persons pursuant to the Emergency Aid Doctrine. If search is for evidence and an objection was initially made by an objecting co-resident, their objection may be overridden by the consent of the consenting co-resident if it occurs after officers had good cause to

remove the objecting co-resident from the premises (e.g., valid custodial arrest and arrestee is transported away from scene).

- 2) Equal right can usually be inferred when the person has a property right or other connection with the premises or with the suspect which establishes that he/she is entitled to bring guests into the premises
- 3) Equal right includes a spouse
- 4) Overnight guests have Fourth Amendment standing to object to a search of areas over which they have reasonable control, such as the bedroom in which they are staying

2. PROCEDURES

- a. Obtain a search warrant in advance of the arrest if possible
- b. Terminate the search immediately if consent is withdrawn at any time by any person with standing
- c. Complete the department's consent to search form and obtain the signature of any person with standing (recommended)
- d. Record all consent to search requests to document request (strongly recommended)

B. SEARCH INCIDENT TO ARREST

[1.2.4] [1.2.8]

Rev

1. WARRANTLESS SEARCHES of the arrestee's person incident to, or contemporaneous with, a lawful arrest are valid:

- a. When an officer has probable cause to make an arrest
- b. When an officer makes a full "custodial" arrest either before or shortly after the search, meaning the officer intends to transport the arrestee to the station or booking facility and not release him with a citation at the scene
- c. To preserve officer safety by seizing weapons or other articles on the arrestee's person or within their reach at time of arrest which might be used to attack the officer
- d. To preserve officer safety by seizing the means the arrestee might use to effect his escape
- e. To preserve evidence by preventing the destruction of the fruits or instrumentalities of the crime or evidentiary items of the crime for which the arrest was made that are on the arrestee's person or within their reach at time of arrest

New

2. ON THE ARRESTEE'S PERSON: Search may include a pat down search of arrestee's clothing or an extensive exploration of the arrestee's clothing including pockets

- a. Any containers or personal effects arrestee was carrying or wearing at time of arrest (e.g., bag, purse, backpack, etc.) are not considered by many courts to be "on the arrestee's person." They have been considered as within the arrestee's reaching distance.
- b. Before conducting the search, ask arrestee whether there are any needles or sharp objects in their pocket or anywhere else on their person
- c. Searches of an arrestee's person require no additional justification to search; no need to articulate same kind of subjective concerns as for areas or items within the arrestee's reaching distance

New

3. **WITHIN ARRESTEE'S REACH:** Search beyond the arrestee's person must be limited to those areas which remain within the arrestee's immediate control at the time of arrest

- a. Definition: Within the arrestee's immediate control - the area from within which an arrestee might gain possession of a weapon or destructible evidence-i.e., "the area within grabbing distance." *Chimel v. California*, 395 U.S. 752 (1969) and *U.S. v. Hudson*, 100 F.3d 1409 (9th Cir. 1996)
- b. Reach is not confined to arm's length but includes the areas reachable by the person if he made a lunge or quick move to gain possession of a weapon or of destructible evidence
- c. If it is necessary for the person arrested to move about after his arrest to put on clothing or assemble belongings, those areas to which he continues to have access may also be searched for weapons or destructible evidence. This movement must be a result of the arrestee's desire to do so. It cannot be directed or requested by the officer.
- d. May conduct a warrantless search of a vehicle incident to a recent occupant's arrest only if:
 - 1) The arrestee is within reaching distance of the passenger compartment at the time of the search or
 - 2) It is reasonable to believe the vehicle contains evidence of the offense of arrest. Under this justification, police may search the entire passenger compartment and all containers in the passenger compartment, locked or unlocked, regardless of ownership.

If neither justification is present, a search of an arrestee's vehicle is allowed only if police obtain a warrant or show that another exception to the warrant requirement applies. *Arizona v. Gant* (U.S. Supreme Court 2009)

New

NOTE: *Gant* may not be limited to vehicle searches. Some courts have applied first prong of *Gant* - i.e., arrestee must be within reaching distance at time of search – to arrests made *outside* of the vehicular context (e.g., arrests made on foot, no vehicle involved). If officers remove an item or personal effect that was within arrestee's reach at time of arrest and place it elsewhere before searching it, or place arrestee at a significant disadvantage that he is not a threat to access it, then a court may determine the twin goals supporting the search incident to arrest doctrine (i.e., officer safety and evidence preservation) have been achieved and officer must rely on other search authority (e.g., a warrant or other applicable exception) to lawfully search the item

3. **SEARCHING THE PREMISES:** Evidence obtained in a search of the premises at the time of arrest **is admissible in court** if there are justifiable facts showing all of the following circumstances:

- a. There was probable cause for the search (sufficient ground upon which a search warrant could have been obtained)
- b. Exigent circumstances existed that would make it impossible to safeguard the premises while a search warrant was being obtained after the arrest
- c. Exigent circumstances existed requiring the making of the arrest before a search warrant could be obtained

4. **UPON ARREST**, the arresting officer will search the suspect and any areas within the suspect's immediate control or areas within which he might gain possession of a weapon or destroy evidence shortly after taking the suspect into custody
 - a. **A search must be thorough** and should not be discontinued when one weapon is found. There may be more than one.
 - b. **Officers receiving custody** of a prisoner from another officer will search the prisoner before placing the prisoner in a police vehicle
 - c. **An officer of the same gender** as the prisoner should conduct the search
 - 1) If not practical, handcuff the prisoner with hands behind the back frisk for weapons using the blade edge or back of the hand for the search
 - 2) Remove purses, knapsacks, or other similar articles used to carry items from the prisoner upon arrest
 - d. **When booking a prisoner**, only a person of the same gender as the prisoner will search a prisoner. If at all possible, search prior to transport. If no same gender employee is available, the search will be done at the county jail.
5. **TYPES OF SEARCHES:** The types of searches include the standing search, kneeling and prone search, wall search, and strip search. The officer will determine the appropriate type of search to use.

Definitions

Custody search - An in-custody search of an individual and of his/her property, shoes and clothing, including pockets, cuffs and folds on the clothing, to remove all weapons, dangerous items and contraband

Gender Expression – The way in which a person expresses their gender identity, typically through their appearance, dress, and behavior

Gender Identity – A person's perception of having a particular gender, which may or may not correspond with their birth sex

Physical body cavity search - A search that includes a visual inspection and may include a physical intrusion into a body cavity. Body cavity means the stomach or rectal cavity of an individual, and the vagina of a female person.

Strip search - A search that requires an individual to remove or rearrange some or all of his/her clothing to permit a visual inspection of the underclothing, breasts, buttocks, anus or outer genitalia. This includes monitoring an individual who is changing clothes, where his/her underclothing, buttocks, genitalia or female breasts are visible.

- a. **The standing search:** Considered the most versatile and should be used in most non-high-risk arrest situations
- b. **The wall search:** Use for most detainees entering the detention area
- c. **The kneeling and prone search:** May be used with high-risk detainees and for group searches
- d. **Strip searches:** Must be authorized by a sergeant or higher-ranking supervisor
 - 1) Conducted in the privacy of the temporary detention area by department employees of the same gender as the prisoner

- 2) If the detainee identifies opposite of their expected gender identity, the supervisor shall ensure the detainee is searched by an officer of the detainee's identified or expressed gender
 - a) If a detainee's gender cannot be determined, or the detainee refuses to provide an answer when asked about gender, a female officer shall perform the search
 - b) At no time shall a strip search be conducted solely for the purpose of determining a detainee's gender
 - c) Individuals shall not be subject to more invasive searches than other detainees. Clothing or other items that convey gender identity such as prosthetic devices or wigs shall be removed consistent with the requirements for removal of similar items established for all detainees.
- 3) Only a supervisor and the person conducting the search will be present for the search. If no same gender employee and supervisor are available, have the search done at the county jail.
- 4) Generally, juveniles will not be subjected to a strip search unless extenuating circumstances require it. When deemed necessary, consult with the watch commander and/or legal advisor before proceeding with the search.
- 5) The following should be documented in a departmental report:
 - a) Reason for search
 - b) Persons conducting search
 - c) Location of search
 - d) Extent of search
- e. **Body cavity search:** Conducted only by virtue of a search warrant or by consent of the suspect, and then **only** by a medical doctor. An arresting officer must have a reasonable belief that the prisoner is concealing weapons or contraband.

C. STOP AND FRISK

[1.2.4]

REFERS TO THE "LIMITED SEARCH" of a person for weapons for the officer's protection during an investigative detention. A frisk may be done with only reasonable suspicion (less than probable cause) that the person may have been or may be committing or may be about to commit a crime or violation **and** reasonable suspicion that the person **may** be armed and **presently** dangerous.

1. **FOR THE SOLE PURPOSE OF PROTECTING** the officer, officers may conduct a limited frisk or "pat down" of the outer clothing of the suspected person to discover weapons that might be used to assault that officer
2. **SUSPICIOUS ACTIVITY OR BEING IN A HIGH CRIME AREA ALONE** will not allow a frisk. The officer must be able to articulate:
 - a. **Reasonable suspicion** to justify stopping the person
 - b. **Additional reasonable suspicion** to justify frisking the person (armed and presently dangerous)
3. **IF THE ABOVE FACTS EXIST**, the officer may frisk, or "pat down," the person for weapons and shall do so immediately upon safe initial contact, including a frisk of any items the person may be carrying where a weapon may be located

4. **CITIZENS** being given transportation **must consent to be frisked** for weapons as a matter of officer safety. If the person refuses, then you should not provide transportation.
5. **FRISK OF VEHICLE PASSENGERS** is allowed as long as officer has separate reasonable suspicion that the passenger is armed and presently dangerous
6. **PROTECTIVE SEARCH OF PASSENGER COMPARTMENT OF A VEHICLE**, limited to those areas in which weapons may be placed or hidden, is allowed if there is reasonable belief that suspect is dangerous and may gain immediate control of weapons in the vehicle. Michigan v. Long, 463 U.S. 1032 (1983).
 - a. Protective search of vehicle can be performed even if suspect is under police control at time of vehicle frisk (not under formal arrest) and if it remains possible **suspect could be released back to the vehicle** after detention is completed
 - b. Protective search of vehicle trunk not permitted under this exception

NOTE: Arizona v. Gant did not overrule Michigan v. Long. Gant decision does not affect officer's ability to conduct a protective vehicle search involving a detained suspect – even one who is handcuffed and placed in a patrol vehicle – since a) officers do not ordinarily have as much control over detainees as arrestees, and b) there is always a chance detainees may be released and permitted to reenter their vehicle

New

D. VEHICLE SEARCHES

[1.2.4]

VEHICLE EXCEPTION: Automobiles and other conveyances may be completely searched without a search warrant only if there is **probable cause** to believe that the vehicle contains evidence or instrumentalities of a crime

1. **IF PROBABLE CAUSE EXISTED TO SEARCH A VEHICLE** when it came into the custody of an officer, a warrantless search may extend anywhere in the vehicle including closed containers in which the items being searched for may be found
2. **IF PROBABLE CAUSE EXISTS TO SEARCH A CONTAINER** that is in a vehicle, a search warrant is not necessary to search the container, even though there is no probable cause to search the entire vehicle
3. **IF PROBABLE CAUSE EXISTS TO SEARCH A VEHICLE**, that search may take place at the location where the vehicle is seized, or the vehicle may be transported to another location to be searched (safety, lighting, equipment concerns). Such searches should be conducted as soon as practicable after the vehicle has been transported to a new location.

E. EXIGENT CIRCUMSTANCES

An officer may enter premises without a warrant or consent under exigent circumstances that have not been created by the officer in the following situations, recognized by the courts as exceptions:

1. **TO ARREST A FLEEING FELON** in hot pursuit: The attempt to make the initial arrest must have taken place in a public place

New

NOTE: The pursuit of a fleeing misdemeanor suspect does not categorically allow an officer to enter the suspect's residence without a warrant. See Lange v. California (U.S. Supreme Court 2021). If other exigent circumstances are also present e.g., destruction of evidence,

preventing imminent violence, or further escape from the home, the officer may make warrantless entry in pursuit of a fleeing misdemeanor suspect.

2. **EMERGENCY AID** or response to an emergency call: Officers having reasonable grounds to believe there is an emergency at hand and immediate need for their assistance for the protection of life or property may enter a premise - in other words, to look for a person who may be ill, injured, or dead
3. **PROBABILITY OF DESTRUCTION OF EVIDENCE:** Officers must present facts amounting to probable cause to explain why they believed the evidence would be destroyed if they waited to obtain a search warrant - applies to felony crimes only
4. **KNOWLEDGE THE PERSON WANTED IS FLEEING OR ABOUT TO FLEE:** When an officer has reason to believe that the person will probably flee and that person is subject to an felony arrest warrant or there is probable cause to arrest the person for a felony, the officer may enter a premises to affect an arrest only if it is **immediately necessary** to prevent the suspect's escape.
5. **RISK OF VIOLENCE:** Includes domestic violence or 911 calls where reports of violence are given or heard - entry into the premises to prevent injury or violence is acceptable
 - a. If one party is outside in a safe location prior to officers' arrival and the potential for violence has ended, then officers must get consent or a search warrant prior to entering the premises
 - b. Officers making a valid arrest inside of a residence or immediately outside of a residence may perform a "protective sweep" of the residence if they have information to support the fear that someone may be inside the residence who can come out and harm them while effecting the arrest
(Under limited circumstances, i.e., shooting calls or threats against officers, while conducting investigations at residences where persons are detained, officers may conduct a protective sweep of the residence.)
6. **A SUBSTANTIAL RISK OF HARM** to the persons involved or to the law enforcement process if the police must wait for a warrant

F. PLAIN VIEW SEIZURES

1. **AN OFFICER LAWFULLY PRESENT** on the premises may seize evidence that he has probable cause to believe is crime related due to the immediate apparentness of its incriminating nature
2. **OFFICERS OUTSIDE OF A PREMISE** who observe contraband inside must obtain a search warrant unless the entry and seizure of the item falls under one of the exigent circumstance exceptions

G. PROBATION ASSISTANCE

[1.2.4]

1. **OFFICERS MAY ASSIST PROBATION OFFICERS** in searching individuals, their vehicles, or premises, who as terms of their probation have given up the expectation of privacy of their person, home, and/or vehicles
2. **THE OFFICER MAY SEIZE ITEMS** of evidence and subsequently charge the person with any applicable criminal violations. See also General Order [E-04.300](#)

H. INVENTORY FOR PROTECTION OF PROPERTY

[1.2.4]

Rev

1. **OFFICERS WILL CONDUCT AN INVENTORY** of all vehicles or property of which they have lawful custody due to either impoundment of vehicle or recent arrest of a suspect. The purpose of the inventory is to protect the following governmental interests: to protect the property of either the driver/owner or arrestee/owner from theft while it is in police custody; to protect police from false claims of theft; to promote jail security; and/or to protect the police officers and the public from potential danger if the property is left unattended in public. This inventory shall occur as soon as practicable after obtaining custody of the property.

- a. Include the inspection of all locked and/or closed containers
- b. Document the results of the inventory on the offense or tow report and/or in the narrative section of the report

Rev

2. **INVENTORY SOLELY TO PROTECT** an arrested person's or driver's possessions

- a. It can never be subterfuge for a warrantless search or a purposeful and general means of discovering evidence of a crime
- b. It is completely non-exploratory and can best be justified if the officer has very little or no reason to believe that evidence is in the vehicle
- c. Open closed containers whose content officers are unable to determine from examining the container's exterior for inventory

New

NOTE: A driver or an arrestee remains free to direct where they want personal effects to go if a reasonable alternative exists. Officers are not required to independently consider reasonable alternatives prior to impoundment or suggest reasonable alternatives to arrestee. A third party, present at time of vehicle's impoundment or suspect's arrest and who claims exclusive or joint ownership over property inside a vehicle or with the arrestee, may also request the property to be released to them rather than being impounded by police. If driver or arrestee does not object, officers will document to whom they released the property. Officers may retain the property if they have a valid reason not to immediately release it to a third party (e.g., driver or arrestee objects to giving property to third party whose ownership cannot be established at the scene, officers obtain consent to search prior to release, or officers develop probable cause to search and seek a warrant.)

I. PROTECTIVE SWEEP

Rev

1. Incident to an arrest of a recent occupant arrested in or outside a home or structure (including a vehicle), police may conduct a warrantless, protective sweep inside those areas to protect the safety of officers or others on the arrest scene. (Maryland v. Buie, U.S. Supreme Court, 1990) It is performed as precautionary measure to search **for people** who pose a threat to officers, not an exploratory search for evidence.

Rev

2. A **vicinity sweep** is an inspection of spaces immediately adjoining the place of arrest in where a person may be hiding. It is permitted whenever a lawful arrest is made inside a home and is limited to grabbing distance and immediately adjoining spaces. It does not require PC or reasonable suspicion. Officers may look into closets and other spaces immediately adjoining the place of arrest where an attack could be immediately launched.

New

3. A **full sweep** of a home or structure is an inspection of any other conceivable space where a person might be hiding and waiting to launch an attack on officers. If sweep goes beyond areas immediately adjoining the place of arrest, there must be reasonable suspicion based on the facts the areas to be swept harbor an individual posing a danger to those on the arrest scene. Mere abstract or theoretical threats are insufficient to justify a full sweep. The suspected threat must be reasonable.

NOTE: During a protective sweep, officers may not search in areas where it is impossible for a person to be hiding. Items lawfully observed based on an officer's background and experience, immediately apparent as evidence of a crime, may be seized. Evidence seized in plain view can also support probable cause for a search warrant after the sweep has concluded.

Summary:

This policy defines legal implications and procedures involved when a search is required. ([See also D-34.100, 200 Search Warrants](#) for search warrant procedures.)

A. CRIME SCENE SEARCHES

[1.2.4]

1. **A WARRANT IS REQUIRED TO SEARCH CRIME SCENES**, including domestic violence calls.
2. **EXIGENCY:** When entry to a scene is made under exigent circumstances, do not search crime scenes after the exigency is over. Secure the premises and obtain a warrant or consent.

NOTE: Once premises are secured, responding officers may remain on the premises for a reasonable time after the exigency has been resolved to hold the scene until additional police personnel arrive to process the scene or pending the issuance of a search warrant. No further searches may be made for evidence not observed in plain view. Michigan v. Tyler, 436 U.S. 499 (1978)

B. OBTAINING EVIDENCE OF PHYSICAL CHARACTERISTICS

[1.2.3] [1.2.8]

The County Attorney has made the following recommendations regarding obtaining evidence of physical characteristics that includes, but is not limited to, fingerprints, palm prints, footprints, measurements, handwriting, hand printing, sound of voice, blood samples, urine samples, saliva, hair samples, comparative personal appearances, or photographs of an individual

1. **PRE-ARREST SITUATIONS:** ARS 13-3905 (as amended) provides for the issuance of a court order for the temporary detention of a subject to obtain evidence of identifying physical characteristics
 - a. **Requires reasonable cause** to believe a felony has been committed
 - b. **It must be shown** that procurement of the evidence may contribute to the identification of the person who committed the crime
 - c. **Evidence cannot otherwise be obtained** by the investigating officer from either the law enforcement agency employing the affiant or the Criminal Identification Division of the Arizona Department of Public Safety
 - d. If the subject refuses to surrender or cooperate with the order, the affiant **may use a minimal amount of force** to obtain compliance. If this fails, he will return to the issuing magistrate and advise him of this fact. The issuing magistrate may then issue a contempt of court warrant for the listed subject.
 - e. The affiant may conduct a search of the subject for **weapons** and may handcuff/secure the subject to assure affiant's safety

- f. The subject may be detained **no more than three hours** for the procurement of evidence
 - g. Officer may not use the order obtained under this section for blood or buccal swabs. Unless the person consents to a blood draw or buccal swab, the officer must obtain a search warrant.
2. **POST-ARREST / PRE-INDICTMENT SITUATIONS:** A search warrant may be used in accordance with ARS 13-3912 and 13-3913 (as amended) to make a reasonable intrusion into a person's body to obtain personal physical evidence
- a. **A search warrant will only be issued** for probable cause supported by affidavit naming or describing the person and particularly describing the property to be seized and the place to be searched
 - b. **An officer must establish probable cause** that the item to be seized tends to show that a crime has been committed or tends to show that a particular person committed the crime
3. **POST-INDICTMENT SITUATIONS:** Rule 15.2(a) of the Rules of Criminal Procedure permits the prosecutor, upon proper notice to defense counsel, to obtain a court order requiring the defendant to provide certain evidence
- a. **Officers should consult** with the case prosecutor prior to taking any action choosing not to use this rule
 - b. **The defendant has the right** to have counsel present when the evidence is taken under this rule

This order provides guidelines for making arrests.

A. POLICY

1. **OFFICERS SHALL STRICTLY OBSERVE** the laws of arrest by the Arizona Revised Statutes, applicable court decisions, federal laws, and local ordinances when making arrests

 - a. **Released:** Officer shall release the person and write and forward a memorandum with pertinent information, including a physical description of the person, vehicle, address, etc., to the originating police agency
 - b. **Booking into jail:** If booking the suspect into jail or requesting a complaint and the suspect does not have identification or the officer feels the identification is questionable, the officer will run a two-finger fast id. If no hit, request a crime scene technician to be dispatched to conduct an AFIS comparison on the suspect **while he is in the officer's custody**
3. **MANDATORY FINGERPRINTING**
 - a. Per ARS 41-1750, all persons arrested for:
 - 1) Any felony
 - 2) Any sex offense
 - 3) Driving under the influence
 - 4) Ignition interlock violations
 - 5) Any domestic violence offense as defined in A.R.S 13-3601
 Shall be ten printed prior to release from custody

 - 2) Complete the mandatory fingerprint form
 - 3) Provide the defendant with a copy of the form to present to the court at their next appearance
- c. If the suspect is physically unable to be printed at the time of arrest, the court will order the suspect to be printed within 20 days after their first appearance

**C. ESSENTIAL ELEMENTS
OF ARREST**

[61.1.2] [70.1.2]

1. **THE FOLLOWING ELEMENTS** are normally required to affect a lawful arrest:
 - a. **Intent** on the part of the officer making the arrest
 - b. **Authority** which is lawful on the part of the officer making the arrest
 - c. **Seizure or detention** of the arrestee
 - d. **Understanding** on the part of the arrestee that he or she has been arrested
2. **ARREST PROCESS:** At the time of arrest, arresting officers shall:
 - a. **Advise** the arrested person of the reason for arrest, if practical
 - b. **Handcuff** the person with the handcuffs "double locked"
 - c. **"Pat down"** the arrested person for weapons immediately following the handcuffing procedure

 - 1) As soon as reasonable after arrest
 - 2) Always prior to being transported
 - 3) Again upon reaching the jail or temporary detention area
 - e. **Remove personal property** and document on the Arrest/Booking form by either:
 - 1) The officer in the field, or
 - 2) At the detention facility during the intake process
 - f. **Escort** the arrested person to a vehicle for transport or to another secure location as soon as possible
 - g. **Search transport vehicles** for contraband prior to and after transporting prisoners
 - h. **Search arrested person's vehicle:** Police may conduct a warrantless search of a vehicle incident to a recent occupant's arrest only if:
 - 1) The arrestee is within reaching distance of the passenger compartment at the time of the search or
 - 2) It is reasonable to believe the vehicle contains evidence of the offense of arrest. Under this type of search, police may search the entire passenger compartment, as well as all containers, locked or unlocked, regardless of ownership.

If neither justification is present, a search of an arrestee's vehicle is allowed only if police obtain a warrant or show that another exception to the warrant requirement applies. *Arizona v. Gant, U.S. Supreme Court* (2009).

**D. FORCED ENTRY
FOR ARREST**

1. **ABSENT EXIGENT CIRCUMSTANCES** requiring immediate action, officers **will not forcibly enter** to arrest a person without a warrant for felony offenses
 - a. ARS 13-3891 (as amended) allows an officer to force entry when attempting an arrest for any warrant or for a felony without a warrant
 - b. Restrictions pertaining to this law have arisen due to federal and state court decisions that limit access under these circumstances. Courts generally require exigent circumstances to be present before making a warrantless entry, even if the offense involves a felony.
2. **EXIGENT CIRCUMSTANCES**, per case law and Constitutional requirements, exist under limited circumstances. The recognized **exceptions** in Arizona are:
 - a. Hot Pursuit of fleeing felon
 - b. Response to an emergency
 - c. Probability of the destruction of evidence (not applicable to dissipation of alcohol in DUI setting)
 - d. Knowledge the suspect is fleeing or about to flee
 - e. Risk of violence
 - f. Substantial risk of harm to the persons involved or the law enforcement process if the police must wait for a warrant

(For additional exceptions see [G.O.E-09.200D](#) Searches: Warrantless)
3. **FORCED ENTRY FOR WARRANTLESS MISDEMEANOR ARREST**
Imminent threat to officer safety or imminent threat of violence toward others must be present. Hot pursuit of a fleeing misdemeanant will not by itself justify a warrantless entry.
4. **AN OFFICER MAY ENTER THE SUSPECT'S USUAL RESIDENCE** to effect an arrest only with an arrest warrant, search warrant, exigent circumstances, or consent
5. If the officer intends to **ENTER A THIRD PARTY'S RESIDENCE** to effect a warrant arrest, the officer will need
 - a. Consent of the third party and the arrest warrant, or
 - b. A search warrant and the arrest warrant

**E. PROBABLE CAUSE
STOP FILE**

Officers may request a "wanted" entry be placed in NCIC when an officer needs to take prompt action to apprehend a person who has committed (or the officer has probable cause to believe the person has committed) a felony, or circumstances prevent the immediate acquisition of a warrant. The wanted entry is good for 48 hours, and the officer must notify Records to cancel it once an arrest warrant is obtained.

E-11 JUVENILE OPERATIONS

Subject

200 Investigations

Effective

12/10/21

High Frequency/High Severity

A. POLICY

[44.2.2]

GATHER AND MAINTAIN ALL EVIDENCE pertaining to a juvenile arrest in the same manner as for an adult arrest

B. CONSTITUTIONAL RIGHTS

[44.2.3]

1. **JUVENILES HAVE THE SAME CONSTITUTIONAL RIGHTS** as adults to counsel and privilege against self-incrimination
2. **WHEN A JUVENILE IS TAKEN INTO CUSTODY** due to probable cause for believing that such juvenile has committed an offense,
 - a. **If possible, advise the parent, legal guardian, or custodian** of the child's rights and explain the juvenile justice system procedures prior to questioning. If the admonition of rights and explanation of the justice system to parent, legal guardian, or custodian would compromise or cause an extensive delay to the investigation the admonition is not mandatory.
 - b. **Explain** to the juvenile any departmental policies or juvenile criminal justice system procedures that apply to the case at hand
 - c. **Complete** a Chandler Police Department **Juvenile Miranda Warnings** form to ensure that the juvenile understands his constitutional rights. **Read the "Juvenile Rights" form verbatim** and document responses to the questions. Submit the form with the report.
 - 1) Obtain information on the juvenile's level of education and grade average to indicate ability to understand
 - 2) If an officer believes that the juvenile is incapable of intelligently understanding the Miranda Rights due to age or mental condition, do not question the individual
 - 3) If possible, notify parents or guardians of the arrest and advise them of the child's rights prior to questioning. The admonition of rights to parents, however, is not mandatory.
 - 4) You must be able to show the juvenile court that confessions or admissions made by a juvenile were obtained without force, fear, threat, or promise of any kind
3. **YOU MAY LEGALLY INTERROGATE** a juvenile without contacting a juvenile probation officer
4. **IF AN IN-CUSTODY JUVENILE REQUESTS** to call an attorney or a parent, allow him to do so. Parents or legal guardians may act as legal counsel. If a parent requests to be present during the interview, the parent must be allowed to attend the interview unless one of the following occurs:
 - a. The parent is disruptive
 - b. The juvenile does not want the parent present
 - c. The parent is a suspect in the investigation
 - d. The situation is an emergency and there is a threat to persons or property if the interview is delayed for the arrival of a parent

C. CUSTODIAL INTERVIEWS

[44.2.3]

It is preferred that custodial interviews with juveniles are conducted in a designated CIB or substation interview rooms where they may be audio and video recorded. Body Worn Camera recording will suffice in most circumstances. The interviews will be under the same procedures as for adults with the following exceptions:

1. **YOU MAY CONFER** with a juvenile's parent(s), legal guardians, or custodian during an interview if you feel it will not interfere with the investigation
2. **DO NOT EXCEED TWO HOURS** without supervisor approval
3. **OBTAIN A SUPERVISOR'S APPROVAL** if more than two officers are present at an interview
4. **YOU MAY EXPLAIN** departmental and juvenile justice system procedures during a custodial interview
5. **TAKE INTO CONSIDERATION** the juvenile's age, mental state, or other factors or influences experienced by the juvenile

D. NON-CUSTODIAL INTERVIEWS

[44.2.3]

As with any statement, non-custodial interviews/questions need to be answered freely and voluntarily, and cannot be the product of threats, coercion, or promises of leniency

E. CONFESSIONS

[44.2.3]

TO GET AN ADMISSION INTO EVIDENCE pursuant to Juvenile Rule Number 18 (Miranda Warnings), the juvenile's voluntary admission must be preceded by a **knowing and intelligent waiver**. Use the Juvenile Miranda Warnings form.

1. **FOR JUVENILES 12 YEARS AND UNDER**, clearly show that the words "attorney, waiver, presence, and prior" were understood or that the importance of the waiver was comprehended. If you can testify that the suspect understood, the court is more likely admit the statement into evidence. This is a list of examples of proofs of understanding:
 - a. The juvenile has successfully completed a course in American government or civics (usually offered in the eighth grade)
 - b. The juvenile could explain the meaning of the words, "attorney, waiver, presence, and prior," to the investigator, or, alternately, the investigator had given or explained the Miranda warnings in words that the juvenile could understand
 - c. The juvenile had a good scholastic record
 - d. The warning had been given to the juvenile on a prior occasion, and it was understood then
 - e. The knowledge and understanding of the waiver can be related directly to the juvenile's acquaintance with law enforcement-type television shows
2. **FOR A CASE RELYING ON ADMISSIONS FROM A JUVENILE** age 12 and under, prosecution will most likely be denied unless you can develop additional evidence upon which to prosecute the case. **Miranda Warnings given in the home** in the presence of the juvenile's parents will be more persuasive to the court than warnings given at the police station absent the parents.

CHILD ABUSE CASES**

Figure 2. **First Responder Procedures for Reported Child Abuse**

Aspect	Procedures
<p>1. Protective Custody Authority ARS 8-821 Or 8-223</p>	<p>Law Enforcement Officers may petition the court to take a child into temporary custody if there are reasonable grounds to believe it is clearly necessary to protect the child from suffering abuse or neglect (injury is apparently not accidental nor explained by the available medical history). If the petition is granted by the courts, then DCS may remove the child. Pursuant to A.R.S 8-821, temporary custody of a child is only taken if exigent circumstances are present and a court order or parental consent have not been obtained. Exigent circumstances – probable cause to believe the child is likely to suffer serious harm in the time it would take to obtain a court order for removal and either of the following is true:</p> <ol style="list-style-type: none"> a. There is no less intrusive alternative to taking temporary custody of the child that would reasonably and sufficiently protect the child's health or safety, or b. Probable cause exists to believe the child is a victim of sexual abuse or abuse involving serious physical injury that can be diagnosed only by a physician licensed pursuant to title 32, chapter 13 or 17 or a health care provider licensed pursuant to title 32 and has specific training in evaluations of child abuse.
<p>2. Procedures For Protective Custody</p>	<ol style="list-style-type: none"> a. Notify Department of Child Safety <ol style="list-style-type: none"> 1) DCS will place child 2) DCS will file petition, if necessary, making child ward of the court b. If DCS does not do a Temporary Custody Notice (TCN), a Chandler detective will complete a petition for removal and present to Superior Court c. Give temporary custody notice to parent <ol style="list-style-type: none"> 1) Can be given by DCS worker if present 2) Can be given by detective investigating the incident d. Immediately make a report if there is evidence of injury, sexual molestation, death, abuse, or physical neglect inflicted by other than accidental means or not explained by available medical history e. Have photographs taken if photographic evidence indicates a possible violation of the law f. Cooperate with the Department of Child Safety (DCS) worker as the law provides if worker is removing a child from the custody of the parents or guardian g. If a criminal case results in a Petition for Removal, the case will automatically be transferred to a detective

A Petition for Removal will be attempted through the courts. Do not inform the parent or guardian who the suspect is or where the child was taken. <p>c. Victim: For child physical abuse cases, patrol officers may interview the child victim only if the child is verbally active and has not already provided the following information about the abuse to anyone. - d. **Witnesses: You may interview witnesses; however,** it is recommended qualified detectives, qualified DCS specialists, or Advocacy Center interviewers interview child witnesses and any siblings or children within the home in cases involving sexual abuse and physical abuse cases involving serious physical or life-threatening injuries. Obtain dates of birth, social security numbers, and other biographical information, including where child witnesses attend school. If child witnesses are interviewed **remember to ask only:**
 - 1) What happened?
 - 2) Who did this?
 - 3) Where were you when this happened?
 - 4) When did this happen?
 - 5) Where do you go to school?
- e. **Suspect Interview: For child sexual abuse and physical abuse cases involving serious physical or life-threatening injuries, interview the suspect only if** the suspect is present and aware of the investigation. **DO NOT** contact the suspect without prior consultation with detectives.
 - 1) **If the suspect is at the scene, and:**
 - a) **The child is not taken to the hospital;** the patrol officer may conduct an initial interview of the suspect or have a detective do so immediately. Obtain the suspect's version of what happened (e.g., determining if it was a discipline measure; if a weapon or instrument was used; or if it was an alleged accident)
 - b) **The child is admitted to the hospital,** decide whether the patrol officer may interview the suspect and/or caretaker in consultation with Investigations. Do not disclose any medical information to the caretakers regarding the condition of the child or possible mechanisms of the injury. Also encourage the medical personnel not to disclose this information until they consult with detectives.
 - 2) **Cases involving physical abuse or over discipline,** patrol officers will contact the suspect and complete the interview obtaining the suspect's version
- f. **Preserve the scene and collect evidence**
 - 1) **Consult with CIB** regarding search warrants and/or consent searches. If the child or suspect gives information regarding a weapon, instrument or mechanism of the injury, a search warrant or consent form should be obtained.
 - 2) **Call crime scene technicians** to document physical injuries to the child with photographs. For severe physical abuse and/or neglect, contact the assigned detective or use a consent form or search warrant to obtain photographs, or video of the entire household.
- g. **Obtain the facts of the reported crime:** Of primary importance are apparent illness of a child, sanitary facilities, availability of food, clothing, and proper parental care and supervision. Record your observations in a report.

	<p>h. Documentation</p> <ol style="list-style-type: none"> 1) Contact DCS to file a report, even if the suspect is booked into jail. Document the call in your report. 2) Document the status of the child at the time the report is written 3) Document any calls to DCS 4) Document any recommendations made to DCS 5) Refer to DCS even when no crime is found <p>i. Neglect case: If you determine there is no real emergency, complete a report. DO NOT take child victims involved in neglect cases to the County Juvenile Court Center.</p> <p>j. CIB will take charge of the investigation. Forward any molest case to Sex Crimes the same day as the initial investigation if possible.</p>

F. CHILD ABUSE: PHYSICAL

[44.2.2]

Figure 3. **Procedures Specific to Physical Child Abuse**

Aspect	PROCEDURES
<p>1. First Responder</p>	<p>a. Evaluate each case on information available to the officer. If the issue is unclear, collect potential evidence for further evaluation. ARS 13-3623 outlines the criteria for physical abuse cases.</p> <p>Consider:</p> <ol style="list-style-type: none"> 1) ARS 13-403.1 allows a parent/guardian/caretaker to use reasonable and appropriate physical force upon a minor when and to the extent reasonably necessary to maintain discipline 2) The statute does not exclude the use of an instrument (e.g., paddle, belt, etc.) as a <i>reasonable</i> means to carry out discipline 3) Reasonable is determined by the amount of force applied, any resulting injury, type of instrument used and the impetus (child's behavior or actions) leading to the need for physical discipline 4) In cases where the child's behavior or actions allow the parent to use physical force, we need to ask the following questions to ascertain if the discipline was "<i>reasonable, appropriate or necessary to maintain discipline.</i>" <ol style="list-style-type: none"> a) Where was the child struck? For example, spanking on the buttocks without severe injury does not constitute assault or abuse per MCAO Prosecution Policies and Procedures. b) Did the child's defensive movement cause the strike to land somewhere it wasn't intended (lower back, arms, legs, etc.)? c) What was the extent of the injury? Transient pain or minor temporary marks, (minor bruising, redness, welts, abrasions)? These types of injuries most likely do not rise to the level of abuse necessary for felony charges, unless coupled with other aggravating circumstances (extensive domestic violence history, unprovoked punishment, etc.). d) How many times was the child struck (again, reasonable vs. excessive)?

Aspect	PROCEDURES
<p>1. First Responder, Cont.</p>	<ul style="list-style-type: none"> e) Does evidence exist of on-going “excessive punishment” (bruising in different developmental stages, other injuries in various stages of healing)? f) Was medical treatment necessary? If so, what is the opinion of the medical personnel about extent of the injury (serious vs. minor, explanation plausible and consistent with the injury)? <p>5) Cases where the parent was justified in using physical force, but crossed the line from discipline to abuse (referred to as “excessive punishment” cases), can be handled in the same manner as a domestic violence investigation and the following questions can be asked by a patrol officer of the child:</p> <ul style="list-style-type: none"> a) What happened? b) When did it happen? c) Where did it happen? d) Who did it? e) Where do you go to school? <p>6) Patrol officers conducting an investigation where the victim and suspect reside together need to make a referral to DCS ([REDACTED]). While doing this, the officer should check DCS history for both the suspect and victim.</p> <p>7) Check Chandler PD records for prior reports alleging abuse and other police agencies where the involved parties previously resided</p> <p>8) Written descriptions of injuries are wholly inadequate. Prosecutors do not like descriptions without accompanying photographs. Remember to take plenty of pictures from different angles and remember to take follow-up photos (it takes time for bruising to develop). Make sure to use a color bar and ABFO Scale (all the Crime Scene Technicians have these).</p> <p>9) If an instrument is used, remember to seize it as evidence. This can be done by consent or a search warrant. CIB can assist if a search warrant is required. Keep in mind factors such as; does the injury have a distinct pattern that can be matched to the instrument? Has consent to seize the instrument been exhausted? Is the injury severe enough to warrant the time/manpower necessary to obtain and execute a search warrant?</p> <p>10) Per ARS 13-3623A, a parent or guardian must protect the welfare of the child. Therefore, the officer can require the parent(s) provide a safe environment if the child is not to be removed by DCS or Petitioned for Removal by the courts..</p> <p>11) Under 13-3620, the parent or guardian is a “mandated reporter,” required to immediately report non-accidental injury or neglect to DCS or the police. An officer may require a parent report the actions of an offending parent/guardian/ caretaker or face criminal charges. (It is best not to threaten a witness with the misdemeanor charge for failure to protect/report. It is preferable to use them as a witness for the criminal charge).</p>

Aspect	PROCEDURES
<p>1. <i>First Responder, Cont.</i></p>	<p>12) When deciding on whether or not to book, refer to General Orders and statutory mandates on domestic violence (DV). The vast majority of these cases fall under the umbrella of DV.</p> <p>13) The case should first be submitted to the County Attorney's Office for Child Abuse Charges if the use of force, instrument used and/or resulting injuries were not reasonable, appropriate or necessary to maintain discipline</p> <p>14) The City Prosecutor's Office will only review submittals for filing of misdemeanor charges after they have been turned-down by the County Attorney's Office.</p> <p>b. Refer to DCS even if no crime is found</p> <p>c. Notify CIB who will assume investigations if:</p> <ol style="list-style-type: none"> 1) A medical exam is required 2) There is serious physical injury or the child is hospitalized 3) Continual physical abuse 4) Where a warrant is needed to collect physical evidence 5) A special needs victim who is unable to answer the five questions allowed by the Child Abuse Protocol 6) When a forensic interview is needed to establish the corpus of the crime 7) A pretext call is needed
<p>2. Patrol / CIB Case Agent Responsibilities</p>	<p>a. If the child victim is interviewed, it should be conducted per the Interview Protocol for Children, Appendix A. c) If not already done and if appropriate, document abuse with 35 mm or digital photographs. Ensure additional follow-up photographs are taken as needed using color bar and the ABFO Scale. d) Contact DCS to obtain prior reports and to determine what action DCS is taking on the referral. If DCS is involved, share information with them. e) Review the suspect's prior police history, paying particular attention to assault and domestic violence contacts f) Obtain relevant medical records on the child and interview appropriate medical personnel g) Interview the suspect if not already interviewed. If the suspect has not invoked his rights, re-interview to complete his account of the events. If the suspect has not already been booked, the case agent shall assess the risk of flight to avoid prosecution and determine if the suspect should be arrested in light of all the information obtained. h) Assess the need for a medical exam <p>2) Hospitalized Children (the following is not in any priority order)</p> <ul style="list-style-type: none"> a) Notify the deputy county attorney on call for physical abuse cases on all cases where a child is admitted to a hospital or dies as a result of suspected child abuse as soon as possible b) Assume responsibility for the investigation of all hospitalized child abuse cases as soon as they are notified by the patrol officer c) Ensure the scene(s) is identified and secured. It may be necessary to obtain a search warrant or consent depending on the circumstances of the case. d) Obtain an initial statement from the most qualified physician (not the intern or resident) on duty as to time frames, mechanisms of injury and symptoms the child would be expected to show, given the injury sustained. e) Conduct interviews with all caretakers, suspects, and witnesses, including specialized physicians (e.g., neurosurgeons, pediatric radiologists, etc.), focusing both on the current injury and on a thorough background of the child's health and upbringing f) Request all medical records including recent and previous hospitalizations and doctor or emergency room visits by the child g) Use search warrants, where appropriate, to ensure a thorough scene investigation. Contact the County Attorney's Office regarding sealing the affidavit of search warrant.

 - 2) All pistols manually loaded via the cylinder face/or muzzle with black powder or synthetic equivalent accelerant
Remember: Black powder/synthetic powder firearms come in single shot, six shooter, replica model rifles, as well as, modern style rifles and small to medium sized "hobby cannons." When in doubt, ask someone who is familiar these types of firearms.
 - b. **Impounding procedures**
 - 1) Determine which type of firearm you have and what type of accelerant the owner has been using e.g., true black powder or a synthetic equivalent powder base
(Most muzzle loading enthusiasts use synthetic powder; however, there are still those who prefer the real "old style" black powder. Black powder is very unstable and can be ignited by static electricity, heat, and pressure. It is imperative you determine what is being used in the firearm you have seized. There are many different types of "synthetic black powders" on the market. These accelerants are much more stable than black powder; therefore, they are used more prevalently.)
 - 2) Determine if the firearm is loaded, how many grains, and what type of projectile, e.g., round ball or other type. If loaded:
 - a) Treat as you would any other loaded firearm
 - b) Note in report how you determined the firearm is loaded and the safety precautions you have taken to avoid an accidental discharge prior to impounding
 - c) Take the following precautions:
 - **Remove cap on priming nipple** - point the firearm in a safe direction and remove ignition cap by pulling it off the priming nipple
 - **Block the firearm hammer** from the priming nipple by placing a piece of paper (such as an evidence card) over the priming nipple and taping it securely in place. Ensuring the hammer is NOT in the cocked position.
 - **Secure the firearm** in a firearm box
 - **Attach a note** to the Property Unit personnel in large, easy to read letters, the item is a loaded/or potentially loaded black powder-type firearm
 - **Place the item in a large property bin.** Ensure it is stable so it does not fall when Property Section employees open the bin.
 - c. **If the firearm is NOT loaded or charged**, impound the firearm like any other firearm. Note in your report how you determined the firearm is not

loaded or charged and note in the Item Description field of the Versadex Property section the firearm is NOT loaded or charged.

SUMMARY:
[1.1.4] [1.2.5]

This policy establishes procedures for the management of undocumented foreign nationals (UFN) that come in contact with Chandler Police Department enforcement officers.

A. POLICY

The Chandler Police Department recognizes and values the diversity of the community it serves. In 1996, the United States Congress passed the Illegal Immigration Reform and Immigrant Responsibility Act, 8 U.S.C. 1101, *et. seq* (IIRIRA). IIRIRA made many changes to immigration laws including adding immigration consequences to certain crimes and requiring mandatory detention of UFNs convicted of certain crimes. IIRIRA also addressed the relationship between the federal government and local governments by permitting certain designated officers to perform immigration law enforcement functions provided they receive the appropriate training and agree to function under the supervision of officers from Immigration and Customs Enforcement (ICE) to identify, process, and when appropriate, detain UFNs they encounter during their regular, daily law-enforcement activity.

The Chandler Police Department is committed to partnering with federal agencies and others to the extent allowable under federal, state and local laws to address criminal activity within our community. This practice is consistent with our duty to ensure the safety and well-being of all persons, regardless of their immigration status. This policy will not limit or restrict the enforcement of federal immigration laws to less than the full extent permitted by federal law.

In enforcing the laws, officers may legally stop, detain or arrest anyone when reasonable suspicion or probable cause exists that a crime has occurred. Officers, however, shall not engage in bias-based profiling, also referred to as “racial profiling” (See GO A-09), when conducting stops, detentions, or arrests of any subject.

Officers should be aware that the enforcement of state and federal laws related to immigration is a complex effort requiring the cooperation of multiple agencies and the consideration of multiple facts and circumstances. Officers are encouraged to contact supervisors when necessary. If at any time, in the sound judgment of an officer, the officer believes that deviation from this policy is appropriate, the officer should contact a supervisor.

B. PURPOSE

The purpose of this policy is to provide guidelines for the management of investigations into issues related to immigration enforcement.

C. GENERAL INFORMATION

Arizona passed comprehensive immigration legislation in 2010, commonly referred to as SB 1070. Since that time, many of the laws have been enjoined or declared to be unconstitutional by federal courts making them

Rev

unenforceable. The following is a list of Arizona Laws addressing immigration enforcement as well as their current status:

12. **ARS 28-3511(A)(1)(d)** "Removal and immobilization or impound of vehicle used In furtherance of the illegal presence of an alien in the United States" – based on court finding ARS 13-2929 invalid, **this statute should not be used as basis for impound.**

D. DEFINITIONS

Bias-Based Profiling	Selecting a person or persons for enforcement action based on a common trait of the group; this includes, but is not limited to race, ethnic background, cultural group, religion, national origin, gender, age, sexual orientation, or economic status; this includes "racial profiling"
Certified 287(G) Officer	State or local officer trained, certified and authorized by the federal government to enforce all aspects of federal immigration law
Consensual Contact	Voluntary interaction with a person where a reasonable person would clearly understand they are free to leave or decline the officer's request
ICE/CBP/287(G)	Immigrations and Customs Enforcement, Customs and Border Protection or a 287(g) certified officer
Presumptive Identifications (For Persons	A person is presumed not to be an illegal alien who is unlawfully present in the United States if the person provides to a law enforcement officer or agency any of the following: <ul style="list-style-type: none"> • A valid Arizona Driver's License

Lawfully Stopped Or Detained / Not Under Arrest)	<ul style="list-style-type: none"> • A valid Arizona non-operating Identification License • A valid Tribal Enrollment Card or other form of tribal identification • If the entity requires proof of legal presence in the United States before issuance; any valid United States federal, state, or local government issued identification
Probable Cause To Arrest	Facts and circumstances, and any rational inferences therefore, that would lead a reasonable and prudent police officer to believe a crime has been or is being committed, and the subject to be arrested committed the crime; an officer may arrest based on probable cause
Racial Profiling	The reliance on race, skin color, and/or ethnicity as an indication of criminality, including reasonable suspicion or probable cause, except when part of a suspect description
Reasonable Suspicion	Facts and circumstances, and any rational inferences therefore, that would lead a reasonable and prudent police officer to believe crime is/was afoot (has been, is being, or is about to be committed); the officer need not know the exact nature of the crime; an officer may stop or detain a person based on reasonable suspicion but may not arrest or search
Stop	A temporary detention of a person for investigation (a temporary detention is considered a seizure of a person and is, therefore, governed by the Fourth Amendment); a stop occurs when a reasonable person under the circumstances would believe that he/she is not free to go; a stop must be based on at least reasonable suspicion; a person is stopped when such person submits to a show of authority or physical force.

E. CONSENSUAL CONTACTS

1. **STATE LAWS RELATED TO IMMIGRATION ENFORCEMENT** neither expand nor limit an officer’s ability to approach a person and engage that person in a voluntary conversation. During that conversation, the officer may inquire about any subject matter. The person contacted does not have to answer questions or produce any identification, but may choose to do so voluntarily. Officers do not have the authority to demand that a person “show their papers.” If during the contact, the officer develops reasonable suspicion that the person has committed, is committing or is about to commit a crime, then the officer should proceed as directed in Section F below.
2. **OFFICERS SHOULD EXERCISE DISCRETION** in making immigration status inquiries during consensual contacts or with victims and witnesses of crime. In order to avoid perceptions of bias based policing (including racial profiling) during consensual contacts, officers should be consistent in asking persons for their identification.
3. **IN NO EVENT SHALL RACE, COLOR OR NATIONAL ORIGIN** play any role in an officer’s decision to inquire about immigration status in consensual encounters.

F. PERSONS LAWFULLY STOPPED OR DETAINED

1. **IF, DURING THE COURSE OF A LAWFUL STOP OR DETENTION** of a person (“detainee”), an officer subsequently develops reasonable suspicion to believe a detainee is an alien and is unlawfully present in the U.S., the officer shall make a reasonable attempt to determine the immigration status of the detainee with either ICE/CBP. There are three exceptions to this requirement:
 - a. **When it is not practicable**

In determining whether it is practicable, officers should consider things such as workload, criticality of incident and of other present duties, available personnel on scene, location, available back up, ability to contact ICE/CBP and availability of ICE/CBP

b. When the determination may hinder or obstruct an investigation

The officer should consider when or whether to investigate immigration status in light of the need for suspect, victim and witness cooperation in an investigation (this consideration is not necessarily limited to the investigation for which you have detained the person). For example, complex investigations of money laundering, human trafficking and drug smuggling may require significant cooperation of those involved.

c. When contact with ICE/CBP extends the length of detention

When the purpose of the original stop/detention has been completed, absent other facts that support reasonable suspicion of another crime, officers shall not extend the length of detention merely to determine immigration status.

2. **IN ESTABLISHING WHETHER THERE IS REASONABLE SUSPICION** to believe a person is an alien and unlawfully present in the U.S., an officer shall not consider the detainee's race, color or national origin, except to the extent that an officer may ask about a person's citizenship
3. **IF THE DETAINEE PRESENTS ONE OF THE FOLLOWING TYPES OF IDENTIFICATION**, it is presumed that the detainee is lawfully present in the U.S. No further investigation into the person's status is necessary, unless there are additional facts that cast doubt on the person's lawful presence.
 - a. A valid Arizona driver license
 - b. A valid Arizona non-operating identification license
 - c. A valid tribal enrollment card or other form of tribal identification
 - d. If the entity requires proof of legal presence in the U.S. before issuance, any valid U.S. federal, state or local government issued identification
4. **IF THE DETAINEE DOES NOT PRESENT PRESUMPTIVE IDENTIFICATION**, then based on articulable facts and circumstances the officer shall determine whether reasonable suspicion exists that the person is an alien and here unlawfully. If reasonable suspicion exists to believe the person is unlawfully present, the officer shall make a reasonable attempt to determine the person's immigration status. In determining whether reasonable suspicion of unlawful presence exists, officers should consider all relevant factors, including, among others:
 - a. Lack of or false identification (if otherwise required by law)
 - b. Possession of foreign identification
 - c. Flight and/or preparation for flight; engaging in evasive maneuvers, in vehicle, on foot, etc.
 - d. Voluntary statements by the person regarding their citizenship or lawful presence
****Note**** If the person is in custody for purposes of *Miranda*, s/he may not be questioned about immigration status until after the reading and waiver of *Miranda* rights
 - e. Foreign vehicle registration
 - f. Counter-surveillance or lookout activity
 - g. In company of other unlawfully present aliens

- h. Location, including for example
 - 1) A place where unlawfully present aliens are known to congregate looking for work
 - 2) A location known for human smuggling or known smuggling routes
- i. Traveling in tandem
- j. Vehicle is overcrowded or rides heavily
- k. Passengers in vehicle attempt to hide or avoid detection
- l. Prior information about the person
- m. Inability to provide their residential address
- n. Claim of not knowing others in same vehicle or at same location
- o. Providing inconsistent or illogical information
- p. Dress (dress has been recognized by the courts as a valid factor, but in practice is very difficult to articulate – Example: layered clothing)
- q. Demeanor – for example, unusual or unexplained nervousness, erratic behavior, refusal to make eye contact
- r. Significant difficulty speaking English

The “building blocks” of reasonable suspicion may include, but not be limited to; the examples listed above and should be considered in the totality of the circumstances.

5. **WHEN REASONABLE SUSPICION EXISTS TO BELIEVE A DETAINEE IS AN ALIEN** and present in the U.S. unlawfully but there are no state or local criminal violations, the officer shall not detain the person further. Once the purpose of the original stop/detention has been completed, absent other facts that support reasonable suspicion of another crime, officers shall not extend the length of detention merely to determine immigration status. The officer may attempt to contact ICE/CBP after the person is released by submitting the ICE Referral form.

Rev

- a. If the officer is unable to make contact or to determine the person’s immigration status with ICE/CBP after reasonable attempts, then the officer shall release the detainee after filling out the ICE Referral form. The form shall be submitted through Police Records to ICE.
NOTE: Once the purpose of the original stop/detention has been completed, absent other facts that support reasonable suspicion of another crime, officers shall not extend the length of detention merely to determine immigration status
- b. If ICE/CBP advises the officer that there are federal **criminal charges** against the detainee, then the officer shall determine whether ICE/CBP will respond to take the person into custody or whether the officer should arrest the detainee and transport to jail
- c. If ICE/CBP advises the officer that the detainee only has federal **civil charges**, then the officer shall ask whether ICE/CBP will respond. The detainee may not be detained any longer than necessary to complete the officer’s initial reason for the stop or detention (e.g., traffic violation) unless the officer has developed reasonable suspicion to detain further to investigate other violations.

The officer shall not extend the detention to wait for ICE/CBP to respond. If the officer obtained relevant information during the lawful stop, the officer shall fill out an ICE Referral form. The officer shall not transport the person, without the person’s consent, based solely upon a federal civil violation. The ICE form shall be submitted through Police Records.

G. ARRESTS

(INCLUDING CITE & RELEASE
OR LONG FORM)

1. **ALL ARRESTED PERSONS, INCLUDING JUVENILES, SHALL HAVE THEIR IMMIGRATION STATUS VERIFIED** by ICE/CBP prior to the arrestee being released through the ICE Law Enforcement Support Center at [REDACTED]

Presentation by the arrestee of presumptive identification and/or agency identification processes meets this requirement. Document in the ICE Referral form the fact that verification was made and by whom.

2. **ALL ARRESTEES WHO ARE GOING TO BE BOOKED** will have the verification of immigration status required above done by jail personnel
3. **FOR ALL ARRESTEES NOT BEING BOOKED** (e.g., Cite & Release or Long Form) who do not present presumptive I.D., the arresting officer/employee will call or otherwise contact (communications, computer, etc.) ICE/CBP to verify the arrestee's immigration status

Rev

- a. If ICE/CBP does not respond or is unable to verify immigration status by the time the reason for the stop is completed, then the officer will proceed to handle the arrestee according to agency policy, which may result in the issuance of a citation for the original non-immigration charge and the release of the arrestee. The officer will document the attempt by listing the agency name, phone number and time the attempt was made.
- b. If ICE/CBP responds timely and verifies that the person has federal civil or criminal charges, then the officer will transport the arrestee to jail for booking on the original state and/or local charges. The arrestee will not be cited and released. The officer will ensure a "hold" is placed on the arrestee for ICE or other appropriate federal agency on the federal civil or criminal charges. In addition to the original OR, an OR titled "Possible Federal Immigration Violation" will be completed. Officers will include the following information in the departmental report:
 - 1) Subject's name and personal information
 - 2) Time, place, and reason for contacting the subject
 - 3) The agency contacted (ICE/CBP)
 - 4) The type of contact made (phone call, radio, etc.)
 - 5) Name and serial number of the person who verified the person's immigration status
 - 6) The phone number and time the information was verified
 - 7) If applicable, the articulable facts establishing voluntary consent or reasonable suspicion, including consent to be transported to ICE
 - 8) If applicable, the name and serial number of ICE agent who took custody of the person

4. **AS REQUIRED BY ARIZONA LAW**, all arrested persons who are to be booked into jail shall be asked the following questions, with the answers documented in the departmental report:
 - a. What is your country of citizenship?
 - b. Where were you born?

- 1) If other than the United States, officers may not ask incriminating follow-up questions unless Miranda has been read and a valid waiver obtained
 - 2) **Officers must comply with agency policies regarding consular notification for persons who self-identify as being foreign citizens**
 - c. If Miranda has been read and a valid waiver obtained, officers should ask the following questions with the answers documented in the report:
 - 1) Are you in the United States legally?
 - 2) Do you have any registration documents or other proof of lawful presence?
5. **THE COUNTY WILL HANDLE VERIFICATION** for all prisoners booked at the county jail
 6. Arrests that result in booking a suspect, or referring a juvenile, will be processed in accordance with applicable department policies
 7. The officer should take into consideration the following factors in determining whether to cite and release or arrest:
 - a) Ties to the community, including family ties and relationships, and length of residence
 - b) Prior criminal activity
 - c) Any other facts bearing on the risk of nonappearance or danger to the public

H. WHEN CONTACTING I.C.E.OR C.B.P.

When an officer contacts ICE/CBP to verify whether a person is an alien and unlawfully present in the U.S., and ICE/CBP advises that the person is unlawfully present, the officer shall ask whether:

1. There is any record that the person has ever completed an alien registration document
2. The person has any other authorization from the federal government to remain in the U.S
3. If the person has no alien registration documents or other proof of lawful presence, or there is no record that the person has ever registered
4. Once verification of immigration status is completed, the person is eligible to be released, subject to other legal requirements (such as signing a citation in lieu of detention)
5. The fact that an ICE/CBP cannot verify a person's status does not mean a person is unlawfully present in the United States and is not, by itself, basis for enforcement action

I. DETENTION AND REMOVAL ORDER (DRO) HOLD (USUALLY AN NCIC HIT)

The Detention and Removal Office is a unit of ICE that has the responsibility of detaining and transporting undocumented persons apprehended by ICE, Customs and Border Protection (CPB) and local law enforcement.

Once a person has been identified as being in the United States unlawfully, ICE issues a DRO hold, which can be for criminal or civil violations.

1. **THIS HOLD IS SIMILAR TO A WARRANT** notification when a person's information is run through NCIC
2. **IF AN OFFICER RECEIVES A DRO NOTIFICATION:**
 - a. **Call the telephone number** on the DRO hit to determine whether the DRO hold is criminal or civil
 - b. **The subject may** be detained for the length of time it takes to determine whether the DRO hold is criminal or civil
3. **WITHOUT THE PERSON'S CONSENT**, officers will not transport for civil violations or continue to detain if the only violation is a civil DRO hold

J. DRO - CRIMINAL HOLD

1. **BOOK THE SUBJECT** into the county jail on the criminal DRO hold if ICE cannot respond to the scene of the detention
2. **COMPLETE A REPORT ENTITLED "Possible Federal Immigration Violation"** containing all relevant information for:
 - a. All arrests and transports to ICE on a criminal DRO hold
 - b. Criminal violations of a federal immigration law

K. DRO - CIVIL HOLD

Arizona law authorizes police officers to enforce provisions of the criminal law. The authorization is limited to criminal violations and does not include civil. Therefore, officers shall not transport for civil violations or continue to detain if the only violation is a civil DRO hold. If the officers develop information that the suspect is in the United States unlawfully, the information shall be detailed in the ICE Referral form and forwarded to Police Records.

1. **THE ICE REFERRAL FORM** shall be routed to ICE by Police Records
2. **ONCE THE ICE REFERRAL FORM** has been completed, the subject shall be released, if there are no criminal violations

L. NCIC ICE IMMIGRATION VIOLATOR FILE

ICE keeps a record of aliens who have been convicted of a felony crime in the United States and have since been deported to their country of citizenship. This record is known as the Deported Felon File, which is located in the NCIC Immigration Violator File.

1. The Immigration Violator File contains the following additional categories:
 - a. **The ICE Absconder category:** Contains the records for individuals with an outstanding administrative warrant of removal from the United States who have unlawfully remained in the United States
 - b. **The ICE National Security Entry/Exit Registration System (NSEERS) category:** Contains the records for individuals whom the Department of Homeland Security (DHS) and ICE have determined have violated registration requirements for entry into the United States

- 1) ICE enters this information into the NCIC Immigration Violator File
 - 2) **DO NOT TAKE ENFORCEMENT ACTION on Administrative Warrants or NSEERS hits**; these are civil or other non-criminal federal matters
 - 3) The NCIC query results will advise whether the information displayed is an Administrative Warrant hit or a Deported Felon File notification
2. If an officer runs a person who is the subject of a Deported Felon File notification, and there are no local charges, do the following:
 - a. Verify through physical description (scars, marks, tattoos, etc.), admission, or other available information, that the person on the notification is the same person
 - b. Contact the ICE Law Enforcement Service Center in Vermont through the communications dispatcher or call directly using the phone number listed for immediate notification confirmation
 - b. Positively identify the subject through LiveScan, or fingerprint the individual and fax the fingerprints to ICE once the hit has been confirmed
 - d. May contact the ICE Law Enforcement Agency Response (LEAR) Unit (or other local ICE office) for pick-up and disposition of the subject after the subject has been positively identified
 - e. Transport the subject to the ICE Detention and Removal Office after verification

****Call the LEAR Unit before transporting a subject****
 3. Officers will complete the ICE Referral form with the following information:
 - a. Subject's name and personal information
 - b. Time, place and reason for contacting the subject
 - c. Whether or not the LEAR Unit picked up the subject or if the subject was transported to the ICE center
 - d. Name and badge number of ICE agent that took custody of subject
 4. If there are local charges along with a Deported Felon notification, there is no need to contact ICE. Follow normal booking procedures.

**M. ICE CONTACT FOR DROP HOUSES,
HUMAN SMUGGLING
AND LOAD VEHICLES**

When contact with ICE is deemed necessary, the following steps **shall** be taken:

1. **A PATROL SUPERVISOR SHALL:**
 - a. Be contacted and provided a detailed account of ICE contact for drop houses, human smuggling and load vehicles
 - b. Review the circumstances and decide if the incident warrants a response from ICE or if the incident requires notification of another investigatory detail supervisor
 - c. Document each reported incident along with the response by ICE
2. **OFFICERS SHALL COOPERATE** with ICE agents in ICE law enforcement activities consistent with the mandates of Chandler Police Department policy

3. **OFFICERS MAY TRANSPORT ICE** prisoners at the request of an on-call ICE agent and with the approval of an on-duty supervisor when they come in contact with undocumented persons in regard to a smuggling operation/drop house or a load vehicle
4. **THE DUTY SERGEANT** or the affected commander and the duty PIO **shall** be notified as soon as possible for on scene assistance by ICE or other high profile incidents involving undocumented persons

N. COMMUNITY AND VICTIM SERVICES

Officers may contact Communications or Victim Services for information on community services for those in need of such services

O. U-VISA CERTIFICATION FORMS

The Victims of Trafficking and Violence Prevention Act (VTVPA) of 2000 encourages victims to report crimes and contribute to criminal investigations and prosecutions regardless of immigration status as well as supports law enforcement efforts to investigate and prosecute crimes committed against immigrant victims. The U-Visa provides eligible victims with nonimmigrant status to temporarily remain in the United States while assisting law enforcement. (U-Visa Law Enforcement Certification Resource Guide)

U-Visas are available through United States Citizenship and Immigration Services for undocumented foreign nationals who are current or former victims, witnesses, or affected family who are assisting or have assisted officials in the criminal justice system investigate or prosecute criminal activity

Note: An agency's decision to provide a certification is entirely discretionary; the agency is under no legal obligation to complete a Form I-918 Supplement B for any undocumented foreign national.

1. **VICTIMS INQUIRING ABOUT APPLYING FOR U-VISA OR REQUESTING** assistance with completing an application should be directed to the Victims Services Unit (X4535)
2. **ALL REQUESTS FOR U NONIMMIGRANT STATUS CERTIFICATION (USCIS) FORM I-918 SUPPLEMENT B (I-918B) SHALL** be forwarded to the Criminal Investigations Bureau (CIB) Persons Crimes Section Lieutenant for review and coordination in processing the request

 - a. Log the request and coordinate with the investigating officers, the affected prosecuting agency and Victim Services in making the determination to recommend and forward the form I-918B to the CIB commander
 - b. Refer to instructions for the form provided by Department of Homeland Security when making this determination
 - c. Consider forwarding completed request to the CIB commander for review if applicant:
 - 1) Is a victim of a qualifying criminal activity as outlined in form I-918B and the criminal activity is being investigated
 - 2) Possesses information concerning qualifying criminal activity that would assist in the investigation or prosecution
 - 3) Is helpful and assisting with the investigation or prosecution

E-18 MEDICAL MARIJUANA

Subject

100 Procedures

Effective

09/16/16

SUMMARY:

This order describes the law on medical marijuana and the enforcement of the law.

A. DEFINITIONS

Figure 1. **Definitions**

TERM	DEFINITION
<p>1. Allowable amount of marijuana</p>	<p>Patients: Two-and-one-half ounces (volume of a soda can) of usable marijuana, and, if authorized to cultivate marijuana (indicated on the card), twelve marijuana plants contained in an enclosed, locked facility, unless the patient is moving Designated caregiver: Can possess 2.5 ounces of marijuana and cultivate twelve (12) plants (if authorized to grow) for each designated patient (up to five patients allowed)</p>
<p>2. Usable marijuana</p>	<p>The dried flowers of the marijuana plant, and any mixture or preparation thereof. Seeds, stalks and roots of the plant, and the weight of any non-marijuana ingredients combined with marijuana and prepared for consumption as food or drink are not counted toward the allowable amount of 2.5 ounces of marijuana.</p>
<p>3. Enclosed, locked facility</p>	<p>A closet, room, greenhouse or other enclosed area equipped with locks or other security devices that permit access only by a cardholder</p>
<p>4. Registry identification card</p>	<p>A document issued by the Department of Health Services identifying a person as a registered qualifying patient, registered designated caregiver, or a registered nonprofit medical marijuana dispensary agent. Arizona registry ID cards will contain a 20-digit alphanumeric identifier. This identifier is the only means to check the validity of an Arizona card.</p>
<p>5. Verification system</p>	<p>A secure, password-protected, web-based system established and maintained by the Arizona Department of Health Services (AZDHS) that is available to law enforcement on a twenty-four hour basis for verification of registry identification cards</p>
<p>6. Visiting qualifying patient</p>	<p>A person who:</p> <ul style="list-style-type: none"> a. Is not a resident of Arizona or who has been a resident of Arizona less than thirty days b. Has been diagnosed with a debilitating medical condition by a person who is licensed with authority to prescribe drugs to humans in the state of the person's residence or, in the case of a person who has been a resident of Arizona less than thirty days, the state of the person's former residence

B. QUALIFYING PATIENT

A registered qualifying patient is authorized by AZDHS to possess and use marijuana, to obtain marijuana for free from other registered qualifying patients or caregivers, and to purchase marijuana from a licensed dispensary. A qualifying patient:

1. **CAN BE A JUVENILE** but a parent or lawful guardian must be an assigned caregiver
2. **MUST BE REGISTERED** with and assigned a registry ID card through the Arizona Department of Health Services
 - a. Must be able to provide their 20-digit alphanumeric number to officers in order to check their status (no requirement that the patient be in possession of a registry ID card)
 - b. Cards are good for one year unless revoked or cancelled
 - c. Certain designated personnel within the Chandler Police Department, including Communications, have been authorized to check card status through the DHS website
 - d. The website will state whether the card is valid, expired, revoked, lost, or cancelled
3. **CAN GIVE OR RECEIVE MARIJUANA** from other registered patients or caregivers so long as nothing of value is transferred in return for the marijuana
4. **PRESUMPTION OF MEDICAL USE**
 - a. If a patient has a valid registry card and not more than 2.5 ounces of usable marijuana and/or 12 plants (if authorized to cultivate), the law allows for a presumption of lawful use/possession
NOTE: Patient OR patient's caregiver, but not both, can possess "allowable amount of marijuana"
 - b. The presumption can be rebutted if the patient is using the marijuana for a purpose other than alleviating the debilitating medical condition, i.e., for recreational purposes
5. **CULTIVATION OF MARIJUANA BY QUALIFYING PATIENT**
 - a. The patient can grow up to 12 marijuana plants in an enclosed, locked facility until a dispensary is located within 25 miles of the patient's residence; registry card will note whether the patient can grow marijuana
NOTE: DHS will review each patient's grow status annually. If a dispensary opens within 25 miles of a grow-eligible patient, he may still grow until DHS removes his grow status upon his next card renewal.
 - b. Home cultivation is allowed but must be sufficiently segregated from the rest of the home so that only the patient (or designated caregiver) has access to it
6. **PATIENTS PROVIDING MEDICAL MARIJUANA.** Registered AZ patients can offer or provide marijuana to other registered patients or caregivers only if:
 - a. Nothing of value is transferred in return, i.e., they cannot sell it or collect any fees/expenses, and
 - b. The person provided the marijuana does not possess more than the allowable amount in total
 - c. Failure to comply with either is a violation of ARS 13-3405

**C. VISITING QUALIFYING PATIENT AND
OUT-OF-STATE CAREGIVER CARDHOLDERS**

Arizona law gives full faith and credit to valid out-of-state patient medical marijuana cards

1. A visiting qualifying patient with a valid medical marijuana card issued by their home state **may legally possess up to 2.5 ounces** of usable marijuana and may use it for medical purposes
2. **A VISITING QUALIFYING PATIENT (VQP) CANNOT:**
 - a. Obtain marijuana in the state of Arizona from any source (they must bring it from their home state)
 - b. Grow/cultivate marijuana in Arizona
 - c. Possess more than allowed by Arizona law, even if the VQP's home state allows for a greater amount
3. **CAREGIVER WITH OUT-OF-STATE CAREGIVER CARD**

Arizona law does not authorize caregivers with only out-of-state caregiver cards to possess marijuana. If the caregiver possesses marijuana but does not possess a valid Arizona caregiver or patient card or visiting qualifying patient card, the person may be prosecuted for possession of marijuana.
4. **VERIFICATION OF OUT-OF-STATE CARDS**
 - a. Very difficult – each state is different, and many do not have a 24-hour a day verification system
 - b. If visiting patient has 2.5 ounces or less, and the officer is unable to verify the out-of-state card, the officer may take enforcement action if the totality of circumstances warrants it

D. CAREGIVERS

1. **QUALIFICATIONS** - To be a caregiver, a person must:
 - a. Be at least 21
 - b. Agree in writing to assist a patient
 - c. Not be convicted of a crime listed in the statutes, generally violent crimes
 - d. Assist no more than 5 patients at a time; caregiver can also be a patient
 - e. Not receive a salary, only reimbursement for costs/expenses
2. Can do anything with marijuana that a patient can do **EXCEPT ingest** unless they have a patient card
3. **CAREGIVER CULTIVATION**
 - a. Can grow marijuana for patient if patient does not live within 25 miles of a dispensary; does not matter where the caregiver resides
 - b. Caregiver card will indicate whether authorized to grow for patient
4. **CAN POSSESS ALLOWABLE AMOUNT** of marijuana multiplied by the number of patients assisted (ex: 2.5 oz. X 3 patients = 7.5 oz. allowed; 12 plants X 4 patients = 48 plants)
5. **CAREGIVER CARDS**
 - a. Caregiver will be assigned a 20 digit alpha-numeric identifier and must be able to provide it to police. If unable to provide the number, treat as not having a registry card; arrest or submit, seizing the marijuana and other pertinent evidence.

- b. Registry system check will list 20-digit number(s) for assigned qualified patient(s)
- 6. **CAREGIVERS PROVIDING MEDICAL MARIJUANA.** Registered AZ caregivers can offer or provide marijuana to either registered patients who are not associated in DHS records with the caregiver or to caregivers only if:
 - a. Nothing of value is transferred in return, i.e., they cannot sell it or collect any fees/expenses
 - b. The person provided the marijuana does not possess more than the allowable amount in total
 - c. Failure to comply with either is a violation of ARS 13-3405
- 7. **REGISTERED AZ CAREGIVERS CAN RECEIVE** reimbursement for reasonable expenses for providing marijuana only to designated patients connected in DHS records with the caregiver

E. DISPENSARIES AND DISPENSARY AGENTS

Authorized to grow and distribute marijuana to Arizona patients, caregivers and other dispensaries

- 1. **CULTIVATION CAN OCCUR ONLY** in an enclosed, locked facility with a single secure entrance that is accessible only to registered dispensary agents
- 2. **REGISTERED DISPENSARIES** and dispensary agents are issued a 20-digit alphanumeric number by AZDH
- 3. **CAN PROVIDE EDUCATIONAL MATERIALS** and related supplies (e.g., paraphernalia for ingesting marijuana)
- 4. **AZDHS HAS ENFORCEMENT AUTHORITY** over dispensaries; absent clear proof of acting outside the scope of the medical marijuana laws, police cannot take enforcement action against a dispensary
- 5. **IT IS ILLEGAL TO CONSUME** marijuana on dispensary premises
- 6. **CAN ACQUIRE MARIJUANA OR PLANTS** from registered patients and caregivers, so long as no compensation is paid for the marijuana

NOTE: Arizona courts have placed a stay on the issuance of marijuana dispensary certificates due to a pending lawsuit. Therefore, there are currently no lawful dispensaries in Arizona.

Order	E-19 VICTIMS	
Subject	400 Address Confidentiality Program	Effective 08/10/12

Summary:

This order explains the procedures to be followed when a victim of domestic violence, sexual assault or stalking is a participant of the Address Confidentiality Program (ACP).

A. POLICY

THE ADDRESS CONFIDENTIALITY PROGRAM (ACP) is a program established by statute ARS 41-161 through 41-169 and is administered by the Secretary of State (SOS). It allows victims of domestic violence, sexual offenses, and stalking to use a substitute address as their legal residential, work or school address when creating a new public record (including police reports). This will allow their actual address to remain confidential. The ACP acts as a substitute mailing address for first class, certified and registered mail, including any correspondence from police, courts and prosecutors, as well as for service of process (court orders, injunctions, subpoenas, etc.)

B. PROCEDURES

1. **ACP PARTICIPANT PRESENTS CARD** or states he/she is a program participant
 - a. **Verify** participant's current enrollment in ACP by calling SOS at [REDACTED]
 - b. If applicable, **document enrollment** in report
 - c. **If possible, make copy of card** and include it in official records/police report (Note: Enrollment in ACP and the substitute address are **not** confidential)
 - d. **Use participant's substitute address** in electronic or paper report, record or document (including citations, booking sheets, police reports)
NOTE: The law does not allow any law enforcement officer or employee to require participant to disclose actual address or telephone number
 - e. Officers or employees dealing with ACP participants are encouraged to **contact Victim Services Unit for any questions** or assistance
2. **USE OF SUBSTITUTE ADDRESS BY POLICE**
 - a. Program participant needs to request agency to use the substitute address for all purposes
 - b. Subject to the exceptions listed in (5) below, the notified agency is required to use the substitute address in all records, reports and documents regardless of the purpose of contact with participant, e.g., as suspect, victim, investigative lead, contact person, witness, etc.
 - c. The substitute address will be effective for all future purposes, unless participant withdraws or is removed from the program
 - d. Participant's ACP card is **not** a form of official identification and can be used only to verify enrollment in ACP

3. **PARTICIPANT'S ACTUAL ADDRESS AND TELEPHONE NUMBER**
kept by the agency is not a public record and not subject to inspection or disclosure, unless:
 - a. The public record was created more than 90 days before the program participant applied
 - b. The program participant voluntarily requests the agency use the actual address or voluntarily gives it to the agency
4. **REDACTING RECORDS**
 - a. Any records created within 90 days before the date a participant applies into the program must have the participant's actual address redacted or changed to the substitute address
 - b. Program participant needs to show the agency a valid program card requesting the agency use the substitute address
5. **EXCEPTIONS TO USE OF SUBSTITUTE ADDRESS**
 - a. Location of incident, even if it is the actual address of participant
Note: If location of incident and participant's actual address are the same, **do not list participant's address as "see location of incident"**. List substitute address for participant's address.
 - b. Federal forms such as fingerprints, firearms traces, and automatic weapons purchase clearances
6. **RESPONSIBILITIES OF PROGRAM PARTICIPANT**
Participant is required to keep SOS informed of current address. Failure to do so can result in cancelation from program. Participant is responsible for notifying any government agencies of cancelation from program.

 - d. Deliver it to:
Secretary of State
1700 W. Washington, 7th Floor

1. **CALL THE SOS AT [REDACTED]** to verify the participant's enrollment in the program
2. **AGENCY REQUESTS SHALL BE MADE TO SOS** and must include the following three documents:

 7. **DENIAL OF REQUEST.** If the SOS denies access to the actual address, the officer may file a written exception within 15 days of the denial. Officers should consult a legal advisor if their request is denied.

D. CONFIDENTIALITY

1. **IF THE SECRETARY OF STATE PROVIDES A PARTICIPANT'S ACTUAL ADDRESS**, state law requires the actual address be maintained as confidential and only so long as permitted by the Secretary of State
2. **THE IMMEDIATE SUPERVISOR** who signed the CPD letterhead Statement of Request for actual address shall be responsible for:

 - a. If an ACP participant requests redaction of actual address from any public record maintained by the police department and created within 90 days of the participant's application to ACP, he/she will be directed to a member of the Victim Services Unit (VSU). VSU will immediately contact the Police Records supervisor who shall be responsible for ensuring the required redaction occurs.
 - b. Redaction may be accomplished by removing participant's actual address or by replacing it with participant's substitute address
 - c. If the department determines a participant is no longer enrolled in ACP, it will cease redaction of actual address. Any records previously redacted pursuant to ACP requirements shall remain redacted even after the participant is no longer enrolled in the ACP program.

**E. DESIGNATED INCIDENT
FACILITIES/LOCATIONS**

[46.1.3b.f]

SECURITY: Several types of facilities may be established in and around an incident which may be determined by the nature of the incident. Give special attention to the security of these facilities. Designated personnel as part of the ICS may provide security.

1. **POLICE EMERGENCY OPERATIONS CENTER (PEOC)** may be designated and used as an ICS command post by itself or in conjunction with other designated command posts
2. **INCIDENT COMMAND POST:** Provides command and control functions to ensure proper management of the incident, may include any or all of the ICS designated personnel throughout this order, will act as the central control point for all intelligence and information, including data control, communications, notifications, assignments, planning, strategy, and rumor control. It is the command structure used to manage a critical incident, based on the size of the incident and the required response by the Police Department. There will always be an incident commander regardless of the commander's location.
3. **FIELD COMMAND POST (FCP)** is in the field and may be the location from which all incident operations will be directed; may be used by itself as the ICS command post, and in most instances will be the command post where most incidents are managed
4. **SECONDARY COMMAND POSTS:** If leaders need to establish a small command post or staging areas for their use in an appropriate area, ensure they are not confused with the incident command post 4.
5. **STAGING AREAS** are any locations designated for the collection of personnel and equipment related to the incident. They should be mobile and have available resources for communications, sanitation, refueling, eating facilities, and any other items needed by personnel responding to the incident.
 - a. For a single-scene incident, one command post may be created for the entire incident
 - b. For incidents involving multiple scenes of a small scale, one command post may be created for each scene as needed, or one supervisor may be designated as having responsibility for each scene.
 - c. For large-scale incidents, either the PEOC may be activated or a single incident command post may be designated as having authority over smaller incidents. This incident command post will house the incident commander and will be referred to as "**Command.**"
 - d. Once established, all personnel responding to the incident will respond to that location if not designated by the incident commander to report to a different staging area
 - e. Only those persons who have been assigned a function requiring their presence within the command post will remain inside

F. MOBILIZATION AND ALERTS

 - 3) Each arresting officer will complete all necessary booking paperwork for their arrests. Each arrest will be properly documented in a departmental report. Any use of force or show of force will adhere to departmental policies and be documented.
 - g. The decision to use chemical munitions will be at the sole discretion of the incident commander and will need to determine:
 - 1) The crowd has become violent or is causing significant property damage
 - 2) Police have issued an order to disperse and have repeatedly communicated that order to the crowd
 - 3) Police have given the crowd ample time to comply with the dispersal order and have provided specific instructions about how to comply

- 4) Chemical munitions should not be used unless it is needed to address a public safety concern, in excessive wind, or the likelihood of unintended persons being exposed
- 5) The incident commander may consider requests from the RDU commander to utilize chemical munitions against criminal or violent offenders
- h. Once the crowd reaches the dispersal area, officers should remain in the area to deter a resurgence in violence
- i. The decision to stand down from a riot response will be made by the incident commander

**G. RELEVANT LAWS AND
SITUATIONAL CONSIDERATIONS**

1. **CIVIL DISTURBANCES:** When protesting groups or crowds of people go beyond the scope of peaceful gatherings and begin to cause hazards, obstructions, or criminal damage, police intervention may be necessary.
 - a. The officer must discern when a demonstration ceases being a peaceful gathering and starts to infringe upon the rights of others
 - b. Speech alone generally enjoys a great deal of protection; however, this freedom may begin to erode when coupled with civil disobedience or violent actions
 - c. Incitement to riot or engage in unlawful acts is cause for swift and decisive action
2. **PREPARATORY ACTIONS:** The department **may** seek a restraining order to prohibit a particular demonstration from occurring
 - a. This option can be cumbersome and difficult, but there are rare situations where there is sufficient evidence to show that a potential aggrieved party could suffer irreparable harm if such demonstration were to take place
 - b. A favorable decision by the court would depend on the complainant's ability to offer clear and factual evidence regarding the ramifications of the event
 - c. The above is intended to provide information regarding all options and strategy. This option is entirely dependent upon the circumstances and the ability to seek a court order.
3. **JURISDICTION:** It is important to understand that when the police are asked to participate in operations in certain jurisdictions not clearly under the jurisdiction of the City, such as specified federal lands or facilities, powers may be severely limited
 - a. Participants must consider jurisdictional issues when planning an operation or assisting in a mission
 - b. This consideration is not intended to restrict our ability to respond when appropriate
4. **CHEMICAL AGENTS** may be used for the purpose of dispersing illegally assembled crowds and to protect property and lives
 - a. Chemical agents include all forms of gaseous irritants approved by the department for use in a RDU situation

New

- b. The incident commander is authorized to order the use of approved chemical agents
 - c. Only trained RDU/SWAT personnel will deploy chemical agents - except the officer's OC spray
 - d. Officers will be equipped and competent in the use of their protective masks upon the use of chemical agents
5. **LESS LETHAL MUNITIONS** may be used on subjects exhibiting active aggression or aggravated active aggression
- a. Only trained RDU/SWAT personnel will deploy ballistic munitions
 - b. Ballistic munitions should only be used when:
 - 1) People are committing acts of violence
 - 2) When individual is close enough to accurately deliver the munition and minimize potential exposure to unintended subjects
 - c. Every deployment of less lethal ballistic munitions will adhere to Graham v Connor and departmental policy
 - d. All deployments will be captured on body worn camera (BWC)
6. **PUBLIC STREETS:** Peaceful demonstrations cannot be prohibited, but can be controlled
- a. The consideration for action will be at which time the streets and the public's right of passage have been hindered
 - b. Public passage and use are the primary purpose of the streets and sidewalks and shall not be restricted except for a lawful purpose
7. **PRIVATE PROPERTY:** The department will respond to incidents on private property just as we do on any call for service
- a. At times, the police are asked to take action on private property
 - b. While people and customers enjoy the right of free speech in these environments, that does not mean that they enjoy the right to create disturbances, cause damage, or restrict the ability of the business to function
8. **SCHOOL CAMPUS:** The Arizona Revised Statutes are enforceable on school campuses just as they are elsewhere. When enforcing the statutes on school grounds, remember that there may be other specific statutes that apply to schools.
9. **PUBLIC PARKS** are intended for recreational purposes and are open to the public in compliance with City ordinance
- a. People have the right to have peaceful public assembly, but they must do so in compliance with regulations
 - b. Inappropriate or unlawful behavior will be dealt with using swift and decisive action as appropriate
10. **PUBLIC MEETINGS:** Reasonable speech is tolerated to the point that it does not disrupt others and incites unlawful acts
- a. A common tactic of demonstrators is to disrupt and interfere with public meetings during civil disturbances

- b. There may be instances when it is necessary to provide control and security at a public meeting
- c. Police supervisor should contact site security personnel in advance to establish contingency plans
- d. Any disruptive demonstrators will be contacted by site security and asked to cease activity and/or leave the area
- e. After the demonstrator has been trespassed from the area by site security and still refuses to leave, police personnel will enforce the trespass violation

11. **LABOR DISPUTES:** It may be necessary at times to respond to a labor dispute situation that has gone beyond the normal collective bargaining meetings and functions
- a. The department will do what is necessary to enforce the laws in these situations in an unbiased and impartial method
 - b. If required to assist in this type of incident, take due diligence to discuss the parameters for their demonstration or event with the appropriate officials on both sides

12. **PICKETING:** A recognized, lawful means of free speech that may occur during labor disputes. The department may respond to these situations if picketers leave the realm of peaceful gathering and begin to create a disturbance.

**H. STATUTORY OVERVIEW
OF APPLICABLE LAWS**

Any combination of these statutes may be applied, depending upon the circumstances. Officers of RDU will be familiar with the following laws and will understand their applicability.

E-31 CRITICAL INCIDENTS

Subject

**700 Guidelines for Specific
Incidents**

Effective

06/30/22

Low Frequency/High Severity

Summary:

[46.1.2]

This order describes the expected Police Department’s response to specific named incidents including: active threats, rapid response and deployment, Chandler Regional Airport incidents, aircraft hijacking, bomb threats, handling explosives, firebombs, explosions, occupational accidents, and overcrowded facilities.

**A. ACTIVE THREATS AND
RAPID RESPONSE DEPLOYMENT**

[46.1.10]

If there is a reasonable belief that acts or threats by a suspect are placing lives in imminent danger, first responding officers should consider reasonable options to immediately eliminate the threat. Officers must decide, often under a multitude of difficult and rapidly evolving circumstances, whether to advance on the suspect, take other actions to deal with the threat, or wait for additional resources.

When deciding on a course of action officers should consider:

1. **WHETHER SUFFICIENT PERSONNEL ARE AVAILABLE ON SCENE** to advance on the suspect. Two or more officers responding is desirable but not required if the officer understands the dangers and feels immediate response is necessary for the preservation of life.
2. **WHETHER INDIVIDUALS UNDER IMMINENT THREAT** can be moved out of danger with reasonable safety
3. **WHETHER OFFICERS HAVE THE ABILITY** to effectively communicate with others in the field
4. **WHETHER PLANNED TACTICS** can be effectively deployed
5. **THE AVAILABILITY OF RIFLES**, shields, control devices, and any other appropriate tools and their deployment will provide a tactical advantage
6. **A BARRICADED, ARMED OR BELIEVED TO BE ARMED SUSPECT WITH NO HOSTAGES** and no immediate threat to others will summon SWAT. Officers may try to negotiate the surrender of a barricaded subject after containing the situation.
7. **WHEN AN ACTIVE THREAT OCCURS:**
 - a. Immediately notify the SWAT Commander or the communications section directly to request SWAT response
 - b. If necessary, notify additional public safety departments and other resources (E-31.200) (F19.100)
 - c. The PIO or designee will make public notifications for awareness and safety (A-12.100)
 - d. Provide public sheltering and containment (E-31.600)
 - e. The SWAT, Training, or Firearms Sergeant will document an annual review of policy and training needs

B. SWAT INCIDENTS

[46.2.1]

This section provides guidelines for field personnel when SWAT is deployed to a specific incident

1. **FIRST RESPONDING OFFICERS ON THE SCENE** shall:
 - a. **Contain** the incident and suspect to the immediate area in which he is located
 - b. **Control** the suspect's actions by establishing an immediate action team to deal with probable contingencies
 - c. **Communicate** with other responding units and establish ICS
 - d. **Call**: If a perimeter, immediate action team, arrest team, and ICS have been established, a supervisor or officer may attempt to communicate with the suspect via a phone or P.A. system. The goal with this communication is to have the suspect surrender peacefully.
 - e. Determine if a crime has occurred. Obtain as much information regarding what has happened and what the current situation entails.
 - f. Avoid unnecessary confrontation with suspect
 - g. Relay all available information to the Communications Center, including:
 - 1) Location of the incident and nature of offense
 - 2) Number and description of hostages and suspects
 - 3) Description of suspect(s) and their weapons
 - 4) Possible avenues of escape and/or direction of travel
 - 5) The location to which additional units should respond and areas or streets which may be unsafe for responding units to enter
 - h. Detain and separate all witnesses to the incident for later debriefing
 - i. Upon arrival of relief personnel, report to the command post or to the on-scene supervisor for debriefing
 - j. Evacuate injured persons on the scene if safe to do. Medical assistance will be requested when necessary.
2. **THE FIRST FIELD SUPERVISOR ON THE SCENE** shall:
 - a. Establish an inner perimeter and an outer perimeter at the scene to keep non-police personnel from becoming involved
 - b. Establish a temporary command post and notify the Communications Center of the location and telephone number if such a number is available. If possible, establish the command post within the outer perimeter and ensure sufficient space for tactical response, ingress and egress.
 - c. Direct responding officers to report to the command post for briefing and assignment
 - d. Direct subordinates to report to the command post upon being relieved for debriefing and reassignment by the operation commander
 - e. Direct the Communications Center to broadcast to responding units any areas or streets that may be unsafe for responding units to use
 - f. Designate a staging area, also within the outer perimeter, to which additional units should respond, and provide this information to the Communications Center
 - g. Prior to the arrival of SWAT, evacuate all bystanders, neighbors, and anyone else who may interfere with or be injured in the situation if appropriate and safe to do so (See General Order E-31.600 Citizen Evacuation Protocol)
3. **THE ON-SCENE SHIFT COMMANDER** shall:
 - a. Designate a command post that is constantly manned
 - b. Establish communication with the Communications Center and the designated staging area
 - c. Assign officers to completely block off vehicular and pedestrian traffic into the outer perimeter

- d. Be prepared to provide necessary support to SWAT, which may include:
 - 1) Control of crowds
 - 2) Location of a staging area for emergency support equipment as well as a command center for coordinated control of the operation. This staging area should be near the inner perimeter and command post but far enough away to provide safety for those manning this area.
 - e. It is vital to the operation that the shift commander ensures all officers assigned to the outer perimeter:
 - 1) Seal off the area using vehicles to block the streets
 - 2) Let no one into the perimeter except authorized personnel
 - 3) Check all vehicles and pedestrians leaving the perimeter to ensure the suspect does not escape
 - 4) Request an ambulance and a paramedic fire engine to stand by at a staging area near the command post
 - 5) Forward additional intelligence information to SWAT commander
 - 6) Maintain the outer perimeter until every phase of the entire operation has been completed with the exception of follow-up investigation
 - f. Notify the Communications Center of the command post location. SWAT members are to respond to the staging area. The Communications Center will advise the shift commander when notification is complete.
 - g. Keep all personnel who have pertinent information concerning the suspect or the suspect's location available near the command post for questioning by SWAT personnel
4. **UNIFIED COMMAND**
- a. **Upon arrival of SWAT personnel**, the first tactical operator will be briefed by the shift commander and assume tactical command until relieved by the SWAT Commander
 - b. The shift commander will retain command of personnel on the outer perimeter and will work with tactical command to ensure an overall smooth operation
 - c. For communication purposes, the SWAT Commander will be identified as "TAC COMMAND", while the shift commander will be identified as "COMMAND"
5. **CRIMINAL INVESTIGATION BUREAU PERSONNEL**
- a. A CIB detective will be assigned to all SWAT incidents for the purpose of investigating criminal violations and preparation of search and/or arrest warrants
 - b. The detective shall direct to the field operation commander any request for additional personnel to assist in the investigation or securing of the scene
6. **PUBLIC INFORMATION OFFICER**
- a. The department's public information officer (PIO) will be notified of any barricade/negotiation situation that will create a great deal of public attention
 - b. The PIO will be thoroughly briefed on the situation and directed to a safe police/media relations location
 - c. The PIO will not release any sensitive information that could jeopardize the negotiation process. News releases of questionable information must first be cleared through the SWAT commander or his designee.

- d. Media representatives will not be allowed access into the established perimeter zones unless authorized by the SWAT commander and accompanied by the PIO

C. CHANDLER REGIONAL AIRPORT INCIDENTS

The Chandler Municipal Airport is a unique operating environment and governed by multiple federal regulations and guidelines

- 1. **WHEN RESPONDING** to incidents at the airport, an extraordinary level of care and situational awareness needs to be taken. The tower may use FAA terminology when calling in an emergency. The three emergency alerts are:

- a. **Alert 1 (Standby Response)**

Indicates an aircraft is approaching the airport experiencing minor difficulties, e.g., oil leak, rough engine, etc. The emergency equipment/crews would initiate a standby response and await development of the emergency.

- b. **Alert 2 (Emergency Response, In-Flight)**

- 1) Indicates an aircraft approaching the airport is in major difficulty, e.g., smoke in the cabin, engine fire, faulty landing gear, no hydraulic pressure, or medical emergency
- 2) Emergency equipment/crews should proceed to a predetermined location to await development of the emergency (The pole with red base by the tower)

- c. **Alert 3 (Emergency Response, Accident)**

Indicates an aircraft is involved in an accident on or nearby the airport and emergency equipment/crews should proceed immediately to the scene

- 2. **FACILITY INFORMATION**

- a. **Runways and taxiways** (“restricted zones” a.k.a. “movement area”) are under the control of the Air Traffic Control Tower from **0600-2100**. Otherwise, the tower is unmanned and the field is uncontrolled, pilots in the air and on the ground will communicate and self-announce for taxiing, takeoffs, and landings.
- b. **Restricted areas/movement areas** – runways and taxiways in between and adjacent to the runways marked by double yellow lines (one solid, one dashed) where the tower’s jurisdiction begins
- c. **The tower does not control** the aprons, aircraft parking areas, and taxi lanes adjacent to the taxiways
- d. **Taxiing aircraft** always have the right of way. Do not assume they can see ground vehicles. Emergency lights must be on at all times.

3. **ACCIDENT RESPONSE**
 - a. Fire crews enter the airport at the gate near the base of the Tower
 - b. Fire vehicles proceed directly towards midfield, stopping short of the restricted zone/movement area
 - 1) Midfield staging point is near the light pole marked with a red base and mid-pole reflectors
 - 2) This location is in the direct line of sight of the Tower
 - 3) Vehicles near the base of the Tower are not visible to the Tower cab

Order		F-07 FIELD INVESTIGATIONS
Subject	200 Physical Evidence	Effective 10/26/16

Summary This order addresses collecting physical evidence from crime scenes.

A. PHYSICAL EVIDENCE

Physical evidence is any tangible evidence that can connect an offender to a crime scene. Biological evidence, which contains DNA, is a type of physical evidence. However, biological evidence is not always visible to the naked eye.

B. DNA/BIOLOGICAL EVIDENCE

[83.2.7]

DNA evidence is more sensitive than other types of evidence. Law enforcement personnel should be especially aware of their actions at the scene to prevent inadvertent contamination of evidence.

1. **LIMIT INCIDENTAL ACTIVITY**; refrain from smoking, eating, drinking, littering, or any other actions that could compromise the crime scene
2. **DO NOT TOUCH OBJECTS** at the scene unless necessary
3. **TRAINED CRIME SCENE TECHNICIANS**, forensic personnel, or officers will collect biological evidence
4. **MAKE EVERY EFFORT TO OBTAIN STANDARDS** (usually buccal swabs) for comparison when appropriate
5. **ENSURE THAT THE CHAIN OF CUSTODY** is maintained
6. **BE AWARE THAT DIRECT SUNLIGHT** and warmer conditions may degrade DNA
7. **STORE IN A COLD ENVIRONMENT** to best preserve DNA evidence
8. **DNA SAMPLES SHOULD ONLY BE SUBMITTED** to laboratories that are accredited for forensic DNA analysis

C. FINGERPRINTS

[83.2.3] [83.2.4]

3. **TRAINED CRIME SCENE TECHNICIANS, FORENSIC PERSONNEL OR OFFICERS** develop and collect fingerprints using the most appropriate process for the surface
4. **KNOWN PRINTS** will be labeled, signed, and filed in the lab by lab personnel

5. **MAKE EVERY EFFORT TO SECURE PRINTS.** If no comparable prints are obtained or a search for latent prints is not attempted, note it in the offense report and include the reason.
6. See General Order [F-07.500 Latent Processing Procedures](#) for additional information

D. PACKAGING AND MARKING EVIDENCE

2. **DEFINITIONS:**
 - a. **IN CUSTODY:** For purposes of this order, **in custody** occurs when there is a formal arrest, or restraint on freedom of movement of the degree associated with a formal arrest. In custody include:

Rev

- c. **INTERROGATION:** Any action or question designed to solicit information from a person to be used against them later in court

- 2. **PROVIDE AN OVERVIEW** of the investigation to the polygraph examiner to determine if a polygraph would be beneficial to the case

D. CONFESSIONS AND IMMUNITY

[1.2.3]

1. **DOCUMENT CONFESSIONS** accurately and completely
 - a. It is unnecessary for statements to be recorded or written to be admissible; however, documented confessions (written or recorded) are more convincing than undocumented. Download all electronic recordings to Evidence.com or the V:Drive.
 - b. Juvenile Confessions (See GO E-11 Juvenile Operations)
2. **OFFICERS WILL NOT GRANT IMMUNITY** from prosecution to suspects. An officer's supervisor and the prosecuting agency will coordinate efforts to grant immunity.

E. PHOTOS, COMPOSITES, SKETCHES OF SUSPECTS

[42.2.9][42.2.10]

1. **WHEN TO USE**
 - a. No suspect has been identified
 - b. The suspect or witness refuses to cooperate
 - c. A suspect is in custody some distance from the prospective viewer
 - d. Confirmation of a suspicion about a person before he is arrested
2. **CONSIDERATIONS FOR USE**
 - a. **Do not display photographs to other witnesses** who may later view the suspect at a line-up after another witness has made a positive identification from a photograph and probable cause to arrest the suspect is thereby established
 - b. **Prior to Arrest:** Use photo displays when a photograph depicting a definite suspect is available and a "live" identification procedure is impractical for one of the reasons specified in this section
 - c. **After Arrest:** Use photo displays only when a line-up is impractical
 - d. **The best use of a photo display** is after an arrest, assembling a line-up, photographing it, and then showing the photo to a viewer
3. **NO ONE HAS THE RIGHT TO HAVE AN ATTORNEY PRESENT** at any pictorial identification procedure, before or after arrest
4. **PHOTO ARRANGEMENTS**
 - a. Prior to showing a photo lineup, read the preprinted admonitions on the reverse side of the photo line up
 - b. Arrange photos in random order with six or more photographs of different persons
 - c. Ensure the persons in the photo display along with the photographs themselves (if several are used) are of similar general appearance with no dates appearing
 - d. Document each photograph shown in each display in your report and preserve photographs for trial by placing them into evidence
 - e. The person viewing the lineup and identifying one of the person's depicted will sign their name below that photograph

5. SKETCHES AND COMPOSITES

- a. Use when there is no suspect
- b. Show to witnesses until a person is definitely identified as a suspect
 - 1) If there is probable cause to arrest, do not further display images to any other witnesses
 - 2) If probable cause for an arrest still does not exist after identification, obtain a photograph of the suspect and follow the procedure for after-the-arrest photo displays

6. IDENTIFICATION PROCEDURES must be reliable and fair to be valid. Avoid suggesting the guilt of a suspect to a victim or any eyewitness even if there is other evidence connecting the suspect to the crime. A witness's unaided recollection must govern the identification.

- a. The following general rules will apply:
 - 1) Display a suspect or his likeness to only one witness at a time
 - 2) Conduct all identification processes separately with each witness. Attempt to prevent a witness who has taken part in an identification procedure from stating a conclusion while other witnesses are present.
 - 3) Do not suggest by word or gesture your opinion to any witness. Providing feedback to the witness is prohibited. Inform witnesses asking your opinion of this restriction.
 - 4) Exceptions to these procedures require supervisor approval
- b. An eyewitness identification procedure may be unnecessary whenever the witness or victim:
 - a. Would not be able to recognize the perpetrator of the offense being investigated
 - b. Knew the identity of the suspect before the offense, e.g., personal acquaintance, relative, neighbor, co-worker, etc.
 - c. Learned the identity of the suspect after the offense without police assistance, e.g., suspect's picture in the newspaper

7. DOCUMENT COMPLETELY each identification procedure including date, time, location, and identity of all present. Record statements made by a witness viewing the suspect along with any significant remarks made by an officer, attorney, or the suspect. Document the witness' selection with the Lineup Id number. Identify and record level of confidence expressed by the witness. Photographic, audio, and video-recording devices will be used whenever practicable.

8. SCHEDULING line-ups, interviews, and other required appearances at the convenience of the victim/witness when possible. Transportation for the victim/witness may be provided.

F. CONFRONTATION OF SUSPECTS AND WITNESSES

[1.2.3] [42.2.10]

Rev

1. **CONFRONTATION:** An identification procedure in which a subject is presented singularly to a witness for identification. Because courts view these procedures as inherently and unduly suggestive, the state must prove the out-of-court identification is not tainted. To prove this, the confrontation occurs only after:
 - a. The witness gives as thorough a description of the suspect as possible (e.g., height, weight, age, hair color, unusual marks or characteristics, etc.), whether they knew or had seen the person before the incident, how well they were able to view the suspect (distance apart, length of time, lighting, etc.).
 - b. Within a reasonable time of the offense (usually within two hours). This is also referred to as a “one on one” or “show up.”
2. **OFFICER BEHAVIOR:** Do not say or do anything to lead the witness to believe that the suspect:
 - a. Has been formally arrested or detained
 - b. Has confessed
 - c. Possessed incriminating items on his person when searched or frisked
 - d. Is believed to be the perpetrator of the offense
3. **ADVISE THE WITNESS:**
 - a. The person detained may or may not be the perpetrator
 - b. Not to feel compelled to make an identification
 - c. To state level of confidence
4. **IF THERE ARE SEVERAL WITNESSES**, arrange for each witness to confront the suspect individually if feasible and proper
5. **DOCUMENT COMPLETELY** each identification procedure including date, time, location, and identity of all present. Record statements made by a witness viewing the suspect along with any significant remarks made by an officer, attorney, or the suspect. Verify and record level of confidence expressed by the witness.
6. **A SUSPECT DOES NOT HAVE THE RIGHT TO CONSULT WITH AN ATTORNEY** prior to a confrontation if the investigating officers do not intend to ask questions. If suspect’s attorney is at the scene, allow the attorney to observe, but not to delay or interfere with the confrontation in any way.
7. **IF THERE IS PROBABLE CAUSE TO ARREST** a suspect located after the commission of an offense, take the suspect into custody and confront as soon as practical
8. **IF YOU REASONABLY SUSPECT** that a person located within a reasonable time of an offense has committed the offense, but do not have probable cause to arrest the person, you may detain him for a reasonable time to conduct the confrontation

- a. You may use reasonable necessary force to stop the person or cause the person to remain in your presence
 - b. Do not detain suspect for longer than a reasonable time unless a suspect who was clearly informed that they need not cooperate, consents to take part in the confrontation
9. **TRANSPORT WITNESSES** to the suspect as soon as possible. Unless the suspect consents, do not take him to the witnesses' location.
10. **IF THE SUSPECT IS NOT IDENTIFIED**, release him under appropriate departmental procedures unless probable cause still exists to believe the suspect committed the offense. Record the subject's name, description, address, and circumstances of the confrontation in the incident report, even when he is not identified and is released.
11. **YOU MAY CRUISE THE GENERAL AREA** in which a crime has occurred with the witness, hoping to locate the perpetrator and arrange a confrontation. Avoid implicating anyone on the street or suggesting that a certain person looks suspicious.
12. **SPECIAL SITUATIONS**
- a. **In emergency circumstances** (e.g., a witness is in danger of death or blindness, or a suspect is in danger of death) you may arrange an immediate confrontation if medical authorities permit, disregarding time considerations in this section
 - b. **If the suspect will be hospitalized** for a lengthy period of time but is not in danger of death, follow procedures for photo line-ups

G. INFORMAL IDENTIFICATION PROCEDURES

[42.2.2]

Rev

1. **OFFICER ARRANGES TO TAKE A WITNESS** to observe a suspect in a non-custodial setting (generally, the suspect is unaware that he is under observation). Use the same precautions listed in Confrontation of Suspect and Witness above.
2. **USE WHEN** a suspect is not in custody and has not been charged with the offense under investigation and a court order to compel cooperation in appearing in a line-up is not appropriate
3. **PROCEDURES**
 - a. When a suspect has been charged with the offense under investigation, but will be **hospitalized** for an extended period, and prompt identification is essential, you may take the victim to hospital rooms to make identification
 - b. When a suspect has been charged with the offense under investigation but **was released** on bond or recognizance before a line-up could be held, and a live identification procedure is desirable, request the suspect to come in for ID. If suspect does not voluntarily comply, obtain a court order for physical characteristics.

H. USING INFORMANTS

[42.2.2] [42.2.6]

1. **PATROL OFFICERS ARE ENCOURAGED** to seek out and use informants who may provide reliable information regarding specific offenses and activities of suspects
2. **TURN OVER INFORMANTS** more suited to follow-up by Narcotics or CIB to the appropriate operational unit for placement in the informant file
3. **PROTECT THE IDENTITY OF INFORMANTS** for their physical safety and to ensure the continued cooperation of the informant
 - a. Do not release or discuss information regarding an informant outside of the operational requirements of the department
 - b. You may identify informants by file number to protect their identity in departmental reports or affidavits for search warrants
4. Follow procedures in GO D-33.100 Use of Informants

I. USE OF INTERVIEW ROOMS

[42.2.8]

1. **POLICY:** It is the responsibility of all sworn personnel to adhere to responsible degrees of officer safety when utilizing a room to interview a suspect within the Department facilities, while insuring that a suspect's Constitutional rights are adhered to throughout the interview process
2. **DEFINITION:** Interview rooms are those rooms that are designated for the interview and/or interrogation of a suspect(s). The term may include rooms specifically identified as an interview room, but also include polygraph, voice stress analyzer rooms, and other rooms in which it is likely that an interview may develop into an interrogation or arrest of a suspect
3. **USE OF INTERVIEW ROOMS:** Officers should exercise the utmost caution when interviewing a suspect. Officers should consider a suspect's potential for violence, understanding that apparently cooperative suspects may become combative. See General Order [D-01.200J](#) for procedures regarding use of the CIB interview rooms.
 - a. Officers should minimize the exposure of their sidearm during an interview by securing it in a locked drawer or designated gun locker
 - b. If another officer is not immediately monitoring the officer conducting an interview with a suspect, the interviewing officer shall carry a radio with a distress alarm
 - c. Suspects will be granted reasonable access to restrooms, water, or comfort breaks
 - d. Unless officer safety concerns dictate otherwise, officers should avoid the presence of more than one law enforcement officer in the room during the course of the interview
 - e. Due to the potential for its use as a weapon or causing damage to the facilities, two chairs will be the only equipment kept in the rooms. Other items necessary to effect the interview may be brought in as necessary by the interviewer, but should not be left with an unattended suspect.

F-07 FIELD INVESTIGATIONS

Subject

**600 Mobile Identification
Device**

Effective

11/15/13

Summary

To establish operational guidelines for the Mobile Identification Device (MorphoIDent)

A. DEFINITION

The Mobile Identification Device (MorphoIDent) is a handheld mobile fingerprint recognition device used to communicate with the Arizona Automated Fingerprint Identification System (AZAFIS) and/or the FBI's Repository for Individuals of Special Concern (RISC).

B. PURPOSE

The purpose and use of MorphoIDent is to scan fingerprints from a suspect to compare against existing prints in the Arizona Automated Fingerprint Identification System (AZAFIS) and the FBI Repository of Individuals of Special Concern (RISC) to provide a rapid positive identification to the officer in the field. The possible identifications will be limited to subjects maintained in the searched databases and does not preclude a record from existing in other biometric or name-based repositories. MorphoIDent is only an aid to the identification of a person and shall not be used as the sole grounds for establishing probable cause for arrest.

C. POLICY

The MorphoIDent system will only be used by personnel who have received training in the proper use of the equipment

1. **VOLUNTARY CONSENT:** During a lawful reasonable suspicion detention, MorphoIDent may be used in situations where the subject to be fingerprinted gives a knowing and willing voluntary consent to the use of the identification device.
 - a. The suspect may limit or withdraw consent at any time
 - b. If consent is withdrawn, use of the mobile identification device is **not** authorized, its use must stop immediately, and the officer may not force or coerce the suspect to submit to the use of the identification device
2. **WITHOUT CONSENT:** The MorphoIDent may be used without the consent of the suspect:
 - a. Upon arrest of the suspect;
 - b. If authorized in the execution of a valid search warrant; or
 - c. If specifically required by statute
 - d. If allowed pursuant to court order

D. AUTHORIZED USE

1. **AN OFFICER MUST BE ABLE TO ARTICULATE AND JUSTIFY** the authorized and appropriate use of the mobile identification device based on policy, training, experience, and assessment of the circumstances
2. **PRIOR TO AN ARREST OR DURING A LAWFUL DETENTION**, MorphoIDent may be used **with the consent** of the suspect if the officer has reasonable suspicion:
 - a. The suspect to be printed has committed, is committing, or is about to commit a criminal offense and there is a justifiable and reasonable belief the fingerprint scan will establish or nullify the suspect's connection to the criminal offense
 - b. The suspect to be printed is subject to an arrest warrant and there is justifiable and reasonable belief the fingerprint scan will establish or nullify the suspect's identity in the execution of the warrant
 - c. The subject intentionally gave a false or fictitious name, residence address, or date of birth to the officer when cited for a traffic violation or other misdemeanor
 - d. The subject is a witness to a criminal offense and intentionally gave a false or fictitious name, residence address, or date of birth to the officer
3. **SUBSEQUENT TO AN ARREST**, MorphoIDent may be used **without the consent** of the arrested suspect to verify the identity of the suspect to assist the officer in determining the appropriate handling, transporting, and routing of the suspect
4. **THE MOBILE IDENTIFICATION DEVICE MAY BE USED without** the consent of the suspect if a suspect's fingerprints are required in the execution of a valid search warrant or specifically required by statute or authorized by court order
 - a. Reasonable force may be used to gain the suspect's compliance with the search warrant or court order. An officer shall use the least amount of force needed to execute the search warrant.
 - b. A suspect's failure to comply may constitute interfering with judicial proceedings (ARS 13-2810(a)(2))
5. **NONSTANDARD USE OF THE MOBILE IDENTIFICATION DEVICE**
 - a. Requires notification and authorization by a supervisor
 - b. Examples include:
 - 1) A request from an outside law enforcement agency to fingerprint a suspect in custody. The requesting agency must comply with the procedures of this policy and any other applicable department policies and procedures
 - 2) A traffic fatality investigation in which there is no other reasonable means of identifying a victim

E. UNAUTHORIZED USE

1. Not to be used for random or general investigative or intelligence gathering
2. Officers shall adhere to all department policies including biased based profiling
3. Any unauthorized use may result in disciplinary action

Subject

200 Death Investigations

Effective

01/08/21

Summary

This order addresses the investigations of deaths by field officers.

A. POLICY

Investigate deaths of persons using guidelines in this order and in Order [F-07 General Investigative Procedures](#).

B. HOMICIDE

1. FIRST OFFICER ON SCENE

- a. Activate body worn camera
- b. Enter the scene being careful not to destroy or alter any evidence that may be present
- c. After ascertaining that the victim is in fact deceased, exit the scene by the same route used to enter
- d. If paramedics must examine the victim, control access to the victim
- e. Check for suspects
- f. Notify the Field Operations shift supervisor or shift commander
- g. Secure the crime scene with tape allowing no unauthorized persons to enter or leave, keeping in mind that the scene can be large and initiate crime scene roster
- h. Obtain identification from all persons present to give to the Criminal Investigations Bureau (CIB). Ask all witnesses for suspect information **only** so that it can be broadcast over the air. *CIB will conduct the interview*
- i. Call a crime scene technician to the scene to take photos of the surrounding area. Wait until CIB personnel arrive to photograph the interior of the crime scene.

2. THE SHIFT SUPERVISOR OR SHIFT COMMANDER will go to the scene, ensure its security, and:

- a. Notify the appropriate CIB supervisor
- b. Remain at the scene until relieved by the supervisor from CIB and/or the next Field Operations shift supervisor
- c. Assign any necessary additional Field Operations officers to the scene to assure proper coverage
- d. Assign the first responding officer to the scene to assist CIB until relieved by the CIB supervisor

**C. SUICIDE AND
OTHER DEATHS**

1. SUICIDE OR INFANT DEATH

- a. Field Operations personnel will secure the crime scene
- b. The shift supervisor will respond and notify the appropriate CIB supervisor for call-out
- c. CIB personnel assigned to the call will write the original report and request a supplement from the first officer(s) on scene

2. ALL NATURAL DEATHS

Patrol personnel are responsible unless the shift supervisor finds that suspicious circumstances exist. If CIB is not assuming the investigation, patrol takes documentation photos (utilizing department issued cell phones or Axon) rather than calling for a Crime Scene Tech for non-suspicious 901 calls in the following situations:

- a. Doctor signs the death certificate
- b. If out-of-state doctors do not sign Arizona Death Certificates, forward the case to the Medical Examiner Office
- c. Decedent suffered a known terminal illness
- d. Death occurred in a nursing home / care facility
- e. A DNR exists

3. OTHER UNATTENDED DEATHS WHERE A DOCTOR WILL NOT SIGN, including, but not limited to, nursing home deaths, hospice care deaths, other deaths with significant medical history

- a. A Field Operations supervisor will contact the on-call CIB supervisor before proceeding with the investigation. Field Operations may investigate these incidents.
- b. Send all of these cases to the Medical Examiners Office
- c. CIB will complete the follow up with the Medical Examiner's Office

D. REPORTING OF DEATHS

1. ANY PERSON WITH KNOWLEDGE of the death of a human being under any of the following circumstances, including fetal death, shall report it (ARS 11-593):

- a. Not under the current care of a physician for a potentially fatal illness or an attending physician is unavailable to sign the death certificate
- b. Resulting from violence
- c. Unexpected or unexplained
- d. Occurring in custody
- e. Unexpected or unexplained death of an infant or child
- f. Occurring in a suspicious, unusual, or unnatural manner
- g. From an accident believed to be related to the deceased's occupation or employment
- h. Occurring as a result of anesthetic or surgical procedures
- i. Suspected to be caused by a previously unreported or undiagnosed disease believed to present a threat to public safety
- j. Involving unidentifiable bodies

2. NOTIFY THE MEDICAL EXAMINER'S OFFICE (ME), conduct an investigation and report the results to the ME

3. SURGICAL AND ANESTHETIC DEATH

- a. **Non-trauma-related** surgical and anesthetic deaths: No offense report required. When hospitals notify the department of a surgical or anesthetic death, no investigation is required. The officer will promptly notify the Medical Examiner's Office.

- b. **Trauma-related** surgical and anesthetic deaths (accidents, gunshots, assaults, etc.): Officer shall complete an offense report
 - 1) Officer receiving the original information from the hospital will notify the shift commander
 - 2) The hospital may unhook the deceased victim from operating room surgical equipment and move the victim to a different hospital location pending the investigating officer's arrival
4. **DECEDENT CATEGORIES:**
 - a. **Admitted Cases** – Homicides, suicides, overdoses, child deaths, decompositions, and any trauma related deaths except hip fractures. Hip fractures of the elderly are declined or not admitted cases depending on the circumstances. Medical Examiner Investigators (MEI) will respond and take custody of the deceased.
 - b. **Body Not Admitted** – MEI may respond to the scene and draw fluids. If so, the investigator contacts a rotation mortuary to take custody of the deceased if the family does not have a preference. These cases usually involve suspected disease related death. The investigator may respond to the mortuary to draw fluids instead of the scene. Cases can be closed by patrol.
 - c. **Declined Cases** – Doctor agrees to sign the death certificate. Medical Examiner will NOT respond to the scene. Call mortuary. Patrol does not need to send “declined cases” to CIB. Cases should be Closed – No further action.

E. INVESTIGATION

1. **DUTIES AT THE SCENE (OFFICER)**
 - a. Identify victim
 - b. Determine the identity of the suspect, if known, and if in custody
 - c. Obtain the identity of all witnesses and persons discovering crime
 - d. Obtain the identity of all persons at the scene and those who have been there and left and why. What did they do while at the scene?
 - e. Determine the identity and list on crime scene roster of all persons who entered the scene proper, including police personnel (all ranks), ambulance attendants, paramedics, doctors, witnesses, etc., and determine if they moved or touched anything. Require supplements from applicable police personnel.
2. **WITNESSES**
 - a. Interview witnesses and take statements as soon as possible to ensure that the memory of the incident is fresh and to not detain witnesses any longer than necessary
 - b. When practical, separate witnesses and request they not discuss the incident among themselves or with other investigators. Officers should interview witnesses separately.
3. **PROCESSING THE SCENE:** Approach every death investigation as a homicide until it is proven otherwise
 - a. **Secure the scene and separate witnesses** until CIB personnel arrive on scene for any death investigation investigated by CIB
 - b. **Photographic evidence:**
 - 1) Photograph and measure in place every item of evidence before examining it

- 2) Photograph the body for purposes of identification, to show wounds - both entrance and exit and other important markings and evidence. It may be necessary to photograph the body again at the medical examiner's mortuary after the body has been cleaned.
 - 3) Use crime scene technicians to photograph both homicides and suicides
 - c. **Complete a Medical Examiner's Identification Tag** and examine the body of the victim as closely as possible without disturbing the wounds, clothing, etc., prior to the medical examiner making an examination. The investigative officer will complete the identification tag and report to the medical examiner. (See [General Orders D-17](#))
 - d. **Direct the crime scene technician** to process items for fingerprints and to lift "dry prints" from the deceased if necessary. Notify the medical examiner of any dry lifts.
 - e. **Impound evidence** submitted for crime lab analysis in an evidence locker with a request for scientific analysis. Request blood and hair samples from the victim on the Medical Examiner's Identification Tag.
 - f. **Trained crime scene technicians**, forensic personnel, or officers will collect biological evidence
4. **DEATH CERTIFICATES:** Many natural deaths can and should be disposed of by the personal physician of the deceased signing the death certificate
 - a. Contact the Medical Examiner's Office when a death is unnatural, unattended and/or the attending physician will not sign a death certificate
 - b. **If a doctor declines** to sign the death certificate **and** the deceased was attended to by the doctor, ask the doctor why he will not sign and attempt to learn:
 - 1) When the doctor last saw the deceased
 - 2) The nature of the illness, and if could it have caused death
 - 3) If the doctor suspects foul play? If so, describe.
Sometimes a doctor will not state the cause of death. ARS 36-327 states a doctor is only required to certify a death according to their best knowledge and belief.
 - c. Do not argue if the doctor still refuses to sign. Tag the body and give the medical examiner all the information regarding the deceased and the doctor's reasons for not signing.
5. **DISPATCHED TO A HOSPITAL.** First establish from where the decedent was transported. Where the decedent became ill or injured determines which agency has jurisdiction for the investigation. If within Chandler, commence with the investigation.
6. **DISPATCHED TO OUTAID/FD:** If the person dies in transit or at the hospital, this type of call requires a death investigation to be conducted to determine the cause of death (medical issue, suicide, overdose, etc.) A scene investigation and personal history are crucial to establish the need for CIB response.

F. NOTIFICATIONS

[81.2.10]

1. DEATH NOTIFICATIONS

- a. See [General Order D-17.200](#) (D.7) for death notification when the victim has been identified
- b. **When an officer from another jurisdiction** contacts the department to make a death notification:
 - 1) Forward the request to a field supervisor who will determine whether the requesting agency wishes the department to make the notification or to advise the aggrieved party to call the originating agency
 - 2) If the agency requests that we make the notification, follow the same procedure as outlined in General Order D-17.200.D.7
 - 3) If the next of kin cannot be located, notify the requesting agency

2. NOTIFICATION OF ILLNESS OR INJURY: The investigating officer will attempt, promptly and in a considerate manner, in-person or by telephone, to locate a relative, close friend, or other responsible party when a person is ill or seriously injured

3. OTHER EMERGENCY MESSAGES: Emergency messages other than those previously listed may be delivered at the discretion of the supervisor

- c. First responder conducts a brief and non-judgmental initial interview of the victim. Structure interview in a manner that allows the victim to give information in an uninterrupted free-flowing manner. Interview in a private, safe setting and electronically record interview. If the victim insists a support person be with them, the first responder should make sure the person is not a witness to the case (e.g., the first person the victim told).
- d. Limit interview to the following:
 - 1) Gather basic facts that establish the elements of the crime. A more detailed interview will be done later.
 - 2) Obtain victim information, including phone numbers, date of birth and secondary contact information such as a close relative

3. TIMEFRAME

 - Follow the victim or allow him/her to follow you to ensure they do not get lost or stop somewhere

F-11 CIVIL AND FAMILY DISPUTES	
Subject	Effective
100 Civil Disputes	09/22/22

Summary: This policy outlines the officer’s proper response during a civil standby involving civil disputes.

A. POLICY
74.2.2

A Civil Standby is a situation where the police officer stands by to keep the peace in a situation involving civil disputes. These disputes often do not involve criminal violations. In civil disputes, officers will first determine if a criminal offense has been committed. If no criminal offense has been committed, officers will attempt to arbitrate the dispute.

1. **THE PRIMARY OBJECTIVE** of officers at these disputes is to deescalate the situation by attempting to arbitrate the dispute and prevent the parties from resorting to violence to resolve the conflict.
2. **THE PRIMARY RESPONSIBILITY** of officers during a civil standby is to not act in a manner benefiting any of the parties involved in the civil dispute
3. **OFFICERS WILL HANDLE** any criminal violations according to relevant law and policy
4. **OFFICERS SHOULD REMEMBER** they are never authorized to give legal advice; however, officers may offer suggestions and inform the participants of the various social service agencies equipped to assist them, such as the Community Relations Unit of the Civil Rights Division of the Attorney General's Office.
5. **UNDERSTAND INTENTIONS OF REQUESTER:** The officer will talk with the requesting person to understand their intentions and the nature of their request
6. **EXPLAIN ROLE:** Officers will explain that they are there to keep the peace and any violation of such in the officer’s presence could result in the arrest of either of the people involved
7. **HOURS:** Non-exigent civil standbys will only be conducted between 8 a.m. and 7 p.m.
8. **CRITERIA:** All civil standbys will be evaluated and approved by a sworn supervisor on duty
 - a. In non-exigent civil disputes where the potential for violence is not apparent and where no violence is foreseen, officers may standby for a maximum of 15 minutes. Standbys lasting longer than fifteen minutes will be at the discretion of the officer. Supervisors will be advised of unusual situations requiring extended officer presence
 - b. When exigent circumstances exist (e.g., argument in progress, weapons observed, etc.), officers will respond and the fifteen-minute time limit does not apply

B. LANDLORD / TENANT DISPUTES

1. **RESIDENTIAL: The Arizona Residential Landlord and Tenant Act, (ARLTA) ARS Title 33, Chapter 10 (ARS 33-1301, et seq.) applies to the rental of dwelling units.** The purpose of the ARLTA is to simplify, clarify, modernize, and revise the law governing the rental of dwelling units and the rights and obligations of landlord and tenant.
 - a. **Exclusions from the Act - ARS 33-1308**

Unless created to avoid the application of the Act, the ARLTA excludes certain arrangements from the Act. Officers may issue trespass notices or enforce trespass laws in these situations. These arrangements include:

 - 1) Residence at an institution, public or private, if incidental to detention, the provision of medical, educational, counseling, or religious services or the provision of a social service program that is provided by a social service provider
Note: This includes residency at various types of shelter housing or adult group housing
 - 2) Occupancy under a contract of sale of a dwelling unit or the property of which it is a part, if the occupant is the purchaser or a person who succeeds to his interest
 - 3) Occupancy by a member of a fraternal or social organization in the portion of a structure operated for the benefit of the organization
 - 4) Transient occupancy in a hotel, motel, or recreational lodging
Note: This applies to a variety of transient occupancy settings, including Short-Term Vacation Rentals. A transient guest normally stays from day-to-day without any express contract; has a permanent residence elsewhere; is enroute to or from some destination; does not have permanent employment in the area; and/or seeks accommodations only on a temporary basis. Operators may fall outside of standard ALTA exclusions depending on the nature of the arrangement. Because these situations are fact-dependent, officers should contact their legal advisor for guidance.
 - 5) Occupancy by an employee of a landlord as a manager or custodian whose right to occupancy is conditional upon employment in and about the premises
 - 6) Occupancy by an owner of a condominium unit or a holder of a proprietary lease in a cooperative
 - 7) Occupancy in or operation of public housing as authorized, provided or conducted under or pursuant to title 36, chapter 12, or under or pursuant to any federal law or regulation
 - b. **Lawful Tenants**

Under the ARLTA, the only way a tenant can be lawfully removed from a rental unit is if the landlord wins an eviction lawsuit (known as a special detainer action) against the tenant pursuant to ARS 12-1181. Police should not issue trespass notices or enforce trespass laws against a lawful tenant unless the tenant returns unlawfully after having been evicted according to lawful court order

 - 1) The constable of the Chandler Justice Court usually evicts the tenant by using a Writ of Restitution issued by the court. It is the

constable's job to remove the tenant from the premises and return possession to the landlord

Note: To execute the Writ of Restitution, the constable may go to the residence, knock and announce their presence, and remove the evicted tenant. The constable may enter the residence whether the tenant is present or not. The language on the order may also authorize the constable to "forcibly remove" the tenant.

- 2) Chandler police officers may be called to assist the constable – such assistance should be limited to a stand-by only to keep the peace so that the constable can do their job safely. If the subject refuses to obey the writ, and the constable is unwilling to forcibly remove the tenant, officers should refer the constable back to the issuing court for an arrest warrant to be issued in the name of the violating party. Officers will not arrest a person who refuses to obey a Writ of Restitution.

Note: If a person assaults a constable while they are removing an evicted tenant, the person has committed aggravated assault under ARS 13-1204

- 3) After an eviction, the tenant has fourteen (14) days to retrieve property from the landlord; however, the constable, at the direction of the landlord, may give the tenant a reasonable amount of time to remove any personal belongings. If the tenant does not claim the property, then the landlord can dispose of or sell the property in accordance with state law. A tenant generally does not have any right of access to that property until the actual removal and storage costs have been paid in full

EXCEPTION: Landlord must allow the tenant to obtain clothing and the tools, apparatus, and books of a trade or profession and identification or financial documents including all those related to the tenant's immigration status, employment status, public assistance or medical care.

c. **Guests - ARS 33-1378:**

Occupants such as a long or short-term house guests are not considered lawful tenants or sub-tenants under landlord-tenant laws if there is no written agreement between the guest and the primary occupant (owner or tenant) of the residence. If the owner or lawful tenant physically occupying the residence requests the guest be removed, have the person sign a Residential Trespass Notice and serve the notice on the occupant. The guest should be given a reasonable time to vacate the premises.

- 1) Officers should determine the existence of a written agreement from the outset of the encounter
 - a) A written agreement can be of any kind, including writings of relative informality and brevity, such as text messages and emails
 - b) The writing need not be a formal contract, but the terms of the writing must be sufficiently complete and definite, and it must reflect a present intent of the parties at the time of formation to be bound
 - c) The writing must also contain directly, or by implication, the essential terms of the parties' agreement—amount of rent, length of stay, and any other relevant terms

- 2) Officers have discretion in enforcing ARS 33-1378; removal is not mandatory. Officers may:
 - a) Continue to arbitrate the dispute to keep the matter civil
 - b) Continue to offer suggestions, negotiate for a later removal date, or inform the parties about available resources to assist them in landlord-tenant disputes
 - c) Consider any extenuating circumstances that exist in deciding whether to remove an unwanted guest (e.g., illness, pregnancy or disability, large amount of property in the house)
 - 3) Officers should not apply the law in these situations:
 - a) **Married couples.** Because the concept of the "marital home" is important to the maintenance and stability of a family, officers may suggest to the complainant that they pursue legal action in civil court
 - b) **Non-cohabitating landlord.** The law does not apply in cases where a landlord does not physically occupy the residence with the person living there. If this situation exists, officers may treat it as if there is an existing landlord-tenant relationship and inform the complainant to pursue a formal eviction
 - c) **Unlawful subtenant is a guest of the primary tenant.** Officers should not enforce this law when a landlord requests removal of an unlawful subtenant who is not named on the lease (but is the primary tenant's guest), unless the primary tenant has been formally evicted or no longer resides there (e.g., due to death or abandonment of the premises)
 - c. After a trespass notice is served on the person:
 - 1) Owner will call the police if the person does not leave by required time or returns after being trespassed
 - 2) If the person is still there when police arrive, the person may be cited or arrested for trespassing (*ARS 13-1504*)
2. **COMMERCIAL: ARS Title 33, Chapter 3 (ARS 33-301, et seq.) applies to the rental of commercial property.** Unlike a residential landlord, a commercial landlord has the option under Arizona law of either seeking a judicial remedy through a special detainer action to legally regain the premises, or seeking a self-help remedy to regain the premises by using the "lockout" procedure
- a. A commercial tenant may be locked out of the business by the landlord without a court order provided that the tenant is not inside the property at the time of lock out. If the landlord knowingly locks a tenant inside the property, this may become a criminal matter investigated as an unlawful imprisonment under ARS 13-1303
 - b. Under Arizona law, a commercial landlord has a lien on tenant's personal property that may still be inside and has the right to sell the property and apply the proceeds toward the rent if the tenant does not pay the rent within sixty (60) days after seizure of the property
 - c. If the tenant violates the lockout, the tenant may be cited and arrested for trespass pursuant to ARS §13-1502 and any other applicable violation. Burglary generally would not apply

C. BOUNDARY DISPUTE

Do not make arrests as the result of a civil boundary dispute. If a criminal violation has occurred (i.e., trespassing or criminal damage), complete an offense report and submit for complaint rather than making an arrest.

1. **DISPUTING PARTIES MAY BE:**
 - a. Referred to local real estate offices for reliable tract maps and advice as to property limits
 - b. Referred to civil engineering firms who will, for a fee, survey property to determine boundary liens
 - c. Advised to contact their attorneys
2. **ADVISE PARTIES** to a dispute that any physical violence or criminal damage to either party may result in criminal charges regardless of which party originally committed the civil wrong

D. DAMAGE BY CHILDREN OR ANIMALS

While some elements of a criminal violation may be present in damage to property by children or animals, the department will not act as a collection agency to recover damages

1. **PARENTS MAY BE LIABLE** for up to \$10,000 for each tort (civil wrong) of their children
 - a. Arrangements for restitution may be made through either juvenile authorities or Superior Court
 - b. Officers may suggest to the parents of a child or the owner of an animal who has damaged another's property that restitution could be made by reimbursement, but they will not be told that they must
2. **IF A DOG IS INVOLVED**, remind the owner of the licensing and leash laws. If the problem is aggravated or recurring, advise the complainant to contact the Maricopa County Animal Care and Control

E. REPOSSESSION OF VEHICLES OR PROPERTY

A purchase contract or lease agreement for personal property may contain a provision allowing the lender to repossess the property from a borrower/debtor for nonpayment on the loan, or for breach of the agreement. The lender is considered a lien holder who retains a security interest in the item of property until the loan or credit terms are repaid. If the borrower/debtor defaults on their obligation, lenders may hire repossession companies (for vehicles, towing companies) to repossess the property on their behalf. Repossession without court order ("self-help repossession") is authorized under ARS 47-9609, if done without committing a "breach of the peace." This is a legal term that gives the borrower/debtor or other private individuals the right to pursue a civil cause of action against the lender or repossession company. Courts enforce the civil provisions of ARS 47-9609. Officers can only enforce criminal violations of state law or city ordinance

1. **RIGHT TO ENTER:** The lender or their repo agent may enter onto the open areas of premises borrower/debtor for the purpose of repossessing the property. They do not have the authority to enter certain closed or private areas (such as closed garages, closed gates with "no trespassing" signage, locked gates, backyards, car ports, or inside of residences, etc.).

2. **MOMENT OF REPOSSESSION:** Property has been legally repossessed, and the lender's lien has been perfected, when the lender or their repo agent lawfully enters the premises and secures the property before the borrower/debtor is aware of the repossession. For repossessed vehicles, this occurs the moment when the vehicle is connected to a tow truck.
3. **LIMITATIONS ON REPOSSESSION:**
 - a. Self-help repossession – For law enforcement purposes, the lender or their repo agent may repossess without court order only when this can be accomplished without a violation of a criminal law
 - 1) Example: The borrower/debtor is physically present outside of their home and verbally objects to or physically resists the repossession before the lender or their repo agent has secured the property
 - 2) Example: The borrower/debtor is physically present inside the vehicle at the time the lender or their repo agent arrived to secure the property. The repo agent threatens the borrower/debtor with violence if they do not exit the vehicle and allow the agent to repossess the property.
 - b. Court ordered repossession – Repossession may occur only as authorized by the court order
4. **OFFICER RESPONSIBILITIES**
 - a. **Primary responsibility is to keep the peace.** If called to the scene of a repossession, refrain from taking sides and establish the relevant facts
 - b. **Do not advance or hinder a repossession.** Officers will not advance or hinder repossessions under “color of state law.” Advancing a repossession occurs when an officer arrives in advance with the repo agent to assist the agent repossessing the property. Hindering a repossession occurs when an officer forces a repo agent to release property they have lawfully repossessed. Doing either may subject the Department and the officer to civil liability
 - c. **Arrests must be for criminal violations only.** To the extent any party (debtor/borrower, lender or repo agent) commits a criminal offense (assault, threatening or intimidating, criminal damage, disorderly conduct, or trespass to residential or non-residential property), officers may take appropriate law enforcement action.

F. CHILD CUSTODY DISPUTES

1. **CUSTODY OF CHILDREN** generally rests with either of the parents who were married at the time of the child's birth or adoption.
2. **IN SITUATIONS INVOLVING CHILDREN BORN OUT-OF-WEDLOCK**, the birth mother is the legal custodian of the child until paternity is established and custody or access is determined by a court. This means they can make all legal decisions on the child's behalf until the child reaches the age of majority, including restricting access to the child or moving the child to another state.
 - a. Even if another person is listed alongside the birth mother on the child's birth certificate, or is otherwise acknowledged to be the child's parent, Arizona law does not consider that person to be the lawful parent of the child until paternity is established

- b. Payment of child support does not guarantee a right of access to, or visitation with, the child. A court must still award legal custody or access to the other person, which it may award as part of the paternity proceeding
3. **EXCEPT IN CHILD ABUSE CASES**, only a court of record may make child custody determinations. Investigate and submit violations of child custody or access visitation laws to the appropriate prosecutorial agency. Remind victims that they may receive help through the domestic relations court that issued the order.
4. **A CHILD SHALL NOT BE PHYSICALLY REMOVED** from a parent who is in violation of a custody order, except for the following:
 - a. An order or warrant specifically requires police to remove the child and specifically authorizes police to forcibly enter private property to remove the child; or
 - b. The officer has reason to believe the child is in imminent danger of serious physical harm or being physically removed from the state

Note: For either of the above exceptions, officers shall contact a supervisor before removing a child. Since these matters involve children, officers and supervisors shall exercise caution and sound decision-making in determining the proper tactical approach before making entry into a residence
5. **CUSTODY ORDERS**
 - a. **OFFICERS WILL ENFORCE IN-STATE CUSTODY ORDERS** according to the language of the order
 - b. **OUT-OF-STATE CUSTODY ORDERS**

The parent wishing to enforce an out of state custody order should be informed to register the order with the superior court in accordance with the Uniform Child Custody Jurisdiction and Enforcement Act (UCCJEA), as codified under ARS Title 24, Chapter 8 Once registered, the out of state custody orders will be enforceable and given the same full faith and credit as an in-state custody order. Direct questions about the validity or enforceability of an out of state order to a legal advisor.
6. **INVESTIGATION AND ENFORCEMENT OF VIOLATIONS OF CUSTODY ORDERS**
 - a. Officers shall refer all complaints for custodial or access interference arising from a valid custody order to the Maricopa County Superior Court – Family Court Division for resolution. Officers shall not respond absent any exigent circumstances where an officer response is necessary. Exigent circumstances may include:
 - 1) An immediate concern for the well-being of the child or incompetent person
 - 2) Physical violence has been committed or threatened against the child or incompetent person
 - 3) The parent, guardian, or other person is attempting to flee the state with the child or incompetent person
 - b. **Emergency call takers and dispatchers in the Communication Section** may, based upon their training and experience, refer

Rev

- complainants to the Family Court without requiring the generation of a call for service and dispatch of an officer
- c. If a call for service is generated and no enforcement action is taken, close the call with a clearance of non-enforcement contact (F-05.100 D)
 - d. If a call for service is generated and enforcement action is taken or it is in the best interest of the department, document actions taken in a General Offense report and close the call accordingly

G. INJUNCTION AGAINST HARASSMENT

Injunctions against harassment issued under ARS 12-1809 are designed to control ongoing disputes between parties who do not fit the domestic violence relationship test under ARS 13-3601(A)

1. **CITE AND RELEASE NOT APPLICABLE:** If the officer determines that there is probable cause to believe the person has violated the injunction, the officer must make a custodial arrest. The provisions for release under ARS 13-3903 do not apply to an arrest made pursuant to ARS 12-1809. Therefore, the officer may not cite and release and must book the suspect. The proper charge is for violating ARS 13-2810 (Interference with Judicial Proceedings) by disobeying or resisting the injunction.
2. **LONG FORM COMPLAINT:** If there is probable cause and the suspect's location is unknown, the officer may submit a long form complaint to the prosecutor's office

H. ORDERS OF PROTECTION AND RESTRAINING ORDERS

Handle violations of an order of protection or a restraining order as outlined in F-11.200 Domestic Violence (See F-11.200 Domestic Violence)

I. VEHICLE REPAIR LIENS

1. **ARS 33-1022** gives proprietors of garages and repair and service stations a lien on motor vehicles and aircraft, including the parts and accessories placed on them, for labor, materials, supplies and storage for the amount of the charges, when the amount of the charges is agreed to by the proprietor and the owner.
2. **VERBAL OR WRITTEN AGREEMENT** between the proprietor and the owner to any of the charges: This lien allows the proprietor to retain possession of the motor vehicle or aircraft if the owner does not pay the full amount of the agreed upon charges. Failure to return the vehicle to the owner under these circumstances is not a criminal matter. Beck v. Hy-Tech Performance, Inc., 236 Ariz. 354, 340 P.3d 433 (App. 2015).
3. **NO VERBAL OR WRITTEN AGREEMENT** between the proprietor and owner to any of the charges: The proprietor has no legal right to hold the vehicle until payment is made. The proprietor must release the vehicle to the owner. Failure to return the vehicle to the owner under these circumstances may be investigated as a potential criminal matter (theft by conversion – ARS 13-1802(A)(2)). If the officer determines criminal enforcement is warranted, the case should be sent to the prosecutor by way of long form complaint.

**J. VEHICLES TOWED FROM PRIVATE PROPERTY
WITHOUT PERMISSION OF VEHICLE OWNER**

PRIVATE TOWS WITHOUT PERMISSION OF VEHICLE OWNER

1. Pursuant to ARS 9-499.05, the owner or agent of the owner of private property held open to the general public is deemed to have given consent to unrestricted parking by the general public in any parking area of the private property unless the parking area is posted with signs which are clearly visible and readable from any point within the parking area and at each entrance. Such signs shall contain, at a minimum, the following:
 - a. Restrictions on parking
 - b. Disposition of vehicles found in violation of the parking restrictions
 - c. Maximum cost to the violator, including storage fees and any other charges that could result from the disposition of a vehicle parked in violation of parking restrictions
 - d. Telephone number and address where the violator can locate the violator's vehicle

Note: This does not apply to abandoned or junk vehicles

2. Tow companies that tow vehicles from private property at the direction of the private property owner but without permission of the vehicle owner have no legal authority to hold the vehicle in lieu of payment of towing and/or storage charges, even if the property is marked with signs stating that violators will be towed at vehicle owner's expense. While the owner of the vehicle remains liable for towing costs, no lien can be placed on the vehicle for those funds.
3. Under ARS 9-499.05, it is a class two misdemeanor for tow companies to tow vehicles from private property without the express written permission from the private property owner or the permission of the vehicle owner. This does not apply to abandoned or junk vehicles.
4. Failure or refusal to release the vehicle to its owner may be investigated as a potential criminal matter (theft by conversion – ARS 13-1802(A)(2). If the officer determines criminal enforcement is warranted, send the case to the prosecutor by way of long form complaint.
5. This does not apply to vehicles towed as evidence at the direction of police, or pursuant to ARS 28-872 or 28-3511

**K. DISPUTES INVOLVING
HOUSEHOLD GOODS MOVERS**

RESPONSE TO "CARRIER'S LIEN" SITUATIONS

1. Unless a household goods mover has complied with the exemption qualifications in ARS 44-1612, it is considered an unlawful moving practice under ARS 44-1613 for a household goods mover, after taking possession of a consumer's household goods, to refuse to deliver or unload a consumer's household goods or enforce, or threaten to enforce, a carrier's lien against a consumer's household goods when providing household goods moving services for an *intrastate* move (i.e., a move started and completed within the State of Arizona). The

exemption qualifications require that a household goods mover provide to the consumer a legible copy of the signed contract and the statutory disclaimer that meet the requirements of ARS 44-1612 before providing any household goods moving services

This does not apply to **interstate** moves coming into Arizona from another state. If the matter involves an interstate move, refer consumers to the Arizona Attorney General's Office, the Better Business Bureau, the Federal Motor Carrier Safety Administration, or the civil courts.

2. If a household goods mover has complied with ARS 44-1612 and refuses to deliver and unload household goods based on nonpayment the total estimated price set forth in the contract, the mover must use reasonable care to safeguard, preserve and protect the household goods until the household goods are properly delivered and unloaded at the moving destination
 - a. Household goods mover may not refuse to deliver and unload household goods to a consumer based on the mover's refusal or inability to accept a method of payment listed in the contract
 - b. Any additional services not reflected in the contract must be agreed upon in writing by the parties
3. If a household goods mover unlawfully fails to deliver and unload household goods, then under ARS 44-1614 (C) a peace officer has the authority to take custody of the household goods or direct the household goods mover to deliver and unload the household goods to the consumer
4. Attempt to resolve the dispute amicably by offering suggestions or informing the parties about the law. If enforcement action pursuant to state law must take place, consider charging Chandler City Code 11-11 for failure to deliver/unload the goods per the officer's direction and submitting the charges to prosecutor's office by way of long-form complaint.

F-11 CIVIL AND FAMILY DISPUTES

Subject

200 Domestic Violence

Effective

08/20/21

Summary:

This policy outlines the proper officer's response to domestic violence incidents.

A. POLICY

Chandler police officers often respond to civil disputes. These disputes often do not involve criminal violations.

1. **THE PRIMARY RESPONSIBILITY** of officers at these disputes is to deescalate the situation and strive to prevent the parties from resorting to violence to resolve the conflict
2. **OFFICERS SHOULD REMEMBER** that they are never authorized to give legal advice; however, officers may offer suggestions and inform the participants of the various social service agencies equipped to assist them, such as the Community Relations Unit of the Civil Rights Division of the Attorney General's Office
3. **ARREST, CITE, AND BOOK ON** "Order of Protection" violators with adequate probable cause, even if the victim does not desire prosecution. If issuing citation, release is not an option – violators must be booked.

Order		F-17 Canine Unit
Subject	100 Procedures	Effective 11/22/23

Summary:

[41.1.4]

This order describes the policy and procedures for the use of police canines in department law enforcement efforts. For additional information, refer to the [K-9 Manual](#).

A. POLICY

- 1. THE K-9 UNIT WILL BE USED** when needed to successfully and/or safely conduct building searches, area searches, tracking, narcotics detection, explosives detection, and/or evidence recovery. Though primarily used as a “locating tool”, the dog’s physical capabilities and training may be used as a method of force, when reasonable, against criminals or suicidal subjects.
- 2. ARS 11-1025** governs the use of dogs in police work
- 3. ONLY THE ASSIGNED K-9 HANDLER** shall control his dog except in emergency situations

B. K-9 UNIT ASSIGNMENT

- 1. THE K-9 TEAMS ARE NORMALLY** assigned at large. They may not be assigned to a beat or x-ray unit unless approved by a supervisor.
- 2. THE K-9 OFFICER MAY BE DISPATCHED** as a primary unit; however, they will be primarily used as a back-up unit to maximize their utilization
- 3. THE K-9 TEAM IS RESPONSIBLE** for security checks of commercial, industrial, and construction sites, as well as patrolling high crime areas when not answering calls for service
- 4. CALL-OUT PROCEDURE AND COMPENSATION:** Due to the various specialties of each team and complexity of the task (i.e., area searches during inclement weather, explosive searches of large areas, etc.) the entire Unit is subject to call out with the requesting officers’ supervisor approval
****Note:** K-9 Officers will receive seven (7) hours of “on call” pay per pay period
- 5. OTHER AGENCY ASSIST:** K-9 Teams may be assigned to assist other agencies on a case-by-case basis with approval of the shift commander
- 6. TRAINING OF OTHER DEPARTMENT EMPLOYEES:** The K-9 Unit shall prepare and conduct the training of other department personnel in the procedures and tactics regarding the utilizations of K-9s as directed

C. K-9 PATROL UTILIZATIONS

The Police Service Dog (PSD) provides officers with a tactical advantage when searching for criminal suspects. This advantage is an invaluable tool in the rapid detection of criminal suspects and protection of officers, all to the end of assuring the safety of the community. A primary function of the deployment of a police service dog is to locate suspects, although depending upon the circumstances, application of the police service dog for protection,

apprehension and safety purposes may be required. Examples of "Patrol Utilizations" may include but are not limited to:

1. Building searches
2. Area searches and tracking
3. Apprehension of serious offenders in flight
4. Subduing emotionally disturbed/suicidal subjects to prevent self-inflicted injury

**D. GUIDELINES, TACTICS,
RESTRICTIONS**

1. **THE CANINE HANDLER** has primary responsibility for directing the activities of the search team, absent a K-9 Unit Sergeant
2. **IN THE EVENT** of a conflict between a non-canine unit supervisor and a canine handler regarding a deployment, the handler will summon a K-9 Unit supervisor. If a K-9 Unit supervisor is unavailable, ultimate authority to deploy the canine rests with the handler.
3. **THE OFFICER HANDLING THE CALL** or incident will assist the search team whenever possible
4. **THE SEARCH TEAM OFFICERS** will be briefed by the K-9 Unit supervisor or handler prior to the search on the general search pattern and tactical plan to include:
 - a. Whether search is done "on" or "off" lead
 - b. Handler will watch the Police Service Dog
 - c. Officers are present to provide protection to the handler and tactical advantage when locating the suspect
 - d. Assisting officers are to follow directions issued by the handler
 - e. Officers **will not** immediately give chase to a suspect who is located and attempts to flee, but will await instruction from the handler
 - f. Search team officers will not wander or search in a direction, out of sight, or without knowledge/consent of the handler. This procedure is to protect those involved in the search from unintentional canine induced injuries.
 - g. Officers will keep voice and radio communications to a minimum and maintain light discipline to minimize distractions
5. **WHEN SUSPECT IS KNOWN TO BE ARMED:**
 - a. Tactical options for requesting SWAT should be considered
 - b. Utilize appropriate personal protection equipment by all search team members
 - c. Containment and barricade procedures should be followed if the K-9 alerts indicating the suspect's presence unless exigency requires immediate action

6. **PSDs WILL NOT BE UTILIZED TO:**
 - a. Search for other animals
 - b. Apprehend mentally disturbed persons when a crime is not involved. However, ARS 13-403 does allow use of force to be applied to stop or detain a suicidal subject
 - c. Enter crowded public places (bars, theaters, restaurants, etc.)
7. **NO PERSON SHALL WORK OR TRAIN** a PSD (other than the handler) without prior approval of a K-9 Unit supervisor or Master Trainer
8. **THE K-9 HANDLER** is responsible for controlling the canine at all times
9. **DEPARTMENT PERSONNEL** shall remain cognizant of a PSD's presence and not engage in horseplay or disruptive behavior that may agitate the canine (unless pre-planned with prior knowledge of the handler as a training exercise)

E. BUILDING SEARCHES

1. **FIRST RESPONDERS WILL SECURE THE SCENE**, refrain from entering the building, and stay clear of any possible point of entry or exit
2. **THE K-9 HANDLER** will decide whether the search is to be done on or off lead. In some instances the PSD may not be utilized at all due to legal requirements and the need to avoid unintentional injury.
3. **CONTAINMENT PERSONNEL** shall avoid looking through windows; standing close to doors or windows and otherwise providing distractions
4. **OFFICERS WILL FOLLOW** the direction of the handler during the search and during any encounter with suspects to avoid injury to assisting officers

F. AREA SEARCHES

1. **IF THE SUSPECT HAS FLED** and is to be tracked:
 - a. All personnel will stay clear of the area where the suspect was last seen
 - b. Secure the area until the arrival of the handler and the PSD has been deployed
2. **ALL PERSONNEL**, except those assigned to assist the K-9 handler, will stay away from the handler and the dog while being used
3. **ESTABLISH A "HIGH PROFILE" PERIMETER** and do not conduct foot searches within the perimeter without approval and knowledge of the incident commander or K-9 handler
4. **NO ONE** will do anything to distract the dog, i.e., loud talking, flashing a light, etc.
5. **OFFICERS SHOULD BE** aware of wind direction at all times to avoid their scent being blown into the perimeter and distracting the K-9
6. **REMAIN ATTENTIVE** to persons attempting to leave the secured areas. Officers on perimeter will not write reports etc. while on post.

G. NARCOTIC DETECTION UTILIZATIONS

The narcotic certified PSDs are able to detect marijuana, cocaine, heroin, and methamphetamine. Certain certified PSDs are also able to detect fentanyl. All department narcotic detection dogs will be certified annually by the National Police Canine Association (NPCA)

***NOTE:** Due to changes in the law regarding marijuana usage and possession, not all narcotics certified PSDs are trained to detect marijuana.

1. **THE HANDLER WILL ENSURE** proper safety precautions prior to the search to prevent ingestion of narcotics or other injury to the PSD. The handler has ultimate authority on deployment of the PSD based on the circumstances of the search needed.
2. **HANDLERS WILL COMPLETE A SUPPLEMENTAL REPORT** to the requesting officer's original report when the PSD alerts to the presence of narcotics detailing the K-9s training, experience when and date of last certification

H. EXPLOSIVE DETECTION UTILIZATIONS

1. **THE PURPOSE OF THE EXPLOSIVE-CERTIFIED K-9** is to assist in detection and location of explosive substances. *The K-9 handler is not a bomb technician and cannot disarm or dispose of any explosive.*
2. **IN THE EVENT OF A BOMB THREAT**, follow the procedures outlined in General Order F-13. The explosive detection K-9 team may be used to assist in searching for a device.
3. **IF AN OFFICER OR CITIZEN FINDS A DEVICE** that is obviously an explosive or explosive device, call a bomb disposal unit. Do not call for the explosive detection K-9 to confirm what is already known.

I. ARTICLE/EVIDENCE DETECTION UTILIZATIONS

PSDs trained in this detection are not searching for specific types of items but for human odor transferred to it. The ability to locate such items is dependent on environmental conditions and length of time the item has been exposed.

1. **THE PSD CANNOT DISCRIMINATE** one human odor from another and therefore cannot link a suspect to the item. Further forensic examination will need to be conducted of the located item.
2. **UTILIZE STANDARD CRIME SCENE** management procedures to prevent further contamination of the area with human odor
3. **CONDUCT MANUAL SEARCH FOR ADDITIONAL** evidence (i.e. shoe/tire impressions, blood or other bodily fluids)
4. **USE OF THE PSD MAY DAMAGE** other types of evidence in search area. The case officer shall confer with the handler and decide on use of the PSD unless so directed by a supervisor.

5. **MAINTAIN OFFICER SAFETY PRACTICES** while adopting a calm demeanor when such demeanor is possible and practical
6. **WHEN CONTACTING OR INTERVIEWING PEOPLE IN CRISIS:**
 - a. **Allow the person to vent difficult emotions** by listening to the person. This does not imply the person should be allowed to take any action that creates a danger to self or others
 - b. **Attempt to avoid topics** that may agitate the individual (e.g., threatening the individual with arrest)

 - g. **Allow time to process.** Some people affected by mental health impairment need much longer amounts of time to process even simple questions. Pause silently after questions or statements
 - h. **Attempt to eliminate distractions and irritants.** Other people (including family), loud noises, and other distractions can interfere with de-escalation attempts
 - i. **Use of open-ended questions** is encouraged (typically "what/who/how/when/where" questions). Open-ended questions invite the person to speak at length and reduce misunderstandings. Avoid yes/no questions and/or forced-choice questions (questions that ask the person to choose from limited options provided by the questioner) when possible
 - j. **Do not ask leading or suggestive questions.** Avoid questions that suggest the desired or expected answer
 - k. **Repeat back** what you heard the person say demonstrating your understanding and allowing them to correct your understanding if necessary
 - l. **Ask specifically if the person is suicidal** if there is indication that they are. It is best to ask directly if they plan to kill themselves or hurt themselves or someone else

- m. **Explain the situation** when doing so will not harm the investigation or anyone’s safety
- n. **Do not make promises you cannot keep**
- 7. **GATHER INFORMATION ON THE INDIVIDUAL** from witnesses, acquaintances, and family members
- 8. **OFFER MENTAL HEALTH REFERRAL** information to the individual and/or family members

F-23 WATER RESCUE INCIDENTS

Subject

100 Guidelines

Effective

02/10/23

Summary

This order informs employees to use issued equipment and identifies considerations to be evaluated on a case-by-case basis when responding to a water rescue.

A. POLICY

1. **CHANDLER POLICE DEPARTMENT WILL MAKE AVAILABLE** to all officers a rescue throw bag to assist during any incident involving an attempted rescue of a victim(s) from a body of water
2. **DUE TO THE INHERENT RISKS ASSOCIATED WITH WATER RESCUES**, officer should attempt to exhaust all options available to them before entering the water to perform a rescue. Officers are advised to utilize a personal floatation device when available when a decision has been made to enter the water.
3. **DEPLOYMENT OF RESCUE EQUIPMENT** will be completed in accordance with department approved training
4. **THE USE OF THE RESCUE THROW BAG** has limitations so responding personnel shall ensure that Fire and EMS personnel are responding to the incident as they have advanced training and equipment necessary to water rescues

B. CONSIDERATIONS

1. **WHEN RESPONDING TO A WATER RESCUE INCIDENT** officers should use their training and available equipment to attempt to safely rescue drowning victim(s)
2. **FACTORS AND HAZARDS** to consider before attempting a water rescue:
 - a. Swimming competency of the officer
 - b. Weight of equipment and uniform worn by officer
 - c. Any relevant water survival training received by the officer
 - d. Availability of personal floatation devices to the officer
 - e. Size of the victim(s)
 - f. Victims instinctively grab onto rescuers, potentially compromising the safety of the rescuer
 - g. Distance of the victim(s) from the shoreline or location of the officer
 - h. Whether the officer has information the victim is attempting to evade police capture or is likely to be combative during rescue attempts
 - i. Time of day and lighting conditions
 - j. Weather conditions
 - k. Specific conditions of water or possible hazards in the water
 - l. Time delay of additional resources
 - m. Any other safety hazards or considerations

C. OFFICER RESPONSIBILITIES

1. **WHEN DISPATCHED**, officers ensure the Fire Department and EMS personnel have been dispatched
2. **ARRIVING OFFICERS** shall attempt to conduct a water rescue by using a department issued rescue throw bag
3. **A RESCUE THROW BAG** should be thrown to or just beyond the head of the victim
4. **THE RESCUING OFFICER** will then pull the victim back to a safe rescue location so they can be removed from the water
5. **IF PRIOR TO RESCUE** the victim falls below the surface of the water, officers on scene are tasked with keeping track of the last location the victim was seen above water
6. **ANY TIME AN OFFICER** enters the water, it presents a drowning risk to the officer and victim and all options should be considered before a decision to enter the water is made. Officers should always attempt to use a personal floatation device when entering the water due to the inherent risks associated with these incidents

[61.2.1]

1. **USE TWO OFFENSE REPORT NUMBERS** cross referenced to each other: Collision and DUI offense
 - a. Each report should stand on own merit
 - b. The collision report should contain a synopsis of the incident leading to the charge
 - c. Hit and Run charges should be on same citation as the DUI charges
2. **PROSECUTE A DUI CASE** when a driver involved in a collision is impaired and the only evidence is odor and the blood alcohol laboratory report. Write a DUI influence report.

**L. SOBRIETY
CHECKPOINTS**

[61.1.3] [61.1.10]

1. **PHILOSOPHY:** Sobriety checkpoints increase the real and perceived risk of detection and apprehension of the impaired driver. The support and cooperation of the public is essential. Officers must make every effort to ensure that a minimum of intrusion and inconvenience to the public occurs and that enforcement efforts do not create a greater hazard than the one we are attempting to reduce.

2. **JUSTIFICATION AND AUTHORIZATION:** The Chief of Police must approve sobriety checkpoints. Justify the selection of a location, date, and time with applicable DUI collision and enforcement data.
3. **NOTIFICATION:** The commander of the checkpoint will:
 - a. Provide at least one week's notice of the checkpoint to the Public Information Officer, who will in turn provide at least a three-day notice to the media for dissemination
 - b. Notify the City Prosecutor's Office, County Attorney's Office, Fire Department, other affected City departments, and community advocacy groups such as Mothers Against Drunk Driving (MADD) and Students Against Destructive Decisions (SADD)
4. **PHYSICAL CONFIGURATION OF SOBRIETY CHECKPOINTS**
 - a. The checkpoint must be consistent with the use of an approved traffic control plan, devices, and current court-acceptable procedures regarding the use of warning signs, barricades, traffic cones, warning lights, other safety equipment, and warning devices that may be required
 - b. Chandler Traffic Engineering will develop a traffic plan detailing the configuration
 - c. The commander of the checkpoint will ensure that permission is obtained from the owner or agent of any private property or parking area to be used in conjunction with the checkpoint
5. **CONTACT WITH VEHICLE OPERATORS**
 - a. The contact officer must be in uniform, wearing a traffic vest, and, whenever possible, HGN certified
 - b. The contact officer will say the following:
 - 1) "You have been stopped at a Chandler Police Sobriety Checkpoint in an effort to detect and deter impaired drivers. Have you consumed any alcohol or controlled substances tonight/today?"
 - 2) "Are you a resident of the City of Chandler?"
 - 3) "Would you please review this brochure, fill out the questionnaire, and mail it back to us with your comments?"
 - c. The above are the only questions permitted unless the officer determines there is reasonable suspicion to warrant additional questioning and/or field sobriety testing
6. **FURTHER INVESTIGATION**
 - a. **Justification:** Presence of odor of intoxicants and at least one additional indicator of impairment. Fully document the specific circumstances that led to the formulation of a reasonable suspicion of impairment.
 - b. **Limit enforcement action** to impaired driving violations or those posing an immediate hazard to the health, welfare, and safety of the officers and/or public. Handle other violations with a written warning.

7. **PROCEDURES**

- a. **Remove suspect from the vehicle** and escort to the follow-up area. Police personnel will properly park the suspect's vehicle and then request the suspect to perform a series of field sobriety tests.
- b. **Initial contact officer will remain** with that driver throughout the follow-up investigation and arrest process (if an arrest is made) and will be responsible for conducting all field sobriety tests
- c. **Release without a blood alcohol test** if field sobriety testing indicates that the driver is not impaired
- d. **If after administering the breath or blood alcohol testing** a driver is not to be charged with DUI, process him and release from custody in accordance with departmental policy

8. **SUPERVISOR RESPONSIBILITIES: A lieutenant or higher** ranked officer will be present at all times.

- a. If the supervisor determines that there is an **unnecessary traffic delay** being created, he may use the following formula to relieve congestion:

DELAY	ACTION
4 - 6 minutes	Stop 6, Pass 6
6 - 8 minutes	Stop 6, Pass 12
8 -10 minutes	Stop 6, Pass 18
Over 10 minutes	Pass all vehicles until the delay drops below 4 minutes.

- b. **Variations to formula**
 - 1) Must be approved by the on-site commander
 - 2) Must be systematic. Random stopping of vehicles is not permitted.
 - 3) Document the time delay caused to vehicles within the checkpoint each time changes are made in the interval stopping method
- c. **Insufficient officers** to properly conduct the checkpoint: Supervisor may terminate the checkpoint until sufficient officers are available. Document the length of time and reason the checkpoint was suspended.
- d. **Maintain the following statistics:**
 - 1) Number of vehicles through the checkpoint
 - 2) Number of drivers field tested
 - 3) Number of drivers arrested
 - 4) The charges
- e. **Make a telephone available** if breath or blood alcohol testing and the booking process are being completed on site (to meet judicial requirements for arrestee contact with an attorney and to facilitate the release of arrestee to responsible parties)

- f. **Operational Report:** The checkpoint commander will ensure that a detailed operational report is completed with statistical data and evaluation of the checkpoint. Submit this report to the Chief of Police within **10 working days** of the sobriety checkpoint operation.

9. AVOIDANCE OF CHECKPOINT

- a. **Vehicle making a U-turn or using escape route to avoid checkpoint:**
You may follow vehicle for a distance **not to exceed one mile**
 - 1) If officer observes a violation or suspicious driving, he may stop the vehicle and proceed as for a normal traffic contact
 - 2) If officer observes no violation within one mile, return to the checkpoint site without stopping the vehicle
- b. **Refusal to roll down window:** Wave vehicle through and may follow for a distance of not more than one mile
- c. **Refusal to stop** for the stop signs at the checkpoint: May stop and cite drivers for the appropriate violation(s). Examine such drivers for signs of impairment.
- d. **Refusal to cooperate:** Do not detain only for that reason. Follow the procedure outlined in U-turn above.

 - b. Is it reasonable to delay the load (e.g., there are no perishables or hazardous materials)?

**CHANDLER POLICE
DEPARTMENT
GENERAL ORDERS**
Serving with Courage, Pride, and Dedication

Order	G-01 TRAFFIC ENFORCEMENT	
Subject	700 Traffic Control	Effective 09/22/23

A. GENERAL GUIDELINES

[61.3.2]

1. **POSITION YOURSELF IN THE CENTER OF AN INTERSECTION** for officer safety and the best vantage point to observe traffic flow

Exception: When controlling foot traffic, a complex intersection, or when full manual control is not necessary, place yourself in the best position to observe approaching traffic and ensure high visibility by traffic
2. **WEAR A SAFETY VEST** and the standard issue police ball cap or helmet while directing traffic
3. **ONLY SWORN** personnel will direct traffic in an intersection
4. **A FIELD SUPERVISOR** will arrange for creating a manual traffic control point, including for special events and when and where required
5. **DO NOT USE MANUAL CONTROL** when existing automatic control device will alleviate the problem

B. HAND SIGNALS

[61.3.2]

1. **DO NOT GIVE ORDERS OR DIRECTION VOCALLY** to a motorist or pedestrian, except in an emergency. Use simple, **clear hand signals**, emphasized by the use of the **whistle**.
2. **USE CURRENTLY APPROVED** traffic direction and control methods for standardization:
 - a. **Stand facing one line** of stopped traffic with your side toward moving traffic
 - b. **Turn off any mechanical signals** at the scene if possible to avoid confusion
 - c. **STOP SIGNAL: Use one blast of the whistle** and the **manual "stop"** signal while standing sideways to the flow of traffic
 - 1) Extend arms from the sides at a nearly horizontal angle, bending slightly upwards at the elbow
 - 2) Hold hands vertically with the palm turned toward the traffic
 - 3) Note speed and distance carefully to avoid signaling moving vehicles to stop when it would be impossible or might cause a rear-end collision
 - 4) Give a "stop" signal when vehicles approach an intersection where cross traffic has the right-of-way if there are not other stopped vehicles there at the time
 - d. **GO SIGNAL: Use two blasts of the whistle with hand signal**. Maintain arms in the "stop" signal position and turn at right angles so your side faces traffic to be started.

- 1) When intersection clears, turn your head first to one direction while giving the "go" signal, and then to the opposite direction with a similar gesture using an unhurried, overhand, beckoning motion
- 2) It is not necessary to continuously repeat the "go" signal for a steady stream of vehicles, but signal vehicles approaching after a gap in the traffic flow
- 3) Use short, rapid blasts of the whistle to warn of unusual or hazardous conditions or for person's not responding to a hand signal

C. INTERSECTIONS

1. **DO NOT ALLOW VEHICLES TO ENTER** intersections they cannot clear because of congestion immediately beyond
2. **ALLOW LEFT TURNS BASED ON** traffic volume and conditions, unless otherwise directed by a supervisor
3. **USE GAPS** in moving traffic to stop traffic one direction to start cross traffic

D. EMERGENCY VEHICLES

1. **STOP ALL** vehicular and pedestrian traffic. Signal the driver of the emergency vehicle to indicate clear intersection.
2. **IF DRIVER SIGNALS** a turn, respond by motioning in proper direction
3. Check to see if **ANOTHER EMERGENCY VEHICLE** is approaching on a conflicting course. If so, give a very distinct "stop" signal to one of the vehicles.

E. VIOLATIONS OBSERVED

1. **MINOR TRAFFIC VIOLATIONS:** Overlook
2. **SERIOUS VIOLATIONS:** If and when feasible, instruct driver to clear the intersection and go to the nearest curb for enforcement

F. PROTECTIVE DEVICES

[61.3.2]

SAMPLE LETTER

(Current date)

Name - Registered Owner
Address - Registered Owner

Dear (Registered Owner):

On DATE at TIME a VEHICLE DESCRIPTION which is registered to you was seen in the vicinity of MAJOR CROSS STREETS driving in excess of the posted speed limit. A Community Policing Radar Trailer indicated the vehicle's speed was INDICATED SPEED in an area with a speed limit of POSTED SPEED.

This is not a citation! The Chandler Police Department in partnership with the citizens of Chandler has formed a cooperative effort to prevent accidents in residential areas. This notice is only to make you aware that a vehicle registered to you was seen exceeding the speed limit thus creating a hazard for the people who live in that neighborhood. The purpose of this program is to enlighten the motoring public and, hopefully, reduce the risk of vehicle and pedestrian accidents within the residential areas of our city.

Your cooperation in making Chandler a safer place for all is greatly appreciated.

Sincerely,

Sean Duggan
Chief of Police
